SPRING FASHION SHOW

A Fashion Show For Oxford, And Why Not?

As stated in the last issue of the Public Ledger, the Oxford merchants are as up-to-date as any, and if you don't believe it, you just watch for the Fashion Show to be presented March 23rd under the auspices of the local Merchants, William Shakespeare and the Woman's Club.

More than a dozen merchants have engaged space for representation. To the list of firms published in the last issue of the Public Ledger should be added the Lyon Drug Company, as listed and handed in by the committee. Mrs. R. C. M. Calvert and Mrs. A. H. Powell, the committee in charge, state that other interested merchants may engage space for representation, for which there will be no charge.

It is understood that the fashions placed on display will be worn by living models, and the Public Ledger is advised that it will be a most pleasing event.

The following were among the Oxford people who attended the presentation of the play in Henderson on Saturday: Misses Mary Landis, Treva Garman, Mozelle Waters, Mr. and Mrs. E. B. Howard, Mrs. R. T. Howerton, B. S. Royster, Jr., Robert Fort. Mrs. M. P. Chamblee and Mr. Travis Chamblee motored to Smithfield Saturday to visit relatives.

THE COLOR SCHEME

Now, Isn't This Just Like a Woman?

He was puzzled whenever he received a letter from Madame Bonnet. It was a year since he had seen her and she had been writing two or three letters a month. They all bore 3-cent stamps, though the envelopes were femininely small. Why 3-cent stamps when 2-cent stamps would do?

One day not so long ago Madame Bonnet wired she would be in the city on the following Saturday. He arranged to meet her for dinner. He asked about the 3-cent stamps.

"Oh, just a little whim of mine," she said lightly. "I've been using lavender stationery for several months and I can't bear to think of sticking a red stamp on it. There should be a variety of colors for 2-cent stamps, don't you think?"—New York Sun.

Ivey Allen of Trinity College, Ernest Mitchel of A. & E. College, Raleigh, Chas. Easton of U. N. C., spent the week end at home.

An elegant three-course six o'clock dinner was served last Saturday by Miss Ruth Pitchford. A very interesting game of rook was played. Those present were Miss McMicken, Miss Helen Salls, Mrs. Ann Woodall, Miss Russell, Miss Kline.

BASKETBALL AND SCHOLARSHIP

The Players Average Three Points Higher Than All Other Boys In Their Classes.

There is a wide spread belief among the uniformed that there is too much time devoted to athletics in our schools. They are possessed with the idea that the only way to make a man out of a boy is to place a grubbing hoe in his hand or stand him up behind a plow as soon as school lets out in the afternoon. The Smithfield Herald says:

"Superintendent Franks has just made a comparison of the grades of the members of the basketball team with the grades of the other boys in the same classes from which the players come. The average grade made by the basketball boys for the last

school month, a month right in the heart of the basketball season, was 82. The average grade made by all the other boys in 8th, 9th, 10th, and 11th grades was 79. The basketball players averaged three points higher than all the other boys in their classes.

This information has been worked out for the benefit of the parents who feel that the time devoted to athletics would be better spent on studies. Of course it is easy for a boy to become so interested in athletics that he will neglect his studies. The boy who does not pass his work can not play on the teams. The ideal which Superintendent Franks is emphasizing is that in order to develop the best they have in them the students must do a lot of hard work and a lot of hard playing."

WHO IS "ROSY POSY"?

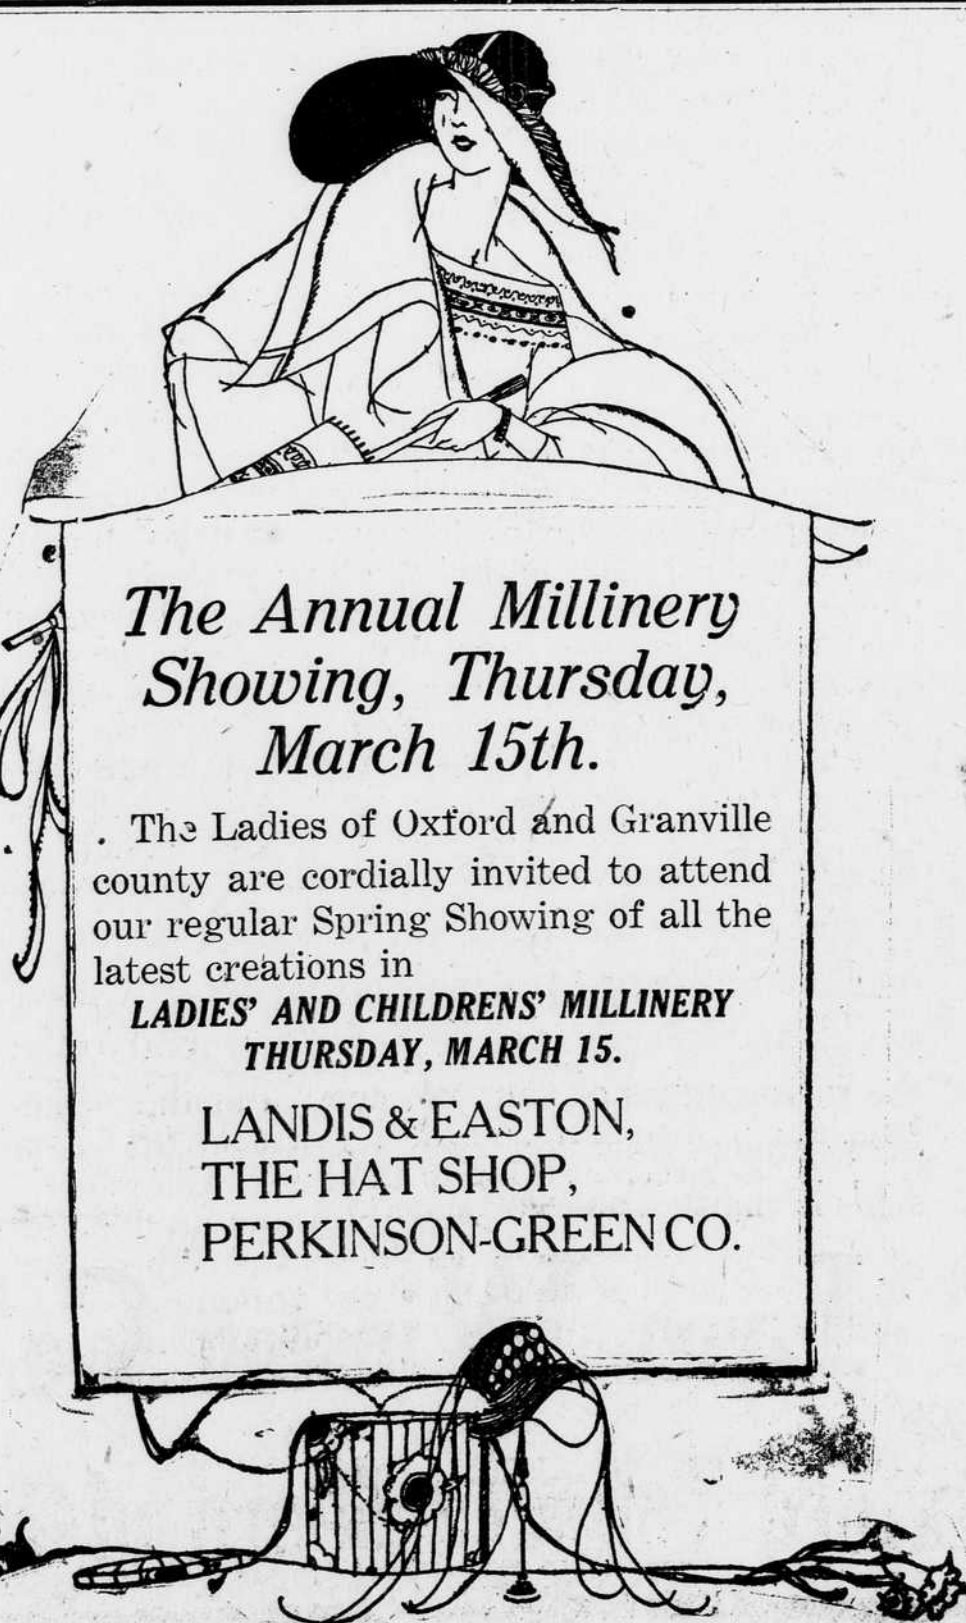

Her Real Name Is Kept From the Public.

Baltimore Special: When little "Rosy Posy," aged five-years, celebrates her 21st birthday she will receive \$75,000—possibly more—which is being held for her in trust. Until then she will be known only as "Rosy Posy."

"Rosy's" real name is known only to her parents, said to be prominent in this city, and Sister Dora, in charge of St. Vincent's infant asylum, where the child will remain another year. She then will be sent to another institution, to remain until she attains her majority.

Sister Dora declined to reveal the name of the child's parents, or their reasons for placing her in the asylum.
