That Gold Chunk.

Somebody has accused the World of reporting the discovery of a 57 pound gold nugget in Montgomery county. This is incorrect. The World stated that a chunk weighing 57 pounds, with nuggets two inches long in it, was found. And it still says so.

Capt. J. C. McCanness, whose veracity we are willing to risk at any and all times, gave us the information and he obtained it from the gentleman who carried the chunk from place to place.

The error came in in the difference between a chunk and a nugget.

STREET CARS AND ELECTRIC LIGHTS.

A New Depot.

The latest rumor in railroad circles is that Salisbury is to have a new depot.

A party in a position to know whereof he speaks tells us that plans are being considered for the erection of a two story brick building near the present site of the carshop. He states that the ground now covered by the passenger depot will be used as a part of the shifting yard.

We hope that this is true. For Salisbury with her added dignities will need a new depot badly.
