

Why Not Hit the Speaker?
 A speaker had already talked too long and was still taking. The chairman was mowing his gravel in a vain effort to stop him. Next to the chairman, on a lower level, sat a bald-headed man, who suddenly received the full effect of the warning gavel on his head.
 Sinking into his chair, he muttered a prolonged "O-h-h," and then received long enough to say, "Hit me again; I can still hear him."

Keeping Cool In the Kitchen

Depends upon two things—your disposition. And your disposition is influenced by your kitchen furnishings.

Those women who use a gas range, suffer the least this hot weather because there is a fire burning only when they need it. And all the heat is used to cook the food and not to warm the kitchen.

A Wonderful Discovery

The remarkable herb 'HOB0' as analyzed by 'Schwartz' was found to contain besides other principles a variety of acid which he named Galitannic Acid. He also found it to contain a peculiar acid discovered by schwartz and Rochleder and named Ribichloric acid. This has been used in Dropsy congestion of the spleen, Scrofula and Leprosy with good results. In recent years this herb has been discovered growing in East Texas and Louisiana and further experiment has shown that its wonderful purifying properties were due to its action on the kidneys.

The Hobo Medicine Company, of Beaumont, Texas, make an effective balm from this herb and call it Hobo Kidney and Bladder Remedy. This balm being said to be a Diuretic Aperient and Anti-Scorbutic.
