TERRIFIC STORM.

Passed Over Part of the County Early This Morning.

Quite a severe storm—wind rain and hail—passed over a part of the county several miles north west of Salisbury this morning between 4 and 5 o'clock.

There was considerable hail, the stones being the size of acorns, and this did much damage to wheat and other crops. In places the hail covered the ground shoe-mouth deep and drifted two feet deep in ditches. The wind which was terrific also damaged the wheat.

Mr. R. J. Holmes' wind mill tower was blown over, falling on a smoke house and wrecking it. Esquire A. L. Hall's large cattle barn was destroyed. Many trees were struck by lightning.

Faith's New Churches.

The Reformed church at Faith is about completed, services having been held there. The building is a nice structure and will hold a large congregation. It would be a credit to any place.

The Lutherans at Faith have also secured a site for a new church—in the grove where the Salisbury Lutheran picnic was held—and will erect a church building at once. It will be some larger than the Reformed church and will be a handsome edifice. The interior will be conveniently arranged, and when this church is finished Faith can boast of two as nice houses of worship as can be found in any place the same size.

Erecting Meridian Posts.

Mr. J. B. Baylor, of the United States Coast and Geodetic Survey, is in Raleigh erecting meridian stones, as provided for by an act of the last Legislature. These meridian posts will be placed at the county seat of every county in the State. They have already been established in about forty-three counties.

It requires two granite posts, 300 to 600 feet apart, with a cross on top of each showing the true north and south line.

The true meridian will be established for the benefit of surveyors and others interested.

Old, of Elizabeth City; secretary, John M. Miller, of Charlotte (re-elected); executive committee, T. W. Dewey, of Newbern, J. H. Wilcox, of Mt. Airy; F. H. Fries, of Winston; H. W. Sending Out the Laws.

The Secretary of State is sending out the laws, journals and documents to the members of the Legislature, the justices of the peace and the county officials entitled to them.

The copies for the judges, solicitors, clerks of court and registers of deeds in each county have already been sent by mail.

To make this distribution will take about all the copies of the laws, documents and journals printed and it is doubtful whether there will be any copies of either the public or private acts for sale.

There are about 8,000 magistrates (7,000 old ones and 1,000 new ones) and each is entitled to a copy of the laws. Only 9,000 copies of the public laws were printed and 2,000 of the private laws. Of the House and Senate Journals 450 copies each were printed and 350 copies of the documents.

Should Have Attention.

The Sun's attention was, yesterday afternoon, called to the filthy condition of the covered bridge across the Southern railroad on Inniss street. The walk on either side is too bad for ladies or even gentlemen to pass over—dirt and all kinds of trash being strewn in it. The city authorities should look after this matter and have the avenues cleaned. The railroad company had the walks swept once a week for a long while, on Saturday night's or Sunday morning's, we understand. If it is the duty of the company to do this the management should be required to do it now, if not the city Aldermen should have the place kept clean.
