CANDIDATES NOTIFIED.

BRYAN ACCEPTS NOMINATION.

Stevenson Accepts the Vice-Presidency—The Notification—Thousands of People Gathered at Indianapolis, Ind., Yesterday.

Indianapolis, Ind., August 8.—William Jennings Bryan and Adlai E. Stevenson were to-day in this city, officially and formally notified of their nominations by the Democrats at the recent Kansas Convention, to the offices respectively of President and Vice-President of the United States. The ceremony was made the occasion of a demonstration with which the Democrats may be fairly said to have begun their national campaign.

The notification occurred in the military park, a beautifully shaded tract of ground in the center of the city. The park contains probably thirty acres of ground and it was well covered with people. In the vicinity of the speakers' stand the crowd was very dense. Probably a majority of them were residents of Indianapolis, but many were from other portions of Indiana, while many also came from distant State. There was also quite a general gathering of the members of the Democratic National committee, while of course the members of the two committees appointed to make the official notifications were also present. The occasion was therefore regarded as of national political importance.

The ceremony was preceded by a parade through the principal streets of the city which was participated in by a number of visiting and local Democratic clubs. These acted as an escort to the notification party and the cavalcade was an imposing one. The meeting began a few minutes after 3 o'clock and concluded at 5:40 p. m. Five speeches were made, Mayor Taggart, of Indianapolis, adding a welcoming address to the notification speeches of Representative Richardson and Governor Thomas and responses made by Mr. Bryan and Mr. Stevenson.

In his speech before the notification committee Mr. Bryan discussed the Kansas City platform. He declares the contest to be one between Democracy on the one hand and Plutocracy on the other. The position of the two parties were clearly defined by Mr. Bryan who said imperialism is the great and far-reaching issue now in the arena of politics. He declared against civilizing with the sword and making merchandise of blood. Mr. Bryan declares that he favors giving the Filipinos independence and guarding them from molestation from other nation, as has been done in case of the Cubans.
