This is one of the richest, or perhaps, the richest mine in the county. It was worked some time ago but the owners suspended work until they finished their crops. This done they have returned to the mine and are sinking one of the shafts deeper.

The yield increases as they get further into mother earth and the mine promises to be a thing of much profit. The mine is near Lisk.

## "PINAFORE" LAST NIGHT.

Given by Home Talent Last Night and Much Enjoyed.

"Pinafore," quite a delightful opera was given by home talent in the opera house last night and was much enjoyed.

The curtain rose about 9 o'clock, and the lines rendered were interesting as well as entertaining until the finish.

Not a very large audience greeted the participants, but those present showed their appreciation of the opera by repeated cheering, and by several encores.

The cast of characters has appeared in the SUN several times and is omitted in this notice. Each one sustained his or her part most exquisitely.

"Pinafore" was indeed a success in giving pleasure to those in attendance.

## THE SHIPP MONUMENT.

One to be Erected for the Gallant Lieutenant—Committees.

The Charlotte Observer's movement for the erection of a suitable monument for Lieut. Shipp took substantial shape at its inception and meets with sympathy everywhere.

Lieutenant Shipp is a North Carolinian who lost his life in the fighting at Santiago. The Observer heads a list for the monument with \$100. Yesterday that paper said it is in mind to have a committee in a number of the leading towns of the State to solicit subscriptions to this memorial, and following this were given the names of a number of gentlemen. Those of Salisbury asked to take a part in the raising of the fund are Capt. Chas. Price, L. H. Clement and C. N. Brown.

The Observer continues: To the committeemen and subscribers will be left the selection of design of the monument, and also the place of its location. As to the latter the Observer of course has a preference, but it does not intend to urge it to the detriment of the movement.

The gentlemen who have been and are to be named are asked to take the matter up at their earliest convenience, and we respectfully invoke the aid of the State press in the cause.

### RIOTS AT MANILA.

Manila, August 26.—There has been a serious clash at Cavite between the United States soldiers and the insurgents, the riot resulting in one soldier killed and another seriously wounded.

George Hudson, a member of the Utah battery became involved in a dispute with a native shopkeeper and fearing trouble fired a revolver to attract the attention of his fellow soldiers. A great crowd of natives ran to the scene of the disturbance and immediately began firing revolvers, killing Hudson and wounding corporal Wm. Anderson, of the same battery, who also hurried to Hudson's assistance.

A detachment of the Fourth cavalry was called out and dispersed the crowd who slowly retreated but continuing emptying revolvers without further damage. The same night a soldier on guard saw a large body of natives stripping a wrecked gunboat in Cavite bay. A boat with an armed force put from shore. The soldiers hailed the natives who failed to respond. A volley was fired, killing one native and wounding another.

Aginaldo denies any connection with the affairs. These fights show a sullen disposition on the part of the natives and there are fears of frequent bitter uprisings.

During a terrific thunder storm late yesterday, Thursday, evening, Mr. H. T. Graeber's barn was struck by lightning, setting it on fire.

The wind blew furiously and the fire spread from one building to another until two barns, a hog house, the wheat and oats granary and the corn crib were all on fire and were consumed with their contents, except horses and cattle.
