Water should of course, be reasoned with on the subject. not be drank at or soon after meals, as it inter- But, if there be any sense in Dr. Franklin's prescription of frequent "air baths," then it would seem that the smallest portion of clothing possible, consistent with propriety, were the healthiest condition. People who are afraid of bodily exposure to air can comfort colds. Sitting in narrow currents of air, or Those, therefore, who are not sick, and have fine accommodations there, or cannot of the 22d, attempted to cross the railroad

ABOUT "CARPET BAGGERS .- We copy the following from an account of the recent Illinois press excursion, published in the Illinois State Register, at Springfield :

The talk about Northern people not being permitted to live in that country is all twaddle. It is not true. This we can readily assert of point, where persons known to be avowed radicals in politics went South to live and make it their future home, conducted themselves as good citizens, which they are, and no people were ever received with more cordiality and kindness, and none would do these same radicals an act of kindness more readily than the native Southerner. They are anxious that people from the North shall come to their country and become part of it, but they naturally want men, not the scum and refuse of the North, who leave their country for their country's good."

MR. REVERDY JOHNSON'S ACCOUNTS .- The accounts of Mr. Reverdy Johnson, ex Minister to England, were audited a few days ago at the Treasury Department. His telegraph bill for the three months ending June 31st. amounted to \$980 in gold. This was exclusive the large bill which was presented some time ago for cable telegraphing in reference to the celebrated protocal which the Senate rejected, and which has been paid by Baring Brothers on the order of State Department. Mr. Johnson's contingent expenses during the same period, amounted to \$1,567, which is considered moderate. The contingent expenses of Minister Dix, at Paris, for a similar son of both items will show that Mr. Johnson

Special dispatch to the Baltimore Sun, THE FIFTEENTH AMENDMENT-RE-PRESENTATION. IN CONGRESS.

WASHINGTON, June 21.

The fact that the fifteenth amendment to the contitution will have a serious effect upon the representation of some of the Northern States, under the apportionment of the next census, seems to have been overlooked until recently, when it was brought to the attention of the census committee. In case the fifteenth amendment is not ratified before census is taken, and the apportionment for the next ten years made, the colored people in the Northern States will not be included, as heretofore, in the basis of representation, because they are not allowed to vote. This, it is estimated will deprive the larger States of from one to two members of Congress each. The disfranchisement of those who participated in the rebellion in the Southern States will have no effect upon the representation from that section, as they are counted in the same class with criminals in the apportionment.

It is understood that in demanding his passports from the Brazilian government, on account of some difference betwenn himself and the Secretary of War of Brazil, James Watson Webb, our minister there, acted upon his struction from the State Department. His sudden depature from Brazil will make neces-

sary the early presence of Mr. Blow, our newly appointed minister. Gen. Webb's conduct will have no effect upon our relations with Brazil.

REPUBLICAN FINANCIERING.

The New York World thinks that the only reason why we have gone on so long without our American and European laborers quarrel 1535. Even in those few years the orthogra- a great financial crash is, that the exportation markets at a ruinous discount, has enabled us to incur heavy debts and postpone the evil day. When there are no more bonds to be exported in such prodigal abundance, the convulsion will inevitably come, unless we can meanwhile re-establish our great exporting industries; and the severity of the storm will be in proportion to the length of the postponement. Every hundred million of bonds that we export creates a necessity of annually sending abroad six millions of gold to pay the interest on them; and sooner or later we must send money abroad to pay the principal. When we stop exporting bonds, we shall not only have the annual adverse balance of trade to meet, but the postponed obligations which result from the policy we have so long pursued of paying our current permanent ones. Unless American cotton reembarrassments which are beginning to press close npon us.

patch to the N. Y. Times.

A THILLING STORY .- Three little children stay out the hot term should they go, should bridge over the Blackwater, on Sunday evenmake the best of things at home. A person ing. When nearly over, they heard a train go bathing with "clothes on"-a condition were mistaken, and the train came on the that has been waggishly termed, "getting wet bridge before they could get off. The oldest, as by a shower, or falling overboard." Clean- a girl, seized the youngest child jumped from liness is the first requirement to tolerable the bridge down an embankment eighteen or joyment of as much air as possible, with quiet | clung with his hands to the bridge until the of body and mind. Moderation in eating and train had passed, and then fell to the ground drinking is, of course. a requisite. Above all and rolled down a declivity of some eighty bruised, but his injuries are not serious .--The escape of the little ones is almost miraculous.

> LARGE GRANT OF LANDS TO AMERICANS known as the Icacos grant, was made in 1867 to Mr. Putnam and four other Americans, who had been naturalized there. It includes a tract of land from the sea coast on the east to the frontiers of Guatemala on the west, between the Monkey river and the Deep river, the area of which is about 300,000 acres. The purchase money is £20,000, payable in ten equal installments, beginning in 1873. The grantees are bound to locate and set:le on the granted land fifty families within two years, and two hundred families within five years. The government undertakes to expend three fourths of the purchase money in making public improvements within the district .- Boston Herald

STATE NEWS.

PENITENTIARY .- The Penitentiary Committee has awarded the contract for poles for the stockade on the Penitentiary site, to Nathan Gurley, of Johnston county, who furnishes the poles, 8 inches mean diameter and 19 feet long at 72 cents each.

The contract for the lumber was awarded to Page and Ellington of Wake, at an average for the various classes, of about \$14 per thousand.

The Committee will proceed at once to the erection of twelve log prison houses, one kitchen and store house ; the prisons to accommon date 120 inmates. The erection of the houses will be commenced as soon as practicable, under the superintendence of J. R. Harrison, Esq. Sentinel.

SUPREME COURT .- The Court pursuant to adjournment; all the Justices present. The
