

Practical Nurse Tells

Mrs. N. E. Snow, of Route 1, near Paris, Tenn., tells the story of her experience as follows:

"I am 62 years old and I have been a practical nurse for more than 20 years, taking mostly maternity cases. One of my daughters suffered from cramping at . . . She would just bend double and have to go to bed.

CARDUI

The Woman's Tonic

was recommended to her and she only had to take about two bottles, when she hardly knew that it was . . . she suffered so little pain.

"My youngest daughter was run-down, weak and nervous, and looked like she didn't have a bit of blood left—just a walking skeleton, no appetite and tired all the time. I gave her two bottles of Cardui. It built her up and she began eating and soon gained in weight and has been so well since."

Cardui, the Woman's Tonic, has helped suffering women for over forty years. Try it. At all druggists'.

MARS WILL TEACH US. HOPE FOR THE HOPELESS. ONE GOOD DEED. THE GREAT DERBY.

Sending photographs by wire is at last perfectly successful. This will mean more to the education of this earth than we can realize now. Merely gratifying curiosity or capturing criminals by telephotography on this little planet isn't the important thing.

What can be done on wires can be done through the ether that separates this earth from other planets in our family.

We shall get from these planets radio portraits showing faces of their strange inhabitants and radio "blue prints" from Mars showing us how to dig canals to store the waters of the oceans when frost, rain and attrition make this earth perfectly round, leaving no natural cavities to hold the water.

If the earth were absolutely round, as it will be in a few million years, the ocean would cover it about a mile deep everywhere. We must know how to prevent that. Mars, tens of millions of years older than Earth, will reach us by radio.

If that sounds preposterous remember what you would have said twenty years ago if you had been told that a preacher in Chicago some day would be heard in Los Angeles and Newfoundland in the same second.

Republican gentlemen that tried to "frame up" Senator Wheeler, as corrupt detectives once in a while "frame" a victim when they need a scapegoat, are in trouble. Men in Montana who thought that copper should control the State, and the men in Washington who thought oil should control the Nation, both disliked Wheeler and decided to put him in jail. They will wish before the thing is over that they hadn't made that attempt. It wasn't a good time for it, although it has doubtless often been done before.

Here's hope for the hopeless, the victims of hay fever. Mr. Coolidge, who has a "rose cold," sits for forty-five minutes in an air-tight room, breathing in air mixed with chlorine gas. He leaves saying "the trouble is gone."

Chlorine gas cures colds in men and epizootic in horses. Why should it not cure, or at least relieve, hay fever that tortures thousands for weeks every year?

When European nations decided to take what money they could get from China after the Boxer uprising, the United States got some of the indemnity cash, and then realized that it was international blackmail. The money was sent back to China to be used for education. China now thanks the United States Minister, saying that other nations have followed our example.

"So shines a good deed in a naughty world."

The Dutch Reformed Church of South Africa opposes prohibition, saying: "Wine is the gift of God which no one should desecrate."

That church takes seriously the Bible statement that the founder of Christianity, by a miracle turned water into wine, to make a wedding more cheerful. Some American preachers say the wine thus produced was non-alcoholic. But is it likely that wedding guests would have considered that a miracle worth while?

The Senate Committee of Agriculture rejected the Ford bid for Muscle Shoals by a vote of 10 to 6. That isn't final, but it shows how difficult it is to get anything through in Washington sometimes. It isn't quite so difficult if there is a "little black bag," with the right kind of lining in the offering.

Wall Street men will discover that Secretary Mellon who had no trouble in cutting hundreds of millions off the national expenditures, will easily find a way to finance the soldiers' bonus.

Tens of thousands gather at Louisville, Kentucky, all excited, eager, speculating, betting on "the great American Derby." The winning horse will get \$50,000. For half the money that a good jockey earns in a week you can buy an automobile that will run any ten race horses to death every day and never get tired. Speed in horses no longer means anything useful. Racing, betting, horse excitement will continue, for it takes men a long time to get over anything they have been doing for a thousand years.

—The World Federation of Education Associations in asking all the schools of all nations to observe May 18-19, as World Good Will day is awakening a mighty influence in behalf of peace. "In hearts too young for enmity lies the promise of a warless world."
