"Watchman what of the night,"
"Joy cometh in the morning."
How many voters in Rowan county will vote the Prohibition ticket to-morrow? We may be able to count them on the fingers of our two hands. There may be more than ten, there will hardly less than this number. If it will not be so much in the quantity we trust there will be quality to supply the deficiency. Only eight persons were on God's side when the flood came and "destroyed the earth, all the world was against Him, though we are told that Noah preached 120 years to get them to come into the ark and be saved, but it was all in vain. If a majority of the people would vote for Prohibition tomorrow we claim that many a poor fellow would be "snatched as a brand from the burning," and saved from an untimely grave and a lifetime of shame and debauchery, not to mention the loss of his precious and immortal souls for all time to come. We believe the Democrats will sweep the State by from 25,000 to 50,000 or perhaps 75,000 majority. Had they not quarrelled and divided among themselves on the money question in the campaign of 1896 and nominated a Populist for President there would never have been a President McKinley nor a Governor Russell nor negro domination. These are the fruits of going over "horse, foot and dragon" to Populism in the national campaign of 1896. But though a majority of the people will vote against Prohibition at the polls to-morrow. Thank God a little handful will have the "courage of their convictions" and vote for Prohibition and that "the voice of the people" in this case at least will not be "the voice of God."
