### His Load.

A little year ago he swore, Upon his knee that life Would be a heavy load to him If she were not his wife.

So she consented to be his— It went the same old way— Not life, but something else makes up The "load" he has today.

### The Time O' Day.

Mr. Huggard—Al! darling, must I say goodnight? Harsh voice from the top of stairs (full of sarcasm)—Not necessary, young man; not necessary. If you wish to be truthful, you must say good morning.—Tit Bits.

The practical joker got in his work in a Wisconsin town a few days ago. He made a fellow workman believe that his wife from whom he had been separated was about to marry another man. The victim of the joke went to the woman's house, shot and wounded her and thinking he had killed her, as he intended, put the pistol to his own head and killed himself. At last accounts nobody had killed the joker.—Wilmington Star.

The trouble with the man who knows it all is that he is unable to keep it to himself.

Solomon when arrayed in all his glory didn't have a pair of plaid stockings to his feet.

Monkeys are worshipped in parts of Africa.

### A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D.: "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at Theo. F. Klutz & Co's drug store. Regular size 50c and \$1. Guaranteed or price refunded.

### North Carolina's Advance.

The progress of North Carolina as a manufacturing State has been truly remarkable. Only a few years ago she was far out-classed by both Georgia and South Carolina in cotton manufactures; now she has both the greatest number of cotton mills and is the largest producer of cotton goods among the Southern States.

North Carolina is rich in water power, but no richer than Georgia, and she produces nothing like so much cotton as Georgia. Her rapid advance in cotton manufactures is therefore all the more creditable to her.

North Carolina has also made much progress in woolen manufactures. The textile manufacturers in that State are enterprising men and their success has encouraged the investment of capital in various industries.

Now that North Carolina has thrown off the miserable misgovernment which has affected her for several years past, we may expect to see her advance even more rapidly in material development and prosperity. The State is very rich in natural resources and we are glad to see so fine a prospect of their development.

### Easy Fruit for Fakirs.

Negroes are the greatest people on earth to be taken in by fakes. The latest fake which is catching the negroes of this section is a preparation which a woman is selling here, and which she claims will take the kink out of their hair. It is said that the demand for this preparation can hardly be filled, and that the woman who sells it is simply coining money. All the negroes are buying it, and in the course of a few weeks many negroes will doubtless be seen with hair so straight that a curling iron would have no effect upon it whatsoever.—Albany (Ga.) Herald.

They are guaranteed to cure or price refunded. For sale at Theo. F. Klutz & Co's drug store, only 50 cents per bottle.

### Some People Think

it is not necessary for the eyes to have scientific attention as long as they can see at all. This is a mistake. Small defects neglected often grow into greater ones. We cannot restore the sight of the blind. If your eyes are good and only need the help of Glasses for reading, keep them so, by having spectacles correctly fitted. It don't cost any more and its the safe method.
