The Old Friend

And the best friend, that never fails you, is Simmons' Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidneys and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

SEVERE PACKAGES
See the Z Stamp in red on wrapper.
No. 2, 25 CENTS; No. 3, 50 CENTS.

IF YOU WANT TO MAKE A
GOOD GARDEN

It is necessary to have good, reliable, drug store. You can get these at Cole's drug store.

Buist's and Landreth's Garden Seeds

In large quantities. I have a large stock of fresh lawn grass seed. Liberal discount to merchants and market gardeners.

See list of fancy articles. A specialty of fancy articles.

China Sets, Mattings, Oil Cloths, Carpets, &c.

The latest patterns and the largest stock ever displayed in Danville.

Call and see for yourself and you will give us your order, for our goods are cheap and our styles can't be beat.

The R. L. Belt Furniture Co.,

Danville, Va., March 7, 1895.

MONEY LOANED.

Do you want to borrow money on equitable terms? Do you desire to pay of a mortgage and reduce the money at 5 per cent interest annually?

Would you care to be so situated that you could reduce the mortgage account for all paid? With interest being charged only on remaining portion of loan?

Would you like to buy your family a home? If so, read the following:

I represent a company that has embodied in its plan all the features enumerated above and many more. Can you see any reason why you should pay a large interest for money when you have good security? Can you present any good reason why it is not as well to receive profits yearly as to wait from 7 to 10 years as one does in many of the Association's? Is not the reduction of interest yearly better than waiting many years for profits? Borrowers under the plan receive 10 per cent interest on the loan is credited on the mortgage, thereby reducing it proportionately. Their condition will receive full information promptly. We offer investment to those who have a small amount to home mortgage that is superior as to safety and seldom equalled for profits. Call or write.

ONE AT A TIME.

One step at a time and that will place us. We reach the grandest height. One stroke at a time, with a hidden store. Will slowly come to light. One drop at a time, and the river flows. One drop at a time, and the river flows. One drop at a time, and the river flows.

One word at a time, and the greatest book is written. One stone at a time, and the palace rears its lofty state. One blow at a time, and the iron's cleft is through. One grain of wheat, and the forest grows a few short years before.

One foe at a time, and he is subdued. And the conflict will be won. One grain of sand, and the edifice of life will slowly fall. One day at a time, and our lives speed by into eternity.

One grain of knowledge, and that will lead us. And more on them; With a single word, and the world will shine. With a single word, and the world will shine. With a single word, and the world will shine.

"One thing at a time, and that I love well," is wisdom's golden rule. —Author Unknown.

THE UNIVERSITY

IT EDUCATES MANY POOR BOYS WHO OTHERWISE COULD NOT GET AN EDUCATION.

During the past two years it has loaned \$3,840.25 from the Deems Fund thereby aiding 53 needy students.

During the past 20 years it has aided about 800 needy young men by loans or scholarships.

It is extending free tuition to 126 students, who could not otherwise be educated. Of these forty-two are preparing to teach. Fully one-third are supported in the University by aid from either loans or scholarships, and over one-third are supporting themselves by money which they themselves have earned or have been loaned to them. On the other hand, they are doing good to the University that thirty-three students, even while pursuing their studies are at the same time supporting themselves wholly or in part by their own earnings. On returns and do many other kinds of work. The following brief statements, prepared by the young men themselves, will give an idea of the spirit of economy which prevails in the University, as well as the spirit of self-reliance, which enables so many poor boys to get a University education. It is not exaggeration to say that the University is doing good to the State by the aid of its students, who are doing good to the State by their own efforts.

STATEMENTS BY STUDENTS.

No. 1. Started on \$20. Now is self-supporting.

No. 2. Started in 1883, is started to the University, having \$20. On reaching there I borrowed \$50 from the Deems Fund and afterwards \$50 from a friend. I made \$35 during the spring term by working and by teaching. On reaching this year I borrowed \$50 from the Deems Fund. I am now teaching pupils in the village at odd hours, and am making enough to meet all my expenses and pay off one of last year's debt. I have a scholarship.

No. 2. Keeps house, pays all college expenses, supports wife and three children, all on \$30 a year.

No. 3. Was in the University for five years and lived for a while on one meal a day. I had only \$5. I was kindly aided by the faculty and students and citizens until I got my money. I have borrowed the money from the Deems Fund and by laboring hard have managed to pull through for four years. I shall graduate this year.

No. 3. Works on table, sets type. I support myself almost entirely by setting type and setting type. I study at night.

No. 11. Earns half his expenses by clerical and stenographic work.

No. 12. sells clothing and outwore.

No. 13. Manages a boarding club.

No. 14. I made \$25 teaching and borrowed the rest from Deems fund.

No. 15. I make \$50 a year selling clothing.

No. 16. Painter and Decorator.

No. 17. Sold fruit trees and taught school.

No. 18. I am paying my own expenses with money that I made selling fruit trees and teaching school. Total expenses (half year) \$70.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

No. 18. Painter. Best scholar in his class.

I earned some money painting the University building last summer, and I have private classes, which pay part of my expenses. The rest I pay by part of the Deems Fund. I have a scholarship.

No. 19. I have been encouraged and helped by both faculty and students in trying to work my way through at the University. I worked on a farm and inside some money before coming here. Made my way by managing a club. Total expenses (half year) \$75.

No. 20. Couldn't get help anywhere. I am going on a scholarship and am to get a loan of \$20. I am able to attend the University only on these terms. Could not have possibly attended otherwise. I would not have gone to any other college, as I could not get such a scholarship.

Fully one-half of the men in the University are of the condition and character suggested by the above statements. The list is given as sample of the sort of men that come to the University and of the ways by which they earn a support here.

If the University is forced to rely entirely upon the Deems Fund for its support it cannot continue to aid the talented poor boys of North Carolina.

The following unsolicited letter speaks for itself. The young man is without a father, is very talented and is going through college partly by loans and partly by loans from the Deems Fund. He has a scholarship.

PRITCHARD VS. SETTLE.

A BATTLE ROYAL BETWEEN RIVAL REPUBLICAN IDEALS HAS BEGUN.

Editorial Correspondence of the News and Observer from Washington, D. C., March 29th, '95.

The two real leaders of the Republican party in North Carolina today are Jeter Pritchard and Tom Settle. They represent its inherited traditions and prejudices, its culture, its aggressiveness, and around them gather the two distinct groups of the party in its new hopefulness and confidence. Both are Republicans and have never been anything else. Mr. Settle has long enjoyed such leisure and culture as wealth and position could give him. He has had the passive, if not active, assistance of influential family connections whenever he has been an aspirant for office. He has among his strong points a fine sense of having been defeated, though he has four times been opposed in doubtful districts by foemen worthy of his steel. There never was a more successful man than Pritchard, the other idol of Republicanism, is also young and vigorous. He has never been defeated but has been successful in every contest. His ability and popularity is such as to take the sting out of defeat. His father and his ancestors have been successful, hardy and unswerving mountaineers. A stock that has given the name of the biggest men that have lived. His father was killed by the Confederates because of trouble that grew out of his Unionism. This fact early embittered young Pritchard against Democracy, though there is no reason why it should have done so, because the Democratic party, like the Union party, is a party of the people. The questions that led to secession, and as many Democrats fought for the Union as for the Confederacy. But prejudice was particularly strong in his country. When Pritchard was a young man he stood as the representative of the South in the early days of the war. It has not sweetened his life, but, believing in the Union, he has never regretted his tragic death, nobody has blamed his strong partisanship which early became a part of his life. That part of his life that has not been sweetened by the fact that the Union was made for men, who hated secession, early quit allowing prejudice and dead issues to control their political conduct, and are consistent Democrats.

On the other hand, Settle's father was a Confederate soldier, and those ex-Confederates who are in the Republican party are the ones who are the fiercest enemies of the Union. His father's mantle which has fallen upon his young shoulders.

On the other hand, Settle's father was a Confederate soldier, and those ex-Confederates who are in the Republican party are the ones who are the fiercest enemies of the Union. His father's mantle which has fallen upon his young shoulders.

THE UNIVERSITY COSTS THE STATE VERY LITTLE AND THE AVERAGE TAX-PAYER CONTRIBUTES LESS THAN FOUR CENTS A YEAR FOR ITS SUPPORT.

The University received from the State last year \$30,000, being \$20,000 regular and \$10,000 special appropriation. The regular appropriation, if collected per capita, would amount to less than 1 cent per annum to each inhabitant; but the tax is paid entirely by the State. The special appropriation of \$10,000 is paid by the State. A man listed at \$100 pays less than 1 cent annually to the regular appropriation, at \$200 less than 4 cents, \$1,000 less than 8 cents, \$5,000 less than 40 cents. About nine-tenths of the tax-payers would pay less than 8 cents a year for the support of the University.

THE UNIVERSITY COSTS THE STATE LESS THAN SIMILAR INSTITUTIONS ELSEWHERE.

The State of Virginia makes the following annual appropriation (including salaries not including salaries appropriated for repairs):

University of Virginia	\$40,000
Virginia Military Institute	30,000
State Female Normal School	15,000
William and Mary College and	15,000
Medical College	5,000
Total	\$105,000

South Carolina appropriates for white boys \$105,000 and for colored boys \$50,000. North Carolina College, Citadel, Wintrop Normal, \$75,000.

Total North Carolina appropriates for whites: University of North Carolina (special \$10,000 and regular 20,000) \$30,000. Agricultural and Mechanical Col. 17,500. Normal and Industrial school 12,500. Total \$60,000. West Virginia appropriated, \$100,000. Connecticut, 32,000. Massachusetts, 157,000. New York, 184,000. Kansas, 99,000. Michigan, 125,000. Minnesota, 174,000.

IT'S DANGEROUS GROUND

That you stand on—with a cough or a cold, and your blood impure. Out of just these comes Consumption.

You must do something. In the early stages of Consumption, and in all the conditions that lead to it, Doctor Pierce's Golden Medical Discovery is a certain remedy. This scientific discovery of the lungs, like every other disease, can be cured by the use of this medicine. In severe, lingering Coughs, all forms of Croup, Throat, and Lung Affections, and every disease that can be reached through the blood, it is the only medicine that will cure it. It is the only medicine that will cure it. It is the only medicine that will cure it.

A SAMPLE OF REFORM.

Biblical Recorder.

The Legislature left a committee of five to investigate charges made by Mrs. P. D. B. Arrington against our courts and her husband. Two members of the committee were Frank Sawyer, the other has done unusually things. The committee has closed its sittings, and it ought not to meet again. It is not composed of men capable of saying anything but the truth or wrong.

PROGRESSIVE FARMER.

The Arrington investigating committee held another session on Wednesday. Campbell had been here drunk all the while. Phillips got drunk as soon as he came back. Bryson, the other member of the committee, was sober and a meeting was held.

Mr. Campbell, the member of the House from Cherokee county, remarked to some one the other day, "I am not a member of the committee, but I have been a newspaper man and a street car driver for some time, and I have seen some of these newspaper men before I leave Raleigh." The trouble with Campbell is that he has been sober enough to talk the difference between a newspaper man and a street car driver several days; hence nobody gets hurt.

A SCORCHING LETTER.

Winston Sentinel.

Rev. C. A. G. Thomas, pastor of the Baptist church in Greensboro, and who is well known in Winston, recently wrote the following letter to a friend in Norfolk, Va.:

"North Carolina's disgrace is the present Legislature. It has been and is a stench in the nostrils of good people. It has done nothing to improve itself over the State, where each little member will dry up under the indignation of an outraged people. I feel sure that such another Legislature will be a fitting place for the disciples of Darwin to have visited. The specimens of animals found in the halls of the capitol would need no microscope to discover their identity. Those who have been searching for the 'missing link' amid the geological fields of investigation have made a sad mistake in not visiting this remarkable gathering. I feel sure that such another Legislature will be a fitting place for the disciples of Darwin to have visited. The specimens of animals found in the halls of the capitol would need no microscope to discover their identity. Those who have been searching for the 'missing link' amid the geological fields of investigation have made a sad mistake in not visiting this remarkable gathering. I feel sure that such another Legislature will be a fitting place for the disciples of Darwin to have visited. The specimens of animals found in the halls of the capitol would need no microscope to discover their identity. I feel sure that such another Legislature will be a fitting place for the disciples of Darwin to have visited. The specimens of animals found in the halls of the capitol would need no microscope to discover their identity. Those who have been searching for the 'missing link' amid the geological fields of investigation have made a sad mistake in not visiting this remarkable gathering. I feel sure that such another Legislature will be a fitting place for the disciples of Darwin to have visited. The specimens of animals found in the halls of the capitol would need no microscope to discover their identity. Those who have been searching for the 'missing link' amid the geological fields of investigation have made a sad mistake in not visiting this remarkable gathering.
