DON'T GET EXCITED
 Michigan State Supreme Court has upheld the officials of the State Normal School in expelling a woman student for smoking cigarettes. This is a terrible infringement of personal liberty, but somehow, we can't manage to grow excited about it.

HUSBAND HUNTING
 California State Bureau of Vital Statistics says 31 per cent of the State's divorcees, or 7959, got married last year, while only 13 per cent of the unmarried girls, or 6987, won husbands. We can only surmise that the single girls trusted to Cupid's bow and arrows, while the divorcees, rich in experience, brought 'em down with machine guns.

"PAT" MORGAN.
 Patrick J. Morgan, manager of the Cincinnati Reds, was a national figure in the national game. Baseball is the great leveler in American life, cleaner and more democratic than politics. Clerks and their bosses, small boys and their grandfathers over half the continent knew "Pat" Morgan and loved him for his fighting pluck, his smiling good nature and his tight-lipped leadership. He was one of the greatest of managers, as he had been one of the headiest of players. He died in harness, not so very old in years, but a grizzled veteran of a game which exacts heavy toll from youth.

"MOB TYRANNY"
 Dr. MacCracken, president of Lafayette College, has found a new danger that threatens college men. Students in universities have been called many hard names. They were "snobs" and "willie boys" in the slang of an older generation, and in the elegant argot of this hip-and-cocktail-shaking period are anything from "cake eaters" to "parlor pinks." Their morals and manners have been variously appraised—and damned. But until Dr. MacCracken suggested it the other day, no one had called them victims of "the tyranny of the mob."

"The tyranny of the mob, which is the great danger of all democracies," said Dr. MacCracken, "threatens today the colleges of this great democracy." He meant, as he explained, that the modern college reduces every man to one level. The remedy he suggests is twofold, namely, the development of creative ability and a better training in sound appraisal of values."

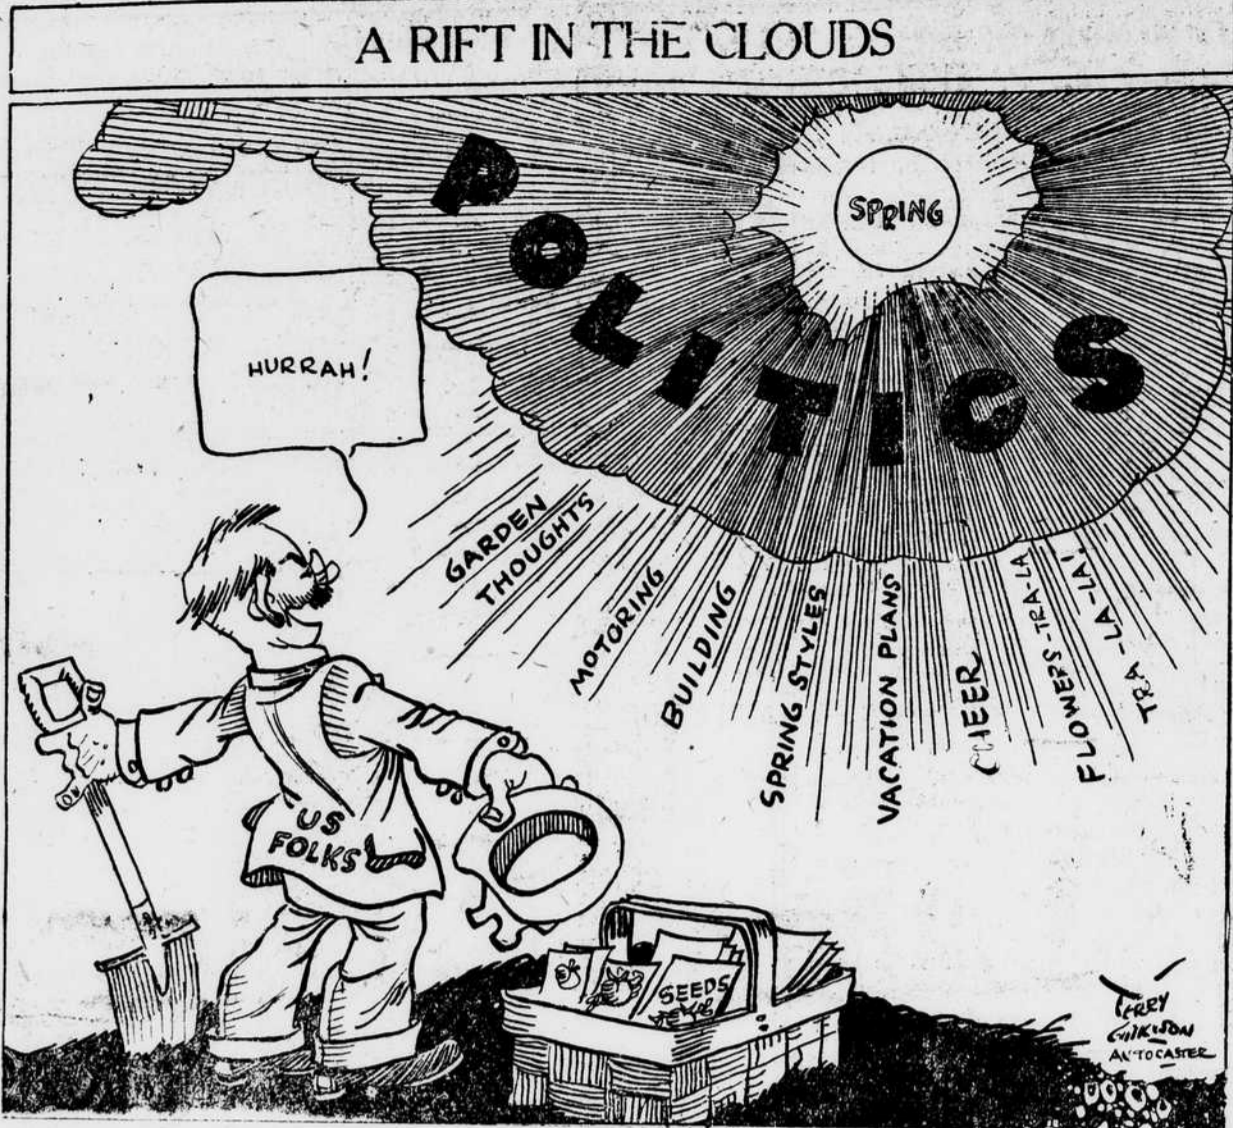

CITIZENS ONCE MORE.
 President Coolidge is restoring citizenship to men who deserted from the service when "a state of war" existed only in a technical sense in a concession to human nature, ever seeking change.

Men who fought the enemy off his feet while the excitement of battle buoyed them up, who endured hardship and mud and vermin in the trenches with stoic patience, who between battles found respite in the back areas a heady stimulus for the excitement that was to follow, went to pieces after the armistice. The months of fever, abating suddenly, left an emul behind that was worse than barrages.

The same curse of the restless eye and wandering foot that followed men who were mustered out and sent from job to job, impatient of restraint and of the orderly processes of humdrum normal life, sat with double malice on the shoulders of the men forgotten in demobilization camps. Many deserted. Perhaps it was not home that called them so much as the irksome desire for some change, worse or better mattered little. They deserted, and they were caught. Then came court-martial and military prison, and after it was over the lasting stigma of lost citizenship.

The presidential act of amnesty does not restore the rights of men who deserted during actual hostilities. It holds out no hope for the Berdolls, nor for men who are still at large, except as they shall atone for their desertion. It applies to the men who deserted between Armistice Day and July 2, 1921, when peace, already a bit passe, made her official debut.

The war has left rancor and un-

happiness enough behind it; the President removes one unnecessary cause of suffering.

LOUISIANA WOMAN IS SURVIVED BY 159 DESCENDANTS

New Orleans, March 12.—What is believed to be a record in large families in Louisiana became known today with the death here of Mrs. Farston Champagne, 80 years old, who is survived by 159 living descendants. She had resided all her life in Houma, La.

She married at the age of 16, her husband dying when he was 79 years old.

In addition to fourteen children, the eldest being 63 years old and the youngest 33, Mrs. Champagne left 16 grandchildren, 67 great-grandchildren, and two great-great-grandchildren.

—Statistics reveal that one person out of every 12 is now working for the government. But how many are just working it?

—Scientists now say that the next war will be fought with electricity, which bears out the popular belief that it will be the most shocking of all.

—A clear conscience is another thing not readily available for a cash

Damages and Repairs.
 A negro woman of mammoth proportions and inky complexion was in an automobile accident. She was taken to the hospital, where she soon regained consciousness. The doctor, seeking to comfort her a bit, said to her:
 "You will undoubtedly be able to obtain a considerable amount of damages, Mrs. Johnson."
 "Damages!" said Mrs. Johnson. "What Ah want wif damages? Ah got enough damages now. What Ah wants is repairs."

—It is reported that a janitor become a member of a college faculty. Let us hope that he saved enough money while janitoring to support his family in the style to which they were accustomed.
