 Over 17 Million Jars Used Yearly

—The Ruhr Valley produces 68.9 per cent of Germany's coal, and 66 per cent of her steel.

Hurry, The Scourge Of America.

Everything that is great in life is the product of slow growth. The newer, and greater, and higher, and nobler the work, the slower is its growth, the surer is its lasting success. Mushrooms attain their full power in a night, oaks require decades. A fad lives its life in a few weeks; a philosophy lives through generations and centuries. If you are sure you are right, do not let the

voice of the world, or of friends, or of family swerve you for a moment from your purpose. Accept slow growth, it must be slow, and know the results must come, as you could accept the long lonely hours of the night—with absolute assurance that the heavy-leaded moments must bring in the morning.—William George Jordan.

KEEPS CHILDREN WELL AND STRONG

THIN, pale, impoverished blood makes children frail, backward and delicate. Gude's Pepto-Mangan creates a bountiful supply of pure, red blood, restores bodily strength, brings back color to the cheeks and builds firm, well-rounded flesh. For over 30 years Gude's Pepto-Mangan has been recommended by leading physicians as a tonic and blood enricher. Your druggist has it—liquid or tablets, as you prefer.

 Tonic and Blood Enricher

EASTER MESSAGE

Our Easter message to you, the same that the angel gave to Mary about two thousand years ago when she visited the tomb of Jesus that first Eastern morning is: "Go Quickly" and tell the story of the risen Lord and His love. If you cannot go and take the message, send the message.

In the great U. S. Veterans Hospital at Oteen there are about 900 patients as the result of the most cruel and unnecessary war the world has ever known. They are making the same heroic fight against the Grim Minster, but at far greater odds, as they did in the battlefields of France. Many of them win the fight and return to home, loved ones and active life; others succumb.

Flowers are God's messengers of His great love, their fragrance and beauty embodying the highest and most perfect love.

A potted plant in flower and bunches of flowers, God's messengers of love, will be placed at the bedside and in the hands of every one at this hospital and in the Red Cross by the Baraca Philathea Union of North Carolina for Easter, and at frequent intervals throughout the year. This has been done by the Baracs and Philatheas since the establishment of the hospitals, and will be continued.

May we feel it a sacred privilege to know that each of us—all—everybody have had an opportunity to send flowers to these boys and girls, our heroes and heroines, who have sacrificed health, home, family and life itself for freedom, for you, and for me. Funds in any amount are solicited for the "flower fund" for the patients at Oteen. Acknowledgment will be made of each amount received and used for this purpose, and each person or organization given proper credit for this gift or love.

Send check, money order or draft to the undersigned, and oblige.

Yours sincerely,
 MRS. N. BUCKNER,
 General Secretary.
 Asheville, N. C.

Why Sailors Tattoo Their Bodies.

The practice of tattooing, which men of the still favor, was first derived from their visits to uncivilized tribes of India. No doubt the first sailor who observed a tattooed native was interested, and the only way he could tell the folks back home what he had seen was to bring a sample of it on himself. Later a tattoo mark on some part of the body was a sure sign of a much-traveled man.

Tattooing is of two kinds. One method is to make small punctures in the skin into which dyes are put, according to the design planned. The other method is accomplished by repeatedly making cuts in the skin so that the resulting scars, without the addition of coloring matter, will form the design when healed. Color tattooing has always been more or less ornamental, but scar-tattooing is more frequently used to produce distinguishing tribal marks—even of different ranks within the tribe. Some tribes scar the whole body—others only certain portions.

Most native tribes tattoo their married women in some form or other. In some tribes the young unmarried women are tattooed on their bodies before marriage, and then are subjected to having their faces so marked just before or immediately after marriage.

Kings Mountain As a Mill Center.
 (From The Herald)

We quote a Shelby dispatch last week as saying that there were 16 cotton mills in Cleveland County by counting the one just started in Waco. We find upon counting up that the Maco mill will make out 21 mills in the county. Kings Mountain has 11 of these instead of 10 as stated last week. The things bob up so fast that it bothers us to keep them counted. So, we have one mill more than all the rest of the county put together.

ANCIENT WATCH IS OWNED BY STOKES COUNTY MAN

Dr. E. M. Griffin, druggist at King, Stokes County, has a watch which was originally owned by Thomas Jefferson. Dr. Griffin has owned this watch since 1894. The watch was pawned to him by a young man who was a member of one of the first families of Virginia and he was financially embarrassed at the time. This happened while Dr. Griffin was attending the University of Virginia. The watch is a very ancient looking one with open face gold case and an English movement. The name of Thomas Jefferson is engraved in the watch. Dr. Griffin has been offered \$500 for it but he would not sell it. Some Richmond, Va., parties are corresponding with him now with a view of purchasing the watch.

Chamberlain's Cough Remedy.
 Nothing So Good For a Cough or Cold
 "Everyone who has used Chamberlain's Cough Remedy speaks well of it," writes Edward P. Miller, Abbotstown, Pa. People who once use this preparation are seldom satisfied with any other. It is excellent to allay a cough or break up a cold.

—Copper is more valuable than gold from a standard of usefulness. Gold is heavy, soft, of low tensile strength, high electrical resistance, low heat conductivity. Copper is employed in so many uses that if it should fail, civilization would halt its onward march until some substitute could be produced.

ITCH!
 Money back without question if HUNTS GUARANTEED SKIN DISEASE REMEDIES (Hunt's Salve and Soap), fail in the treatment of Itch, Eczema, Ringworm, Tetter or other itching skin diseases. Try the treatment at our risk.
 J. G. HALL, Druggist

Radiators & Tires Repaired

You know how worrying a leaky radiator is, and how expensive a new one is. We can relieve you of the worry and save you the expense of a new one too. Our vulcanizing department is prepared to fix your tires so they will deliver a good deal more service. Give us a call.

We have a complete stock of Chevrolet parts—see us before you buy and save money.

23 SERIES STUDEBAKER LIGHT-SIX SEDAN \$1550

Hidden qualities largely determine the value and life of a closed car.

Beauty of line and finish and refinements are surface indications and important ones. But your satisfaction with a closed car depends to a great degree upon factors that are unseen—the in-built qualities that come from correct design, use of highest grade materials and careful workmanship.

The 23 Series Studebaker Light-Six Sedan is a quality car. It is built to endure—to give lasting satisfaction.

The Sedan body is substantially made. It will last for years and retain its beauty and comfort. Evidence of its hidden goodness lies in the fact that down under

the paint and varnish, the pillars, roof rails and supporting members are made from specially selected ash. Good ash is expensive but Studebaker uses it because it best combines the proper strength and weight.

Four wide-opening doors make it easy for all passengers to get in or out without inconvenience to each other. A high-grade heater affords summer warmth on cold, damp days. The wide windows give broad vision in every direction.

When you buy a Light-Six Sedan you are really accepting the judgment of 100,000 owners who have found the Light-Six chassis so satisfactory.

Studebaker quality is traditional.
