NO. 91.

THE STREET CAR LINE.

Company is Ready to Begin Preliminary Work in a Short While.

A letter was received this morning from the J. B. Bostic Company, the firm principally interested in the building of a street car line in Salisbury in which it was stated that a report of the passage of the car line franchise bill in the Legislature had been seen and a representative of the company would be here in a few days to make preliminary arrangements for the establishing of this line. The company had not learned that the bill was not taken up in the Senate.

Mr. C. B. Jordan left this morning to try and make some arrangements for the building of the system, anyway.

Salisbury Odd Fellows Invited.

The Cold Water Lodge I. O. O. F. of Concord, has extended an invitation to all the Odd Fellows of Salisbury to attend the memorial service at that place to-morrow afternoon at 4 o'clock. The sermon will be preached by Rev. Mr. Douglass.

The Odd Fellows who go from here will have the regalia of the order. Those going will please go to the depot soon in order to find out how many regalia to take.

Salisbury's Elms Dying, Too.

The Winston Sentinel says: "Some sort of an insect is playing havoc with the English elms in this and other towns in the State. These insects denude the trees of leaves and as a result the trees die. The ravages of the insects are especially noticeable on West Fourth street. Trees which a short time ago made a beautiful shade are dying. The leaves look like they had been killed by frost."

Prof. Britt Transferred.

Prof. J. J. Britt, who has been on duty at Statesville as special gauger in the revenue service, has been transferred to South Carolina. He is now visiting his family in Mitchell county and will go from there to South Carolina. Mr. C. F. Blalock succeeds Prof. Britt.

The Railroad Succession.

A SALISBURIAN HAS SMALLPOX.

Mr. Tom Talbert and Family Broken Out—His Mother Visiting Him.

Yesterday's Charlotte News says of the family of a former Salisburian:

"The yellow flag was hung out this morning at Mr. T. L. Talbert's, corner of Brevard and Ninth streets. Dr. Hawley, city physician, was called there yesterday to see Mrs. Talbert, who was broken out with an eruption. Dr. Hawley last night pronounced it smallpox, and this morning put the house under quarantine. The occupants of the house are Mr. and Mrs. Talbert and child, Mrs. Talbert's mother and brother.

"This afternoon Mr. Talbert and the baby broke out with the disease.

"Last week Mr. Owen Talbert was sick at the house. He was broke out with an eruption that the doctor pronounced chickenpox. He recovered and left the house, but is still in town."

This morning's Observer says: "Mrs. Talbert's condition prevents her being taken to the post house, and it is likely that she and the other afflicted members of the family will be cared for in their residence, under close quarantine."

The "Mrs. Talbert's mother" spoken of above is doubtless Mrs. Talbert's mother, as she went to Charlotte several days ago to visit her son.

WARD A MARRIED MAN.

He Said That He and Miss Newell Were Also Married.

The Statesville Landmark, referring further to the attempted elopement of Miss Sara Newell and John Ward, says:

Tuesday morning Mr. Levy got a letter from Ward, bearing date of Monday, in which Ward claimed that Miss Newell was his wife; that the reason he went away and left her at Elmwood was because he didn't want to kill Levy on her (Miss Newell's) account; but that he had killed a man for less provocation and been acquitted. After some more talk of this kind this bold, bad man proceeded to tell Mr. Levy that he was coming to Statesville Tuesday to claim his wife (Miss Newell), and that if he (Levy) or anybody else interfered they would do so at their peril. This great bluff didn't frighten Mr. Levy but he telegraphed Mr. Banks at Salisbury and the latter came and took Miss Newell back to Salisbury with him the same evening. It is unnecessary to say that Ward didn't show up here Tuesday.

"Miss Newell's father, who is a Jewish rabbi, was in Statesville Wednesday and told what he knew of Ward and his daughter's infatuation for him. The man's name is John O. Ward and he has a wife and child in Richmond, who live neighbor to Mr. Newell and it is reported that he has a wife in Goldsboro also. The Wards and Newells sustained neighborly relations in Richmond and Ward and his wife often visited the Newell home, which consists of the father and daughter. It was during this time that the attachment was formed, but Mr. Newell knew nothing of it, as he was frequently away from home teaching. "The girl seems to be completely under his (Ward's) influence and her relatives think it possible that he exercises some hypnotic influence over her."

He is also conducting a department store in Salisbury, which is the largest establishment in the city; is a stockholder in a cotton mill that is being erected there, and is prospering generally. PEKIN ON FIRE.

LEGATIONS BURNED.

GERMAN CONSUL MURDERED.

Many Native Converts and Servants of Europeans Massacred—The Boxers on the War-path—Troops Being Hurried to Peking.

[SPECIAL TO DAILY SUN.]
Hong Kong, June 16.—Despatches from Tien Tsin say that all the legations at Peking have been destroyed. The German minister, Baron Von Ketter, has been killed.

Lieut George Gribble with four hundred Royal Welsh Fusiliers sailed this morning for Tien Tsin. The British warship, Barfleur, started for Taku immediately upon receipt of the above news.

London, June 16.—Much alarm is caused here by a despatch from Tien Tsin showing that the Chinese carried out their threat and set fire to the city in various places.

A train carrying reinforcements to Admiral Seymour was also turned back from Tien Tsin to Shanghai last night.

Advices from Tien Tsin report large incendiary fires in the eastern part of the city, where three English and American churches were burned, besides the residences of many foreigners.

Tien Tsin, June 16.—Many native converts and servants of Europeans have been massacred by Boxers east of Peking. The massacre occurred last Thursday night.

A Catholic cathedral was pillaged and burned at Peking. Rebels also burned the railway station at Bando and burned the telegraph station. Communication with this city and Taku is interrupted. The telegraph station at Tung-Chan was also destroyed. Although no definite information is obtainable it is believed here that the native converts did not die without a struggle. The Bishop had armed the Catholics and turned the Cathedral into a fort.

Washington, June 16.—Officers of the Navy and Department of State are greatly concerned over the apparent failure to reach Admiral Kempf or Minister Conger. A cable despatch was sent to Conger yesterday but it was admitted to-day that there is no reason to believe it has been delivered.

The Chinese minister says he has had not a word from Peking or Tien Tsin. He said he didn't believe the German minister was killed and said the report came from Hong Kong which he pronounced as a great place for rumors.

BLISS FOR VICE PRESIDENT.

Chances are That He Will be McKinley's Running Mate.

[SPECIAL TO DAILY SUN.]
Philadelphia, Pa., June 16.—There is not going to be any change in the situation till Senator Platt and B. B. Odell, of New York, arrive.

Party leaders demand Bliss for the vice-Presidency. They point out the fact that though Bliss says he doesn't want the nomination he has not said he would decline if nominated.

Woodruff's boom is falling to pieces to day. His press agents are crying, "if only Platt would speak out and help us we could win." Platt will not speak out for Woodruff according to Quigg and others.

The New York delegation will present for the vice Presidency B. B. Odell, but very few believe Odell will be nominated.

Bliss is regarded as fully as much a candidate to day as at any time. Many well-informed leaders are confident that he will be nominated.

Our White Granite.
The outside world is not aware of the large amount of fine white granite that is being shipped off from the granite belt near Salisbury, from the little villages of Faith and Woodside.

Six car loads were shipped this morning which means several hundred dollars for the people who put it in shape for the market. Ten times this much more would be sent off every day if the people had side tracks placed out into their quarries, and then the railroad company and the people would have a harvest that would last for years.

J. T. Wyatt is one of the largest granite owners on the granite belt outside of the granite companies.
