Do not understand that the above are all the testimonials we have.

WE COULD FILL UP THE WHOLE PAPER

With them; but our only purpose is to furnish a few from different parts of the country to show to those who have never used it that they will

RUN NO RISK

By doing so. Those who have used it need nothing to recommend it to them. They know what it will do.

Some may think lightly of our claim that our fertilizers will grow

Healthier and Richer Tobacco

Than other fertilizers, but all we ask is for yu t give them a fair, square test, and ifour claim is not sustained we will surrender.

Very. respectfully.
