

## Conservative Management

is the most important safeguard a bank can have.
Capital and Surplus come next-then Covernmental Supervision.
The National Bank of Granville has behind it thirty-five years of süccessful service and within that period the capacity and integrity of its management has never been questioned.
It has Capital, Surplus and Undivided Profits of more than $\$ 200,000.0 \mathrm{O}$ for the protection of deposits, and its operations are subject to the supervision of both the United States Government and the Federal Reserve Bank.

## National Bank Of Granville

Resources MORE THAN A MILLION AND A HALF.
