NOTICE, DEMOCRATS

The following are the dates for the Democratic Primaries and Convention:

PRIMARIES, SATURDAY, APRIL 7 CONVENTION, MONDAY, APRIL 9

AMENDMENT BILL.

The question of the amendment is having a liberal discussion through the papers of the day. The friends of the bill, too, are apparently increasing as the measure is clearly presented to the public. It is a matter of deep interest to the white citizens of North Carolina. The bill should have the support of every one of them. A correspondent to yesterday morning's Charlotte Observer over the signature, "Unus," makes the following earnest appeal to the white men of North Carolina to support it:

Why is it that any white man in North Carolina, unless he wants an office, will vote against the amendment, I, for one, cannot understand. I don't believe many of them will. If any do, they should be ostracized by all good white people. They deserve detestation and should receive it, of all of us who want purity in politics. We, of the good old State of North Carolina, now have a chance to build up her latent industries and those who oppose the amendment only retard them. White men of North Carolina, come as one man and free your State from ignorance. You all know that this grand old Commonwealth has suffered enough by it, and now when you have a chance, use it. These chances do not come often. Possibly this will be our only chance, then use it. Think dear people intelligently, and if you do you will all come up to the voting precincts and vote as white men should. Bestir yourself. Your God is with us because He wants purity. Our women are with us, our children are; then, pray, why are you not? Well, I guess you will be. You have no good reason not to be. Then, of course, you will come because you want to see all things bettered, which, if we carry the amendment, you will see. Now, have no excuse but sickness; if you do, your children will always think strange of you, and if you vote for them, they will always bless you. We would all rather have their blessings than their censure. I have read that a father feels better after he has done some great good for his offsprings. Now you know that there would be no greater cause for you to espouse; then espouse it and get the plaudits of your mother, wife, sister, and children, backed up by your white friends. Have no excuse, for none you have. Array yourself among those you esteem and help them in this, the greatest political battle they have ever engaged in. Be wise as you would want your children to be by showing them

that you are at this time going to be with people whom you know mean only the advancement of us all.

—There is every probability that the Paris Exposition will not be ready for public inauguration on Easter Sunday, April 15. Many of the buildings will be incomplete and the exhibition will be only during the daytime for some time after the official opening. It is thought by May 1, that the exhibition will be in a fairly satisfactory state.

—With a capitalization of \$100,000,000 the Standard Oil Company has recently declared a quarterly dividend on the basis of 80 per cent profit annually on the money invested in the business of the company. The capitalist who can net 4 per cent on his investments nowadays considers himself very well remunerated. The British Government recently offered for sale bonds to the amount of \$150,000,000 bearing 2 1/2 per cent interest at less than par. The loan was subscribed 20 times over at a premium. For the use of \$150,000,000 Great Britain will pay \$4,115,000 a year. For the use of \$100,000,000 of their capital the stockholders of the Standard Oil Company may get \$80,000,000 a year. These figures show how much more profitable are the securities of a monopoly than the bonds of a rich government like that of Great Britain, says the Baltimore Sun.

Affects Our Industrial Development.

More depends upon the carrying of the constitutional amendment than the mere political interests that attach to it. The industrial development of the State will be greatly affected by it. It was remarked recently here by one who looks to industrial affairs for the future that certain investments which he contemplated now will depend upon the carrying of the amendment. While he is from the north, he says that the political affairs here will affect and really control him in the matter of his investments. He has had some experience with the colored people and he sees no hope of improvement or of profits from investments if they are to control or have any large share in the political affairs of the State.—Scotland Neck Commonwealth.

Kansas' Corn Crop.

In the ten-year period just closed Kansas has raised 1,331,890,410 bushels of corn, of a value on the farms where raised amounting to \$364,633,448.

M. B. Smith, Butternut, Mich., says, "DeWitt's Little Early Risers are the very best pills ever used for costiveness, liver and bowel troubles." James Plummer.

In Carthage, Mo., there is a woman insurance agent, several women notaries, doctors, mining brokers and journalists, and no especial wonder is excited. But what a stirring bit of news this would have been fifty years ago.

There were 533 deaths from the plague in Bombay during the week ending February 16th.

For the Babies.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by James Plummer, druggist.

Most people—you included, perhaps—are extremely negligent in regard to their eyes, and very culpably so in regard to their children's. This is because the general public have literally no idea of the number and variety of eye defects. If you have eye troubles see Dr. S. R. PRICK, The Charlotte Eye Specialist. Next day in Salisbury Thursday, April 5th, at Central hotel.

FROM THE TELEGRAPH.

Cubans seriously object to establishing quarantine regulations for Havana April 1st, as has been announced.

General Gomez, in a letter published in Havana, says the Cubans are now "trying to shake off the intervening government."

Five persons killed, one fatally and one seriously injured, resulted from an attempt to start a fire with gasoline at Columbus, Ohio.

The British Bible Society is going to provide all the Bibles for prisoners with Bibles written in Dutch. These will soon be sent to St. Helena.

Governor Taylor left the State capital at Frankfort for Louisville, Ky., Saturday. An escort of twenty soldiers accompanied him to the train.

The feature of St. Patrick's Day parade in Chicago was the carrying of a big Traansvaal flag at the head of the Ancient Order of Hibernians.

Charles Newton, eight years old, whose parents live in Roanoke, Va., died at the Maryland General Hospital, Baltimore, Saturday with hydrophobia. The boy was bitten several weeks ago.

Maud S., the famous trotter, died at Schultz's farm, Port Chester, N. Y., Saturday. She was brought to the farm from New York a week ago and it was intended to use her for breeding purposes.

Reports from the representative fruit and vegetable growing sections of Mississippi say that early strawberries were considerably damaged by the frost last week. Vegetables and peaches, however, are safe.

Porto Rico Cries For Help.

The condition of Porto Rico is almost incredible. The whole are being pauperized by free government rations, while the instability of the country without constitutional guarantee prevents American capital from flocking in.

There is a general outcry from leading Porto Ricans in all parts of the island against this degrading amassing as a bribe to quiet the people while Congress is fastening the slavery of a colonial system upon them.

The official returns show that in five months the normal death rate of Porto Rico has increased 3,000 since the tornado period, showing that the island is losing in population at the rate of 20,000 a year as a result of American control.

The sights in the mountain districts are appalling. All experienced men agree in saying that the only hope of saving Porto Rico from utter ruin is to at once convert it into a regular United States Territory. The people do not need charity. They need the opportunity to work.

The heart of the most sordid trust president would be melted by the spectacle of a helpless nation waiting in suspense for the news that Congress has refused to take all hope from them.—James Creelman in New York Journal.

According to the latest figuring the British have 213,000 troops in South Africa, to about 35,000 Boers.

Robbed The Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in the back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed, at Theo. F. Kluttz & Co's Drug Store.

That Throbbing Headache.

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Money back if not cured. Sold by Theo. F. Kluttz & Co., Druggist.

C. M. & H. M. BROWN.

Increased facilities for handling lumber and building material place me in a position to supply the demands of the lumber trade much more satisfactorily to my customers and myself as well. I am now prepared to replenish my yard and warehouses with a well selected stock of sash, doors, blinds, mouldings and all kinds of finished materials from my own mills, thereby obviating the annoying and perplexing delays incident to placing orders with distant parties. Orders for any kind of material not to be found in stock will be promptly executed directly from the shops at New London. Estimates furnished on application. Orders solicited. C. A. RICE.

Now that the Christmas holidays are over, and novelties have played their part, turn your attention to the necessities and comforts of life, and begin the new year right, by putting in a Bath Tub and Water Closet in your home. When in need of Tin or Slate Roofing Plumbing or Repairs W. S. Nicolson. PHONE 109. Thanking one and all for past favors and ask for a continuance of same.
