GRANVILE COUNTY IS SAFELY OVER GOAL FOR GUARANTEE MARKETING PLAN

State Zags, But Expects To Go Over By First Of Yea..

With the close of the "sign-up Flights From 3:30 O'clock To month" two weeks ago, lobacco growers in Granville county pledged Capt. W. H. Fillmore, with his a sufficient tonage of the county's crop in 1922 to the cooperative market system, the agreement holding on for five years, according to Mr. P. W. Knott, who is one of the oranizers and leaders in the movement

Granville county is and for some time has been safely beyond the fifof the three States of North and South Carolina and Virginia if the Cooperative plan is to be put into effect. The State of Virginia is likewise over its quota, it is said, but North Carolina is still a little shy. There will be no let-up, however, it is said, in the campaign to reach the four motors, the fifth motor having confident that the amount will be reached by the first of January, by which date the mark set must be realized if the plan is to be operative

North Carolina's crop of 1919, upon which the campaign is being astonishing to contractors and gratibased, was approximately 400,000.-000 pounds, or possible a little more than that. It will be seen, thereand robbery. He was acquit that the desperado spent Monday Texas, with thirty instructors under fore that at least 200,000 pounds has ever attempted on behalf of its and a liftle more to be on the safe citizenship have ever been gotten ride, must be pledged to the coopera- going with a little fuss as the road- many of the responsibilities of war caped from the prison in Trenton one broke into the home of a colored | Capt. TO BEGIN LAYING HARD SURFACE ON THE NATIONAL HIGHWAY IN FEW DAYS

ford Will Be Pushed.

The State Highway Commission announce that the contract to build | five miles of the National Highway north of Oxford will be let next Tuesday and that work will begin immediately on the project.

Reduction In Costs.

Radical cuts in the cost of hard surfaced roads offered in the bids of the Union Paving Company, of Philadelphia, on contracts let last week have caused consternation, among contractors, and further price cutting is looked for. The Philadelphia concern took almost everything in sight last week, bidding \$264,000 under the next low bidder, on work that totaled somewhat more than \$900.000.

The entry of this new contracting company into the North Carolina field came as a surprise to North Carolina contractors, and its cut in the cost of roads to less than \$26,000 per mile when roads of the same type were costing just double that less than a year ago, has oeen somewhat fying to the Highway Commission. Road Program Well Underway.

Few things that North Carolina on the size of the job, there never has been anything of such moment attempted on which the people were so well united.

Unquestionably the lowered cost of building roads is operating to increase the confidence of the folks, most of whom now are able to see that there is to be a system of highways serving the whole State.

FOURTH RED CROSS ROLL CALL LAUNCHED

IN OXFORD YESTERDAY The Five-Mile Project North Of Ox- Miss Mary Malcolm Is Here Looking

After the Work. Miss Mary Malcoim, Field director of the American Red Cross, began preliminary work vesterday looking toward the perfecting of the Red Cross organization in Oxford Icr

the Fourth Roll Call, hich begins

November 11. "We are finding the people of the South keenly alive to the imperative necessity for, not only the carrying on of the present peace program of the Red Cross, but for its extension," said Miss Malcolm, "and on that account we are looking forward to a generous and enthusiastic response when the roll is called for those who stand for the progress of

humanity. "Many people however, still do not know just what our peace program is. The Red Cross is chartered as an organization to meet the emergency of great national cataclysms or local disasters and with the United States at peace with the world, it is difficult for some to see just how vitally important is the work we are

"The fact is that the Red Cross's biggest work was outlined for it after the armistice was signed and the last gun fired on November 11, three years ago. The war had ended, but had just begun.

"Take for instance the work we are doing for our disabled soldiers. In 1919 there were only 3,000 of these boys in hospitals under government care. In 1920 that number had increased to 17,500 and in 1921 to 26,300. The coming year will doubtless find the number increased in the same or a greater ratio.

"The Red Cross "s spending \$10,-000,000 a year to help the ex-service man and his family. This money is used in setting machinery in motion to get him the compensation. A quiet, but pretty marriage was or the hospital treatment, or the educational opportunities that are ment is glad to give if the man can home fires are kpt burning while he spent to see that he has an opportunity to utilize his new usefulness big, big work of the Red Cross and no one can realize its vastness until the Red Cross is a great humanizing an equal chance with his fellows in times of peace."

> A BID THAT DID NOT TEMPT O. MAX GARDNER

Mr. O. Max Gardner generally known to be one of the largest and most progressive farmers of Cleveland County, seems to have been persuaded into selling off some of his holdings, and he put one tract of 337 acres at the service of an auctioneering firm. He made sure, however to bargain that he would not confirm the sale unless the price obained suited him. The farm brought \$39,800 at public auction and as that appeared the best prospect for the day. Mr. Gardner called off the sale. The incident goes to show the increasing valuation of farming lands in this State. Time was not so long ago when an offer of nearly \$40,000 for this farm would have been taken up quick as a flash by the owner and the Cleveland Star would have been advertising the fact to the world that Cleveland County boasted of a Rockefel-

DAY ON OXFORD MARKET

day. Speaking of the day on the

selling at the Farmers it was 10 minutes of 5. The Granville warehouse had no sale Tuesday owning to the fact that night overtook them at the Farmers. I saw right much good tobacco sell in the fifties and sixties and every house sold tobacco up in the seventies. Seventy-seven was the highest I saw seli. I saw first class mahogany fillers sell for 31, 49, 58, and old common brown tobacco was a big advance in the price of that kind. In the face of a glut, prices remained high all day
