A NEW COMPANY.

MR. M'ADOO SELLS A HALF INTEREST IN THE TELEPHONE—NEW PHONES TO BE PUT IN.

Mr. C. N. McAdoo, of Greensboro, who spent yesterday in the city looking after the interests of his telephone system here, returned to Greensboro last night.

Before leaving, however, Mr. McAdoo sold a half interest in the plant to Mr. E. C. Hines, a practical electrician of Montgomery, Alabama. In conversation with Mr. Hines, he stated to a WORLD representative that he would return to Salisbury by the first of September and would at once begin putting in new phones. Every one of the phones now in use will be taken out and good ones substituted. The wires will also be repaired and the system made as perfect as any in the State. Mr. Hines tells us that he will also put in a line between Salisbury and Spencer, thereby bringing these two places closer together.

The patrons of the phone will be glad to learn that it is to be improved. The service has been very unsatisfactory and many subscribers have discontinued on this account.

W. H. Wager On Him.

The Asheville Citizen says: A special from Swannanoa to the Charlotte Observer, under date August 2, says that agents of George W. Vanderbilt have purchased 4,000 acres of land belonging to Mr. Chesborough and lying at the headwaters of the north fork of the Swannanoa river. Contract for getting out timber, so the story goes, is to be let at once, and logs will be shipped to the Vanderbilt sawmill at Biltmore.

The Citizen made inquiry of the Biltmore office, and received the information that there is nothing in the story.

The same special was sent the WORLD by Capt. W. Murdoch Wiley and we will wager that he knows what he is talking about.

Mr. Quantz Dying.

The Concord Standard says: "As the Standard goes to press it learns that Mr. Willie Quantz, who has been a long and patient sufferer with typhoid fever, is in a dying condition. Mr. Quantz has been slowly sinking during the last few days, and loved ones have watched in vain for a change for the better, hoping almost against hope that the wasted body might rally. The many friends of the family will learn with regret of his critical condition." Mr. Quantz worked in the shops here for a while and has many friends in Salisbury who will regret his condition.

Since the above was put in type we learn that Mr. Quantz's death occurred at 8 o'clock last evening. Mr. Quantz's death will be heard with general regret here. He was a nephew of Mrs. J. N. Maxwell, of this city.

The Court House.

The fence which has been in course of erection for the past few weeks is rapidly nearing its completion, and soon the court house and surrounding buildings will present a new aspect; closed in by iron works and approachable only through gates at regular places. EMIGRANTS TO FLORIDA.

NORTH CAROLINIANS LEAVE THEIR OLD HOMES AND GO TO FLORIDA.

Attached to the local south-bound train last night was an extra car filled with emigrants from eastern North Carolina.

In the car were 64 men who are leaving their old homes in Beaufort and Cartaret counties to seek their fortunes in Florida. Fourteen go to Tampa and 54 to Punta Gorda.

One of the men stated in conversation with the WORLD that nearly all of the party were fishermen and that they had good prospects of saving some money in Florida.

Most of them will work in the fishing business there, while some of them will farm.

IT WAS LOADED.

THE YOUNG SON OF MR. JACK SPRINKLE SMOOTS HIMSELF.

The young son of Mr. Jack Sprinkle, who live in the county, handled a pistol this morning that happened to be loaded. He didn't even think it wasn't loaded and there was where the remarkable part of this case comes in, for victims of the gun and pistol are usually those who are well satisfied in their own minds that there is nothing to hurt in them.

But this young man was carelessly handling a revolver and it was discharged. The bullet entered his leg, inflicting a very painful wound. The leg will be saved.

Mr. Terrell's Child Dead.

The two-year-old child of Mr. W. P. Terrell, a yard engineer here, died this morning of cholera infantum. The child has been very sick for some time, and Mr. Terrell went to Old Fort several weeks ago to see it. He left it very much improved and the telegram announcing its death was a severe blow to him. Mr. Terrell went up to Old Fort this morning.

Rev. C. B. King Here.

Rev. C. B. King was in the city this morning on his way to Asheville, where his family is summing. One of his children is sick and Mr. King goes there especially to see about the condition of this daughter.

He is very busy now working up the college which he is at the head of and it is his intention to open up this fall if such a thing can possibly be accomplished.

TWO TEAMS COLLIDE.

SHOBER'S BRIDGE THE SCENE OF ACTION—MR. CICERO CHUNN RUN INTO BY A DAIRY WAGON.

Shober's bridge was the scene this morning of an accident that Providence alone prevented from being quite a serious affair.

The driver of Mr. R. J. Holmes' dairy wagon and Mr. Cicero Chunn, with wife and children, came up to the bridge from the opposite direction and it seems from the evidence gotten in the case that Mr. Cicero Chunn entered the bridge first, got his whole buggy's distance on, and hollowed for the approaching party to await until he could get over. The dairy wagon driver drove on thinking he had the right of way and just in the middle of the bridge the two collide. Several were thrown from the wagon or buggy of Mr. Chunn and one of his children pitched over the railing into that portion of the bridge set apart for pedestrians. Had the child gone the other way death would have been the inevitable result.

Mr. Chunn instituted suit against the dairyman and the hearing was before Capt. J. R. Mastey. There was evidently some degree of stubbornness on the part of both parties but the blame seemed to be more directly due to the dairyman; he was fined \$5.00 for the transaction.

Mayor Linn appeared for the dairyman, and Mr. A. H. Price for Mr. Chunn. Both parties are to be congratulated upon the fact that death of some degree was not the outcome of so grave a catastrophe.

THE GUINEA CASE.

THE CASE DISMISSED BY ESQUIRE RAMSEY—WHAT IT COST.

Some precious good cash was wasted on a 15 cent guinea yesterday.

As noted in yesterday's WORLD Mr. J. N. Fraley brought suit in the magistrate's court against T. R. Pinkston for killing a guinea. There was no positive evidence against Mr. Pinkston. The most that any witness could swear was that the stone with which the guinea was killed was found lying in such a position as to indicate that it had come from the direction in which Mr. Pinkston had driven.

There were passes and counter passes and at times matters were quite acrimonious.

Esquire Ramsey finally dismissed the case, the costs to both parties concerned aggregating nearly \$30.

And all over a 15 cent guinea.

Not J. Rowan.

Mr. J. Rowan Davis requests us to state that the J. R. Davis who was before Mayor Linn for an affray was not him. The Davis who engaged in the affray was a countryman.

GROUND HIS HEAD.

A LITTLE BOY'S NARROW ESCAPE FROM DEATH—TURNED WITH THE WHEEL.

Little Claude, the young son of Mr. J. H. Iddings, had a narrow escape from a horrible death this morning.

The little boy was standing on the hub of a countryman's wheel, holding to a spoke on the side of the wheel. The driver of the team did not observe the little fellow on the wheel and started his team off.

The boy screamed but it was too late to check the team before the wheel had gone completely around. The little fellow's head lay within half an inch of the wheel and the wagon ran over his hair.

The little boy was not hurt, but his escape from death was a miraculous one.

Showers.

The weather forecast for Salisbury and vicinity for the ensuing twenty-four hours is: Showers this afternoon and to night. Fair Friday.

The high barometer in the northwest has increased considerably and is now moving eastward over the Lake region. The barometer is also high over the middle Atlantic States. The barometer is low over the Gulf of Mexico. This arrangement of pressure must soon produce a change to cooler weather throughout the country. At present local rains only have occurred on the Gulf coast along the southern edge of the high area. Elsewhere the weather continues fair. The temperature is considerably lower in the northwest.

Thirty Days' Extension.

Whitehead Klutz, in Charlotte Observer correspondence says: Counsel for Russell, Walser, and the new board of directors of the North Carolina Railroad in the Jesse litigation, have applied for and obtained from Judge Simonton an order extending their time for producing evidence in chief before Master Kerr Craige to the 15th of October—an extension of about 45 days. It seems that 'tis easier for even a Governor to charge fraud than to prove it.
