FITZSIMMONS BADLY WHIPPED.

Jeffries Says He is Ready to Meet Any Comer From Any Part of the World.

New York, June 9.—James J. Jeffries, another sturdy young giant, has come out of the West to whip champion pugilists. At the arena of the Coney Island Athletic Club to-night, he defeated Robert Fitzsimmons, the world's champion, in two classes—middle-weight and heavy weight—in eleven rounds of whirlwind fighting. He came to the ring a rank outsider and left it the acknowledged master of the man he defeated. He was never at any time in serious danger, and after the size-up in the earlier rounds of the contest took the lead. He had the Australian whipped from the ninth round. It was acknowledged that Jeffries would have an immense advantage in weight, height and age, but the thousands who tipped and backed his opponent to win were sure that he was slow and that he would in that respect be absolutely at the mercy of the past-master at the science of fighting that he was to meet. He proved, on the contrary, that he was just as fast as the man he met and beat him down to unconscious defeat in a fair fight. He is a veritable giant in stature and marvelously speedy for his immense size. Less than a year ago he appeared in New York a great awkward, ungainly boy. To-day he is the lithe, active, trained athlete. The men who prepared him for his fight worked wonders with him. They taught him a nearly perfect defense, improved his foot movement and instructed him in the methods of inflicting punishment. The transition since he appeared last has been little short of miraculous. At 24 he has defeated Robert Fitzsimmons, Tom Sharkey and Peter Jackson and if he cares for himself he will probably be able to successfully defend the title for many years.

It was a great fight to watch and commenced and ended amid scenes of intense excitement. It was all very dramatic. The men fought before a crowd of 9,000 persons and stood up in a great beam of blinding white light. It was like a thousand calciums and it showed their great white bodies in strange relief. When the blood came in it was of an intense red than usual.

Fitzsimmons made his best showing in the fifth. He began the round with a punch that opened Jeffries' left eye and sent a little torrent of blood coursing down his cheek. He forced Jeffries against the ropes, but the Californian slipped away from him.

Fitz was the aggressor in the sixth, and that, too, was his round. He tried all of his tricks with his left and right, but was unable to place the right. The seventh might be said to have been Fitz's, but he did no particular damage with his punches. The eighth saw the beginning of the end, for Fitz never regained his balance after that round. In the eleventh round Fitz came up slowly but seemed the aggressor, Jeffries standing off evidently waiting for a knockout blow. They clinched three times, coming to close quarters. Jeffries put two hard rights over Fitz's heart, sending him back and then sent a straight left to the neck, followed with a left on the chest. Fitz crowded in, trying his right for the jaw, but fell short, but succeeded in blocking the Californian's right return. Jeffries then assumed the aggressive and jabbed his right to head. A left on the jaw from Jeffries dazed Fitz, who stood helpless in the middle of the ring. Jeffries looked at him for a second and when he had him at his mercy swung his right and left to the point of the jaw and Fitz went down and out, relinquishing the championship to California.

An Object Lesson.

Florida Times-Union.

The advantage of good roads in expediting travel is shown by a comparison of the time made by an automobile which recently traveled from Cleveland to New York, a distance of 218 miles, with that consumed by a French horseless carriage in going from Paris to Bordeaux 353 miles. The Frenchman made thirty miles an hour, the American a little over fifteen miles. Presumably the American machine was as good as the French, for no better machinery and kind is made abroad than America produces. The difference of nearly 100 per cent. in favor of the French automobile is due to the superiority of French roads.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at Kluttz & Co's drug store. Regular size 50 cents and \$1.00. Every bottle guaranteed.
