Great Damage Done by Caterpillars.

A dispatch from St. Johnsbury, Vermont says: The forest tent caterpillar has appeared in millions in Caledonia county. Every possible method has been tried to protect shrubs and trees in St. Johnsbury. The city authorities have employed a fire engine to spray trees bordering streets with a poisonous solution, but these efforts have been only partially successful. It is estimated that the ravages of caterpillars will cost the State hundreds of thousands of dollars if they remain another season.

At What Age Should Girls Marry?

Sarah Grand, in The Gentlewoman.

It has come to pass that the modern girl marries later in life than her predecessor. She feels that there is no hurry and takes plenty of time to look about her. The healthy-minded would generally prefer to marry, but just at what ages is somewhat hard to determine. It seems to me that the only possible answer to the question is also the most obvious, namely, when she arrives at years of discretion. This happens at various ages, according to the character and capacity of the girl. Some girls are sensible women at nineteen; some are never sensible women at all.

The Amelia Sedley sort of girl is a survival of the chattel period, and as she never acquires the sort of discretion which is a safe conduct through life it makes no difference at what age she marries. She is the clinging sort of creature who looks about for a man to lean upon and generally find one, for men in theory still prefer her. They sentimentalize on the subject in their youth and talk about the ivy and the oak. When they are captured, if they do not suffer the fate of the oak smothered by the ivy, but survive to tell the tale, they still cling to their theory; but they spend the leisure hours of their middle age at their clubs.

Useful Information.

Never stand near a tree, iron railing or lead spouting when it is lightning.

Never leave a gun in reach of young people when loaded. Always remove the charge when you are done with it.

Do not sleep in a room where charcoal is burning. If you feel drowsy when near it, go into the air.

You may save many accidents by always picking up orange peel off payments and roads and putting it out of the way of passengers and horses.

In crossing a road always go behind a carriage. Never leave horses in a road by themselves.

Always air vaults or cellars that have been long closed before entering them. Try if a lighted candle will burn before staying in such places any length of time.

Keep sand in a hall in every house where kerosene is burned, as in case of fire it will extinguish it immediately. Milk also has this effect.

Naomi Taylor, aged 4 years, of Baltimore, was scalded to death by falling into a boiler of hot water.

Life's Story.

Life is but a little story, Punctuated in the main With commas of our happiness And with periods of pain.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was.—Free trial bottles of this Great Discovery at Kluttz & Co's Drug Store. Large bottles 50 cents and \$1.00.

Reduced Rates.

The Southern offers reduced rates on account of the following occasions:

Thomas Thurman, deputy sheriff of Troy, Mo., says if everyone in the United States should discover the virtue of DeWitt's Witch Hazel Salve for piles, rectal troubles and skin diseases, the demand could not be supplied. James Plummer.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. James Plummer.

LICHTENSTEIN'S

Clearance Sale.

The Mechanics and Investors Union

Provides the citizens of North Carolina with the best plan for the profitable and safe investment of monthly savings that has ever been devised. The following reasons are given in support of the statement:

1. The Company is operated under a carefully prepared charter, granted by the State of North Carolina in May, 1893, to well-known citizens of Raleigh.

2. The plans of the Company were prepared with the utmost care by capable experts; and are in exact accord with the laws of the State.

3. The Officers and Directors are prudent, honest and careful business men, who are themselves stockholders, and are doubly interested in the welfare and financial success of the Company.

4. The permanence of the Company has been provided for in the same manner that banks and other corporations provide for their safety and permanence. That is to say—The stockholders are not permitted to break up and ruin the Company by demanding the return of their stock before maturity. They can sell and transfer it without cost, or the Company will make advances on it.

5. The plans provide for the regular monthly payment of sixty-five cents per month for \$100 of stock, or for its multiples up to \$19.50 per month to one person, which latter payment will, in one hundred months, mature \$3,000 stock, making an investment adapted to the poor man, woman or child who can only save two cents per day, also to the parent who wishes to create a fund of \$500, \$1,000 or \$3,000 for the education of his family.

6. The Guarantee Fund, which now amounts to several thousand dollars, protects the stock of every member (whether investor or borrower) from damage or loss. In case of death, the Trustee of this Fund becomes responsible for the monthly dues until maturity of the shares of stock, at which time the widow or heir will receive the full amount. This increases the value and security of the investment.

7. The funds of the Company are invested in first mortgages on improved real estate, which are held by B. S. Jerman, Treasurer and Trustee, for the protection, benefit and final payment of the stock held by the members. These securities are not transferable, and they can not be used for any other purpose. The Company owes no debts of any kind.

8. The Company will at any time make advances on a member's stock in sums of fifty dollars and multiples, to the full extent of his payments to the Loan Fund. This is done without expense for papers.

9. It is a purely mutual Company; the profits are divided to the investing and borrowing members in proportion to their shares of stock.

10. The Company pays the entire tax on the stock. It is not taxable in the hands of the owner.

11. In order to become a member, and participate in the advantages, the Company requires a written application, giving full particulars.

The Officers of the Company are: Jno. C. Drewry, President; J. S. Wynnie, Vice-President; B. S. Jerman, Treasurer; J. N. Holding, Attorney; Geo. Allen, Secretary; W. S. Primrose, C. G. Latta.
