### Pay For Your Paper.

The Sun's bill for paper, which becomes due this week, amounts to upwards of two hundred dollars. This bill is for paper alone. And yet there are some people who seem to think it costs nothing to publish a newspaper and refuse to pay their subscription. And when their paper is finally discontinued they actually get angry with the editor and think and say harsh things about him. The great majority of the Sun's readers, however, pay promptly for their paper and for these good people it is a pleasure for us to labor. PAC FOR YOUR PAPER.

## ASKED FOR RAILROAD.

### To be Run to the Yadkin From Norwood Line.

Capt. E. B. C. Hambley and Mr. C. G. Young were in Raleigh yesterday to confer with Southern Railway officials in reference to building a railroad to the power plant on the Yadkin river.

If the road is built it will be a spur of the Yadkin road and will probably connect with that road at Albemarle, which is only about seven miles from the river.

This new road is considered a necessity for the moving of the machinery and other property of North Carolina Power Company to the river.

Messrs. Hambley and Young returned to Salisbury last night.

### Ladies Wanted to Sell Tickets.

The Salisbury Fire Company want a number of ladies to sell tickets to Ben Hur, which is to be presented at the opera house soon. All ladies who will assist in selling the tickets will please call at C. H. Swink's store.

### Knitting Department Added.

Knitting machines are to be placed in the Wiscasset Mills, to a capacity of 150 dozen hose a day. The space and power are to be furnished by the Wiscasset company, but it is an experiment on the part of another firm to give test whether or not such an institution will pay here. Messrs. Laubach and Butz, together with an expert lady, Mrs. Grover, who will manage the machinery, have been here several days, and it will be but a short time until the machines will be in operation. While only an experiment, it means a consumption of a considerable amount of home product from the two mills here, and there is every indication that it will pay.—Albemarle Enterprise.

A number of young ladies who were thrown out of employment by the burning of the Salisbury Hosiery mill, have gone to Albemarle to work in this new knitting department.

### Special Edition of Greensboro Patriot.

The Greensboro Patriot is just completing a special industrial edition that will doubtless appear the most elegant issue of the sort yet seen in North Carolina.

Persons desiring copies of this edition will receive them by sending their names to the Patriot.

### Benefit Daughters of Confederacy.

For the benefit of the Daughters of the Confederacy there will be a hypnotic and musical entertainment given at the opera house on the nights of the 20th, 21st and 22nd, by the McLean Hypnotic Company.

The Graphophone Grand is a wonder to the world. You should not fail to hear it.

## RUNAWAY YESTERDAY.

### Mrs. George Lanier Seriously Injured—Mrs. Rice Not Hurt.

Yesterday evening while Mrs. J. H. L. Rice and Mrs. George Lanier were returning from the country in a buggy, and when they were coming into Fulton street, the horse they were driving ran away.

Both ladies remained in the buggy, Mrs. Rice holding on to the lines, until the horse ran on a pavement near Capt. Beall's, when Mrs. Lanier was thrown out. Then the horse made another turn, into the street, and Mrs. Rice was thrown out. She was not hurt, but Mrs. Lanier received a couple of cuts in the head and was rendered unconscious for awhile.

A physician was phoned for and soon arrived to look after the wounds. Mrs. Lanier's injuries were considered serious.

Mrs. Rice is the wife of Mr. J. H. L. Rice, superintendent of the county road force. Mrs. Lanier is the widow of Mr. George Lanier.

Mrs. Lanier is reported to be better to-day.

### Struck by Vestibule.

Mrs. M. J. McCall was struck by the southbound vestibule at Charlotte yesterday morning and seriously injured. She had stepped on the main line to get out of the way of a train on the Statesville road.

### Notes About Mt. Vernon.

Mt. Vernon is a pleasant community in northwestern Rowan. It is one of the best farming sections in the county. The soil is fertile and the climate healthful. Wheat, oats, cotton, tobacco, and vegetables are extensively cultivated. The farmers are thrifty and enterprising as evidenced by the progressive appearance of the farms.

Messrs. Lyerly & Cartner are the hustling merchants here. They carry a nice line of dry goods, shoes, groceries, hardware, drugs and sundries. By their uniform courtesy they have long enjoyed a profitable trade.

The flour and saw mills, and cotton gin of Messrs. Teague & Currant are located here. They are run by water power. Besides doing a great deal of sawing for the district, they manufacture and furnish many thousands of tobacco boxes for the factories in Winston. The owners expect shortly to put rollers in their flour mills, thus being able to furnish as good flour as can be made in Rowan. When this is done they will no doubt get a largely increased patronage.

Mr. Emery Teague is the polite and genial postmaster. By his efficiency he has won the praise of his constituency.

Several churches are near here—South River Baptist, Unity and Third Creek Presbyterian. These have good pastors and are well attended, which indicates the active religious disposition of the population.

A number of the people here are subscribers to the Sun. They are very much pleased with it, and say it is the best paper ever published in the county.

Mr. Robert Carson and sisters, Misses Maud and Blanche, who have been attending the high school at Cleveland, have returned home.

Mr. John Locke Carson, who is now doing a thriving business in Dallas, Texas, is expected home early next month to spend a few weeks with relatives. He will be accompanied by his bride. Mr. Carson has friends in Salisbury who will join me in extending congratulations.

The writer holds in memory many pleasant hours spent here. People nowhere are more congenial and hospitable. For the many kindnesses shown him during his visit he is duly appreciative, and wishes publicly to extend thanks. CLABRO.

Parties desiring small loans can be accommodated by application to R. J. Holmes, Jr., & Co.

The News learns that a number of good ladies of Charlotte will, in the near future, begin a crusade against cigarette smoking. There is already a law prohibiting the sale of cigarettes to boys under the age of 18, but it is not enforced. The crusade will be mainly for the purpose of bringing this law to the attention of the authorities and if possible to curtail the consumption of the cigarette.

### Pastor of New Church.

Durham is to have a new church organization. It will be the Christian Alliance and Missionary church. Evangelist R. V. Miller, formerly of Salisbury, has accepted a call as pastor. The church is now nearing completion. For some time those in Durham who believe in the Christian Alliance movement (better known as sanctificationists) have met regularly in a hall but later it was decided to erect a church, and Rev. Mr. Miller was invited to become the leader of the little band. Mr. Miller is not a member of the Alliance himself, but he says that he is in full sympathy with the doctrine and movement. In reply to the call he said that he would organize an independent church into which the Alliance could be merged, and then elect regular officers, etc. The proposition was accepted and the church will soon be ready for services. Arrangements have been made with Evangelist Weston K. Gales to begin a series of meetings in the new tabernacle May 14. Pastor Miller will assist in these meetings.

Arrangements are being made for a grand entertainment at Faith soon.

We met Mr. R. Thornburg, an old gold miner of Salisbury, recently. He is one of those good old miners who understands the business. He worked in the bottom of the deepest shaft at Gold Hill in his young days, and he can tell about the large amount of the yellow metal that was mined out there in days gone by, and how ore was ground up on the large chillian mills and drag beds which was one of the best processes in the known world at that time.

Mr. Hodge hears from his little boy in Baltimore. Dr. McNairy, who is there with him writes that he is getting along fine. We hope the mad dog bite will not prove fatal.
