## THE NEW RAILROAD.

At Last the Mocksville-Mooresville Road is About Completed.

The following concerning the new Mocksville-Mooresville road is taken from yesterday's Charlotte Observer:

The new railroad which the Southern has been building from Mooresville to Mocksville is at last practically finished. The track in places is not properly surfaced yet, but to all intents and purposes the road is finished.

Trains cannot be operated until the track is surfaced, but that will have been completed probably within the course of a week. The officers of the road intended making a tour of inspection over the line to-day, but will not because the track is not quite ready. They will likely christen the rails next week. The schedule of rates that will obtain on the new road was received here yesterday. They will be effective October 1st.

The fare from here to Winston will be \$2.90, and from Mooresville to Mocksville, \$1 first-class, and 85 cents second-class. There are five stations between the two M's—Mooresville and Mocksville—Mooresville Junction, Barber's Junction, Mt. Ulla, Schley and one other. It is the opinion of railroad men that a mixed train will be run between Winston and Mooresville for the present. It is probable that this new road may become the main line between here and Winston, and that the Atlantic, Tennessee & Ohio from Mooresville on to Taylorsville will be a branch. Two crews of trainmen will find employment on the road. It opens up a fine country through Iredell, Rowan and Davie—a country of cotton and tobacco, of fruit and grain; a country well-settled by a particularly intelligent and thrifty people. The local business of the line, both passenger and freight, will be a matter of consequence.

**Judge Armfield's Condition Serious.**  
From the Statesville Landmark of yesterday we get the following: Hon. R. F. Armfield, who has been in a precarious condition for several weeks, was seriously ill yesterday and the gravest fears are entertained for his recovery. His condition is such that his restoration to health can hardly be hoped for.

Judge Armfield was worse last night and his condition is not improved this morning.

**Mr. Robertson Dead.**  
News has been received here of the death of Mr. H. E. Robertson, of Mocksville, which occurred last night at 11 o'clock. Mr. Robertson was about 58 years of age and an excellent man. He had been a manufacturer of tobacco and was well known. He was a Mason and will be buried with Masonic honors.

Mr. Robertson had been sick for several weeks with typhoid fever. The funeral will be conducted at Mocksville to-morrow morning at 10 o'clock. Several from Salisbury will attend.

**In Effect To-day.**

As has been duly advertised in this paper, a new ruling goes into effect to-day in regard to cars remaining unloaded 48 hours after their arrival, and also in regard to not loading cars within 48 hours after being placed in position. This is a new ruling agreed upon by the railroad companies of our State, and agents at the stations have no discretion in the matter, and must abide the rules assigned them, else lay themselves liable.

**At the Rock Crusher.**

A SUN man visited the Beverly rock crusher, near Woodside, yesterday afternoon. This is comparatively a new enterprise in Rowan. The rock, after being crushed, is used by the Southern in ballasting its road bed, and it makes excellent ballast.

Mr. Beverly is working a number of hands now but tells us he needs fifteen or twenty more, as the crusher stands idle a large part of the time on account of the present force of hands not being able to keep it supplied with rock.

## Still Workers.

A number of men on horses rode over the city last night between midnight and morning. The riders were clothed in long, white sheets and presented quite a ghost-like appearance as they passed down the street in single file. The number of "still workers," as they termed themselves by signs left hanging at different places, was variously estimated, some people seeing eight and some people seeing or thinking they saw as many as eighty. Some of the colored population were badly frightened. The "still workers" did no damage, they were just out riding for their health.

## Chestnut Hill Items.

The Chestnut Hill debating society will meet to-night at 7:30 o'clock. The query for discussion is: "Resolved, That there is more sorrow in life than pleasure." We are anticipating a good time.

As the writer was going home yesterday evening he met a man who looked like he had been running about three miles. I asked him what was the trouble. "Ah," he says, "I am going to town to get a warrant for one of my neighbors." I says, "What is the trouble?" "Oh," he says, "a certain man called me a fusionist and I am going to town to indict him for slander for the sum of \$10,000."

Supt. F. M. Ward added 50 new names to the roll of Chestnut Hill Democratic club yesterday.

## DAY PRESIDENT CONFERENCE.

Spaniards Insist on Putting in Montero Rios.

(Special to SUN.)

Paris, October 1.—The Peace Commissioners met in conference for the first time at two o'clock this afternoon. The session was devoid of the formal exchange of credentials and choice for chairman. The Spaniards submit that owing to age and rank Montero Rios, president of the Senate, ought, under ordinary circumstances, to be president of the conference. But the Americans, in view of their being victorious, suggest a compromise on Day as president, with Rios as alternate. The point is under discussion, the Americans insisting that they should preside.

The Spanish commissioners vigorously protest against the Americans allowing the Viscayas rebels to receive rifles, ammunition and cannon while prohibiting Spanish troops from being sent there.
