**A FEW GENERAL REMARKS**

A few general remarks in reference to city improvement will not be out of place to-day—in fact it is hardly ever out of place.

Since the stringing of the gas pipes along the streets for a new gas main it is generally conceded, and has occasionally been asserted, that this is the last of electric lights for Salisbury. The question arises, is this true?

We had hoped to see the more modern lights materialize in the city at an early day. The people almost as a whole hoped the same. Surely we are not to lay aside procuring these lights as a thing of the past—that is, surely they are not abandoned.

Along with us many citizens desire electric lights for the city. If other towns in the State much smaller than Salisbury are able to have them and make them pay Salisbury could certainly do it. There should then be a clamor for the lights. The citizens should continue to agitate electric lights.

The needed repairing on a few blocks of our main streets should be attended to. The streets on the blocks referred to are certainly in bad condition. A small amount of money expended on them would make them much better. We submit that this should be done at once.

It would be well also for the citizens to discuss some plan to build and operate a street railway from Salisbury to Spencer.

We might add that another bank established here would do vast good to Salisbury and add financial strength to the town.

A board of trade should be organized.

The SUN, as a public journal, takes great interest in Salisbury,

and calls attention to these things, trusting that the citizens will take them up and push them to success.

—The Kinston Free Press says a leading negro politician of Bertie county, talking to a Populist county commissioner, told him no man could be elected for that position again who was not willing to give the negroes one-half the jurors, both grand and petit, that they really were entitled to, more, but would not submit to less than half. In response to the growing demands of negroes the fusionists have gradually increased the number of offices given to negroes, yet claim to white folks that their party is not the negro party!

—A special to the Charlotte Observer from Hickory says: "The greatest since Noah's." The freshet, which was heavier in Burke and Caldwell than in Catawba, caused more damage in Catawba than in the region where the rainfall was greatest. The Catawba Lumber Company had a million and a half feet of lumber in booms at the mill on the river, two or three miles from town. The booms broke and the logs are gone. The damage to property, including the loss of logs approximate \$15,000.

—Robert L. Lewis says in the Clinton Democrat: "Some of my friends appear to be in doubt as to what my future political affiliations will be. I wish to remove this doubt by stating that henceforth I am a Democrat. I feel it my duty to pursue this course for the best interests of North Carolina, which should now and for all time be governed by its white population. The fruits of fusion do not warrant its continuance and white men should wash their hands of it."

—The solitary imprisonment for life to which the assassin of the Austrian empress will probably be sentenced, because capital punishment is forbidden in Switzerland, means that he will be placed when sentenced in a small dark cell from which he will never emerge while alive and will be fed just enough to support life. This treatment generally results in a complete loss of reason.

—President McKinley instructs the Cuban commissioners to demand that evacuation be commenced by the Spaniards not later than October 15th and that it be completed by December 31st next; and also to prevent the removal of the remains of Christopher Columbus with part of the monument.

—Friends of Governor Black are trying to secure his renomination by affidavits which, they claim, prove that Col. Theodore Roosevelt is not a resident of New York, but of Washington, and therefore ineligible for the office.

—Typhoid fever in Dawson city is carrying off from eighteen to twenty victims a day. Too much filth accumulated with too many people and polluted water was the result and then typhoid.

—It is probable that the President will recommend the creation of a minister for the colonies, in accordance with the practice of European governments hazing colonial dependencies.

**Discovered by a Woman.**

Another great discovery has been made, and that too, by a woman in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recover, by purchasing of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at Theo. F. Klutz & Co's drug store. Regular size 50c. and \$1.00. Every bottle guaranteed.

**All Together.**

Rocky Mount Argonaut.

One of the brightest signs of the times is the undoubted getting together of the white men of North Carolina. It took some years of negro misrule to open the eyes of our people to the degradation of allowing an Anglo-Saxon country to be ruled by an inferior race, an anomaly hitherto unknown in history. But at last the dullest eyes are being opened and white men of all parties are declaring that the Anglo-Saxon shall rule. National politics is but a small issue when compared to the peril in which our State now stands.

Every day the negro is getting more insolent, every day their demands are more exacting.

What negro rule means the cities of Wilmington and Newbern faintly foreshadow. We say "faintly," for the reason that it is too early in the game for the negroes to show their hands too plainly. When they get their grasp firmly fixed on the throat of the State and her white people and her industries lie prostrate beneath the Ethiopian heel then may we look for a carnival of crime and degradation not even guessed at now.

Though Mr. Sagasta is the great republican spirit of Spain there is a deep feeling of intimacy and affection between him and the young king. During the dangerous illness of Alfonso the old statesman showed as much anxiety as though it had been a child of his own.

In Henderson county Criminal Court last week Chas. Condry, 9-year-old-son of W. A. Condry, of Asheville, was sentenced to five years in the penitentiary for stealing a mule. It was the third time he had been charged with a similar offence.
