OUR RALEIGH LETTER.

Raleigh, N. C., April 12, 1904. What a jealous, selfish old world this is! And how many of the jeal. ons, selfish, vin lictive, quarrelsome old cats there are in the Democratic party-some of them essaying to be "leaders" and conductors general of party "management," but who

A week ago all shades of Democrats (except a few of Hearst's spellbin lers and an occasonal Clevelandite who insists on the "oll man" again) were congratulating each other that the way had opened for all to agree on "a gool, clean, unobjectionable and available candilate," to-wit, Judge Parker. Now some of them are rushing into print to declare that they are certain that he is the right man, after all. And why? Simply and solely because Mr. Cleveland has adde l' his en lorsement of Judge Parker to that of other eminent party On the other hanl, there appears to be equally as many on whom Mr. Cleveland's approval seems to have had just the opposite effect, and accordingly many have joined the Parker forces who up to that time had hesitae i to do so. Result: It not only still looks like Parker, but the prospeets point more deci 'e ily to him than they did a week or two ago.

Gov. Aycock's committee, recently appointed by him to investigate an l make a report on the conduct and condition of the A. & N. C. Railroad and its affairs, including the Atalntic Hotel at Morekead, is now at work in warnest, and the repor is awaited with much interest by the public. In the mean time the Governor has nothing in regard to the lease of the road, and apparently will take no further action with regard to that proposition until the pending invetigation has been completed.

THE 'TRUST BUSTING' RECORD

Senator Simmons spoke at length in reply to Mr. Spooner, and at times the di-cussion took a decidedly interesting turn.. In holding up to ridicule the "trust busting" record o the administration, Mr Sim n n told how, with everything ripe for action, Mr. Rocsevelt, thr ugh his lord high trust executioner, Attorney General Knox, had prosecuted two trusts, out of the several hundred covote, whom they will find congenial that were still doing business. "I am glad to write my endorsement of the great remody, Peruna, as a nerve tonic. I do so most heartily."--Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoirs of nervous vitality. These centers become bloodless for want of proper nateltion. This is especially true in the spring scason. Kvery spring a significant host of inveltie are produced as the die rect result of weak nerves.
