

CASTORIA For Infants and Children In Use For Over 30 Years Always bears the Signature of *Chas. H. Littlejohn*

SLIGHT CHANGE OF SCHEDULE ON S. A. L.

Does Not Effect The Oxford-Henderson Branch. (Henderson Daily Dispatch) Several important changes of schedule of passenger trains on the main line of the Seaboard went into effect Sunday.

Nos. 15 and 16, between Portsmouth and Norlina, which for several months have been running through Henderson and on to Columbia, have been discontinued on this section of the road, and restored to their old runs.

Of the southbound trains, No. 5 is changed from 2:47 a. m. to 2:45 a. m. No. 1 passes the same time as before, at 4:30 a. m., but makes no stop here.

Of the northbound trains, No. 6 is changed from 12:01 a. m. to 12:00 a. m. No. 302, new train, passes Henderson at 11:56 p. m.

MR. J. H. ROGERS DEAD.

Passed Away At the Soldiers' Home.

Mr. J. H. Rogers, one of Creedmoor's highly esteemed citizens died suddenly at the soldier's home at Raleigh on Christmas morning, aged 80 years.

Mr. Rogers was twice married and is survived by two children by his first marriage, Mr. S. H. Rogers of Creedmoor and Mrs. J. P. Royster of Durham.

THE FLU TOUCHES

MR. H. E. CREWS

Closes One Ear Of The Old Gentleman.

I have been down with Flu for six weeks; it has left me in a bad condition; my left ear abscessed; I have had ear-ache for 3 weeks; also deaf in that organ.

Well, Xmas has come and gone and this is the 8th of Jan. '23. I wish all the readers of the Public Ledger a happy and prosperous New Year.

More moving than I have ever seen before. Crops around Watkins were fairly good. I have a colored tenant, Billy Cobb, that deserves special mention.

H. E. CREWS.

NORWOOD TELLS OF

CO-OP EFFICIENCY

Can Work With Less Warehouse Space and Help Than Old System.

Goldsboro special: "We have found that we can handle as much tobacco in one warehouse as has ever been handled here before under the whole auction system in all the warehouses, and we propose to handle it in one warehouse and save all the other expense," said George A. Norwood, president of the Tri-State Tobacco Growers' Association.

Mr. Norwood stated that some of the highest grades had been sold, and some of the lowest grades, and that the average price on the co-operative market was just about what the average market price tobacco was bringing.

Norfolk's Place In The Census

(Virginian Pilot.)

By a decree of court, effective last midnight, Norfolk underwent a new birth. From an estimated population of more than 120,000 it advanced overnight to an estimated population of 150,000.

Total \$164,065.89 State of North Carolina—County of Granville, January 6, 1923.

I, W. R. MANGUM, Cashier of the above named Bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

W. R. MANGUM, Cashier.

Subscribed and sworn to before me this 6th day of January, 1923. J. W. MEDFORD, Notary Public.

My com. expires June 12th, 1924.

Correct—Attest: J. H. GOOCH, J. H. STEM, W. H. HUNT, Directors.

—The Pennsylvania Railroad serves approximately 10,000 meals daily in its dining cars.

NO NEED TO SWALLOW DRUGS

It is logical that pouring drugs into the stomach will not cure catarrh in the head. Hyomei, medicated air, reaches the seat of the disease. Guaranteed by J. G. Hall.

—The followers of Emiliano Zapata, the dead rebel leader of Mexico, are to be given a tract of land in the state of Morelos by the Federal Government. One of Zapata's aids will head the colony in which 150 former Zapatistas and their families will live.

START THE NEW YEAR RIGHT!

Resolve to get all your Drug Needs from our store during the coming years.

WE Wish one and all a Happy and Prosperous New Year.

Lyon Drug Co.

In Business for Your Health "Is the Place"

COLLEGE STREET, OXFORD, N. C.

A Quarter Century Of Service

"If a man write a better book or preach a better sermon or build a better mouse-trap Thy he live in the depths of the forest The world will beat a path to his door."

25 years ago a small druggist—in a small town—discovered a new way—an "external" way—to treat colds. So Vicks was born.

And for a quarter of a century, in ever increasing numbers, the world has beaten a path to its door.

Until today more than 17 million jars go out yearly to serve the people of this land.

Avoid Influenza---Grip---Pneumonia

Apply Vicks to help avoid infection.

Use Vicks at the first sign of an oncoming cold.

MOST medical authorities now agree that Colds, Grip, influenza and Pneumonia are all germ diseases—most commonly spread by breathing in the germs. If the system is in good shape—the membrane of the air passages in a healthy condition—these germs do not breed.

In fact the germs of all of these diseases are frequently found in perfectly healthy persons. It is only when the bodily resistance is lowered—as by a cold for instance—that they are able to harm us.

Avoid Sneezers and Coughers

It is best to keep away from the sneezers and coughers in the street cars and public places or if you must meet them insert some Vicks in the nostrils before you start out. On returning home, melt a little Vicks in a tin cup or a spoon and inhale the vapors.

Opposed to Bacteria

The ingredients of Vicks are not only antiseptic, but rubefacient—that is they summon the blood to the tissues where applied and this free blood circulation is nature's best method of repelling germ infection. Also Vicks spreads a protective film over the membrane and furthermore is opposed to the growth of bacteria. In short, we believe you have a much better chance to avoid infection by these numerous germs if you have Vicks in your nose.

Attack a Cold Immediately

When you feel a cold coming on, go right home. Take a laxative. Make some hot lemonade then take a hot bath—as hot as you can stand. Stay in the tub 30 minutes sipping slowly several glasses of the lemonade. Get into bed, with a hot water bottle at your feet, and pile on blankets. After an hour's sweat, dry thoroughly with a rough towel, apply Vicks over throat and chest, rub in well until the skin is red, and then spread on thickly and cover with one or two thicknesses of hot flanne cloth. Get into bed again between dry sheets. Leave the bedclothing loose about the neck like a funnel so that the rising vapors may be freely inhaled. It is an obstinate cold indeed that will resist such treatment. It does call a physician.

Acts Two Ways At Once

Vicks is of benefit in cold troubles in two ways. First—it is absorbed thru and stimulates the skin thus helping to relieve the soreness loosen the phlegm and make the breathing less difficult. Second—At the same time the ingredients, released as vapors by the body heat, are taken with each breath directly into the congested, inflamed air passages.

A Vapor Lamp in Salve Form

Vicks is the discovery of Mr. L. Richardson, a North Carolina druggist. He realized that cold troubles were affections of the respiratory organs and that the only way to get medication direct to these parts was in the form of vapors. Mr. Richardson finally worked out the process for making Vicks, so made that the body near

releases the volatile ingredients in the form of vapors. Vicks really is "a vapor lamp in salve form."

The Ingredients of Vicks

Since the dawn of history mankind has been searching nature for remedies against cold troubles. The knowledge gained thru a thousand years has come down to us today. Vicks contains the best known remedies for these troubles, some of them of great antiquity. Menthol, for instance, comes from Oil of Peppermint which was grown in Egypt three thousand years ago, and whose virtues are described in the old Icelandic books of the 13th century.

The highest authority on drugs and their uses is the U. S. Dispensatory. We give below a few extracts from the Dispensatory on some of the ingredients in Vicks.

MENTHOL—"It is actively anti-bacterial. It is employed for its antiseptic and anaesthetic influence in coryza, pharyngitis and laryngitis."

CAMPHOR—"Has a peculiar and agreeable effect on the mucous membrane—relieves congestion and inflammation—is a powerful stimulant to the respiratory centers."

OIL OF EUCALYPTUS—"Germicidal, antiseptic and stimulant—largely used in chronic bronchitis and infections of the upper respiratory tract—its vapors are very efficient."

OIL OF THYME—"This drug is a powerful antiseptic with wonderful healing properties, especially in congestion and catarrhal conditions of the nose and throat."

OIL OF TURPENTINE—"Its vapors are an excellent remedy for, and highly beneficial in, various forms of bronchial and lung troubles—has powerful healing antiseptic properties."
