Strictly in Advance NO FARMER SHOULD BE WITH OUT IT.

ADDING A CITY AIR. Selisbury ranked out into the ir of a city last night. Nearly all of the stores were closed by 7:30 els. to 8 o'clock. With the exception of special occasions this is the first time the stores have been closed so early perhaps in years. The arrangement is intended to be permonths.

The Sun is glad to note that so many of the merchants closed all day will now be given an opportunity to rest at hight, to atrecreation that may be offered. They will thus be refreshed and invigorated, and in much better condition to do a days work. Their employes will, in consequence, get better service.

We congratulate the merchants upon their action and trust that great good may result from it.
