SOME REGRET.

The SUN feels some regret that the Salisbury white graded school building, which was burned some time ago, is to be rebuilt on the old plan instead of being enlarged. Salisbury needs a larger and more up-to-date building, and the SUN, on the afternoon of the fire, expressed the hope that a better and more commodious school house would be erected. The authorities, however, in their wisdom have found it their pleasure to rebuild the old school house the same size as before. 'Tis a pity they did not see it best to do otherwise.

This school has been a great factor in Salisbury for the education of the children of the town; those who attend it are increasing in numbers yearly; its usefulness as an educational institution is growing; it should therefore have been rebuilt on a larger scale and with all the modern improvements for teaching.

It would perhaps be better, now that the old building is to be replaced as it was before the fire, for those directing the school affairs in the city to have another graded school building erected in the eastern or southeastern part of the town. Let it be an auxiliary school to the larger school.

The SUN suggested this, some time last year, we believe it was, and would be glad to see steps taken along this line. It would be a great benefit to the children who live on that side of the city and who now have to go nearly a mile to school. This is true of the smaller children, especially in bad weather when they are deprived of school advantages by not being able to attend.

The school could be under the superintendency of the same principal. Another school of this

kind would add greater facilities to educational work in Salisbury and would give greater satisfaction to the citizens—parents and patrons of the graded school.

Lieutenant Hobson, who arrived at Santiago this week, has decided to continue his efforts to save the Cristobal Colon, despite the decision of the Navy Department to give up the job. He has sent urgent dispatches to the department, asking leave to continue the work. He estimates the Colon's worth at \$3,000,000, and thinks it is disgraceful to give up the attempt to save her. If the government refuses to back him he will appeal for a popular subscription. It is thought the Maria Teresa will soon be in first-class shape.

The Concord Times says the Democrats of Cabarrus are rejoiced to know that Stanly county has chosen Mr. R. L. Smith, of Norwood, as the nominee for the Senate from Cabarrus and Stanly. He is a gentleman of character and ability, a sterling and uncompromising Democrat, and a splendid campaigner. He will, of course, be elected by a handsome majority. Mr. Smith has already had legislative experience, having been a member of the House from Stanly four years ago.

The State Agricultural Department's report for August, based on returns from over 1,000 correspondents, prepared, is as follows: Cotton 87½, tobacco 89½, corn 97½, apples 79½, peaches 75½, grapes 90½, sweet potatoes 85½, Irish potatoes 83½, gardens 80. The acreage of peanuts as compared with last year is only 78½, while rice is 69½.

The vigorous Democratic campaign in the State is said to be a surprise to the Republican managers and they are not a little alarmed at the situation. The white people are aroused. They are determined to put an end to negro domination in North Carolina.—The Kinston Free Press.

The election of officers of the board of control of the Knights of Pythias endowment fund occurred Tuesday and resulted as follows: President, J. A. Hinsey, Illinois; members, W. H. H. Loomis, of Michigan; J. W. Blackwell, of Kentucky.

Every day we hear of some prominent Populist who declares himself done with anything or any party that endorses Russellism. They are coming back home to the Democratic party, which is the only place for the white men of the country.—Nashville Graphic.

The Empress of China, which has arrived at Vancouver, B. C., brings news to the effect that the Japanese Legations at London and Washington will be raised to the rank of embassies.

It is estimated that there was at least 500,000 bushels of wheat raised in Alabama this year.

Before the war Cuba contributed about one-twelfth of all the tobacco used in the world.

Sisters of Charity as Army Nurses.

Over 150 Sisters of Charity have been assigned as nurses at various army hospitals through the South. President McKinley asked Mother Superior Marietta, stationed at Emmitsburg, Md., where is located the head house of the order of America, for one hundred sisters as nurses, and she immediately agreed to furnish them. Orders were sent to the various institutions throughout the country for all the sisters to hold themselves in readiness to start to the front at an hour's notice. Then, as they were needed, the President called for the nurses, and they were promptly supplied. Forty went to Santiago, more to Porto Rico, to Tampa, Jacksonville, Fort Thomas, Ky., and Chicamauga, until the 100 had been exhausted. But they had shown that they were excellent war nurses, and the President found that he could use more of them, so he asked Mother Marietta for another one hundred and these are being drawn upon now.—Sunday Democrat.
