and pays back a dividend of 20 per cent. Take advantage of this offer and don't be hereafter regretting the lost opportunity.

T. B. MARSH,
AGENT.
Office in old bank building.

There are some who would call our war in the Philippines a holy war. And so it is—and all the holes are 2 1/2 x 7, and a man in each that either knew what liberty was or was feeling for it with whatever of intelligence he possessed. About four hundred Filipinos were given freedom by the Americans on Saturday. Not less than this number were shot to death by our soldiers on that date according to a dispatch from Gen. Otis. And some say God is doing this to forward the cause of Christianity.—Asheville Citizen.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. James Plummer.

J. A. Shear, of Sedalia, Mo., saved his child from death by croup by using One Minute Cough Cure. It cures coughs, colds, pneumonia, grippe and all throat and lung troubles. James Plummer.

There is a time for all things. The time to take DeWitt's Little Early Risers is when you are suffering from constipation, biliousness, sick-headache, indigestion or other stomach or liver troubles. James Plummer.

C. W. POOLE.

Writes With His Mouth.

Aaron Smith, editor of the Mount Pleasant, Tex., Times-Review, is probably the only armless editor in the United States, says the Fourth Estate.

He places a pen in his mouth, and dashes off editorials as rapidly and as any other editor blessed with two arms. Mr. Smith does some of his writing with his toes, but the bulk of it is done with his mouth. He uses a pen because it does not require such pressure upon the paper as when a common lead pencil is used; therefore, it does not tire his mouth.

He says he can sit down for hours at a time and write with but little inconvenience, and the only thing that bothers him is dressing himself, in doing which he is obliged to have some assistance.

Mr. Smith, ten years ago, was admitted to the bar, and practiced law successfully for awhile, but found he was unable to handle books with any degree of satisfaction.

He then embarked in a journalistic venture, and has successfully published the Times-Review since 1893. His paper is an eight-page journal, and enjoys a large circulation.

Special Report on Smallpox.

Dr. Richard H. Lewis, Secretary of the State Board of Health, has completed his special report on smallpox. The first case occurred at Wilmington, January 1, 1898, and from that time up to May 1st there were 616 cases in the State. There were seventeen deaths. The death rate among whites was five per cent., which is quite large, considering that the epidemic is of so light a character. Among the negroes the rate is one and three-fourths per cent. The greater number of cases originated in Virginia and South Carolina, and the disease is far worse in the rural sections of Northeastern North Carolina.

The colored people are the greatest preaching people of the world. They have preaching nearly every night and seldom ever leave the church before midnight. The present pastor of the Snow Hill congregation has introduced a new feature to interest his flock and hold them in the church to a late hour. He calls it the "Newspaper." After the preaching every one is asked to hand in on a slip of paper an item of news. These are then read by the preacher. It is said that some of the items are of a racy character. As the "newspaper" grows in interest, and meetings expand the sun climbs higher and higher in the heavens, day by day, before the cooks and others reach their places of employment.—Newton Enterprise.

The artillery presented to Agulnaldo by Admiral Dewey, presumably for the purpose of strengthening the Filipino army as an ally in the war with Spain in the Philippines, has proved a veritable boomerang. The telegrams tell us that these same guns are now being used by the insurgents with terrible effect upon our men in the battles south of Manila. 'So we find that the guns intended to kill Spaniards are now being used by Spaniards to kill Americans.

Judge Starbuck will wake up some of the natives at next court. Thirty-six judgments were taken against witnesses subpoenaed to court during the first week and who failed to answer when their names were called. He entered a fine of \$30 and costs in each case.—Murphy Scout.

Hundreds of women and children are reported to be dying of starvation in East Africa, owing to a drought.

\$1.50 Oxford Ties for 75c. Carolina Racket.

Dr. W. H. Wakefield, Oculist and Aurist, of Charlotte, will be in Salisbury, at Central Hotel, on Wednesday June 28th for the practice of his profession. He limits his work to the Eye, Ear, Nose and Throat.

W. M. Gallagher, of Bryan, Pa., says: "For forty years I have tried various cough medicines. One Minute Cough Cure is best of all. It relieves instantly and cures all throat and lung troubles. James Plummer."

NO CURE—NO PAY
That is the way all druggists sell GROVE'S TASTELESS CHILL TONIC for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating Tonics. Price 50 cents.

The Mechanics and Investors Union

Provides the citizens of North Carolina with the best plan for the profitable and safe investment of monthly savings that has ever been devised. The following reasons are given in support of the statement:

1. The Company is operated under a carefully-prepared charter, granted by the State of North Carolina in May, 1893, to well-known citizens of Raleigh.
2. The plans of the Company were prepared with the utmost care by capable experts; and are in exact accord with the laws of the State.
3. The Officers and Directors are prudent, honest and careful business men, who are themselves stockholders, and are doubly interested in the welfare and financial success of the Company.
4. The permanence of the Company has been provided for in the same manner that banks and other corporations provide for their safety and permanence. That is to say—The stockholders are not permitted to break up and ruin the Company by demanding the return of their stock before maturity. They can sell and transfer it without cost, or the Company will make advances on it.
5. The plans provide for the regular monthly payment of sixty-five cents per month for \$100 of stock, or for its multiples up to \$19.50 per month to one person, which latter payment will, in one hundred months, mature \$3,000 stock, making an investment adapted to the poor man, woman or child who can only save two cents per day; also to the parent who wishes to create a fund of \$500, \$1,000 or \$3,000 for the education of his family.
6. The Guarantee Fund, which now amounts to several thousand dollars, protects the stock of every member (whether investor or borrower) from damage or loss. In case of death, the Trustee of this Fund becomes responsible for the monthly dues until maturity of the shares of stock, at which time the widow or heir will receive the full amount. This increases the value and security of the investment.
7. The funds of the Company are invested in first mortgages on improved real estate, which are held by B. S. Jernan, Treasurer and Trustee, for the protection, benefit and final payment of the stock held by the members. These securities are not transferable, and they can not be used for any other purpose. The Company owns no debts of any kind.
8. The Company will at any time make advances on a member's stock in sums of fifty dollars and multiples, to the full extent of his payments to the Loan Fund. This is done without expense for papers.
9. It is a purely mutual Company; the profits are divided to the investing and borrowing members in proportion to their shares of stock.
10. The Company pays the entire tax on the stock. It is not taxable in the hands of the owner.
11. In order to become a member, and participate in the advantages, the Company requires a written application, giving full particulars.

The Officers of the Company are: Jno. C. Drewry, President; J. S. Wynnie, Vice-President; B. S. Jernan, Treasurer; J. N. Holding, Attorney; Geo. Allen, Secretary; W. S. Primrose, C. G. Latta.
