SALISBURY, N. C., Feb. 4, 1901 THE PROPOSED AMEND-

MENTS.

The Sun desires to discuss the intended amendments to the city charter, as promulgated at the meeting of the board Friday night. It wishes to do so to endorse one or two of the propositions. The decision to ask the Legislature to give the board authority to call an election for the of \$100,000 of bonds for street improvements meets with our approval, and is, in our opinion, one of the best features of the proposed amendments. We know that when it comes to increasing the peoples' taxes they will kick, but, nevertheless it is a fact that there i nothing so badly needed to improve the city as better streets and sidewalks.

It is safe to assert that there are few up-to-date towns in the country that are not heavily bonded and the citizens are thriving and growing wealthy. under similar circumstances, ought sory schools and better educational to prosper greatly and we believe it would. We are, therefore, favorable to a bond issue. No fault, however, will be found with any one who opposes it, that being an individual right.

As to the proposition to restore to the board of aldermen the right to elect the city tax collector, now elected by the popular vote, we under that condition, be more but whether or not that would obtain to the better interest of the of the board.

The right to appoint and afterwards elect and maintain a water commission, we believe, is proper thing and it ought to be done.

Aldermen ought to do, and that is publish the changes for several generally what is intended and thus preclude any chance of complaint or claim from the people that they did not know what was proposed. This is due the citizens and we trust the board will ac wisely in the matter.
