OLDFIELD PREDICTS FOUR-WHEEL BRAKES GENERAL

To an inquiry regarding his opinion as to four-wheel brakes, Barney Oldfield, in a current article, replies: "Four-wheel brakes are not alone safe, but after you drive a car equipped with them you will understand what real braking ability is like. Four wheel brakes must come on all cars, light or heavy. One of the big that adjustment is not needed for long periods. I have driven a four-wheel brake car for 20,000 miles without an adjustment being needed. You cannot lock the front brakes."

Water and Typhoid. (Dearborn Independent) During June and July, 1920, there were about 115 cases of typhoid fever in Pittsburg, California. This was due to a lack of a stock of liquid chlorin. The water supply from the Sacramento River was pumped into the mains, for a least one day without being sterilized, and an epidemic followed. Eighteen typhoid victims pooled their interests and sued the city for damages. They were awarded \$32,821, the largest individual amount being \$12,500.

Ah! That's Real Paint

As you dip your brush into the heavy lead body of

you instantly realize why it covers (hides) and protects the surface so much better. There isn't any magic about it—Kurfae is just better paint. Good painters use and recommend it because it contains more pure lead per gallon. Look at the formula:

Pure Carbonate Lead - 80%
Pure Zinc Oxide - 20%

It's surprising the small amount of Kurfae required to paint a house right. Let us figure the amount for you and show you the beautiful color selections.

PASTE THIS UP BY YOUR FURNACE

1. Be sure you get coal of the right size for your heater.
2. Fill up all air leaks round the heater.
3. Cover the heater and all pipes with insulation.
4. See that basement windows and doors are tight.
5. Keep flues and heating surfaces clean.
6. Keep ashes and clinkers out of the fire box and ash pit.
7. Don't pile on coal twice a day and forget it; keep the top layer of coals glowing.
8. Keep the air in your rooms moist. If you do, a temperature of 68 degrees is warm enough.
9. Have storm windows or weather strips.
10. Draw your window shades at dusk.
11. When you open a window, turn off any radiator or register near it.
12. Place the heater as far from the chimney as possible.
13. Insulate the pipes that go up between the walls.
14. Insulate the outer walls: "wrap the house in a blanket."
15. Have an insulated roof.

Small Encouragement There.

(Houston Post.) Those who are endeavoring to commit the country to a policy of nullification of the Volstead Act are entitled to all the encouragement they can get out of the Vermont election. To the impartial mind it constitutes but another ratification of the Amendment, and is evidence that the majority of the people want the prohibition laws enforced.

DON'T EXPERIMENT

You Will Make No Mistake If You Follow This Oxford Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are frequently symptoms of kidney trouble, and a remedy which is recommended for the kidneys should be taken in time. Doan's Kidney Pills is a good remedy to use. No need to experiment. It has acted effectively in many cases in Oxford. Ask your neighbor! Follow the advice of an Oxford citizen.

Mrs. Bettie Lynch, 7 Mill St., says: "Some time ago I had a slight touch of kidney trouble. My back was sore and stiff and there was a dull, heavy feeling over my kidneys and my back ached. My kidneys were irregular in action. I used Doan's Kidney Pills and they cured me. Doan's are a fine remedy for kidney trouble." (Statement given June 29, 1918.)

On December 15, 1921, Mrs. Lynch added: "I haven't needed a kidney medicine for some time. It was Doan's Kidney Pills that cured me and the cure has been a lasting one." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Lynch had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
