A SPLENDID MEETING.

THE ROWAN MEDICAL SOCIETY IN SESSION.

D. Heilig Reads a Valuable Paper on Food for Infants. A Case of Lockjaw Reported Cured, to Society.

Rowan County Medical Society met in regular session yesterday morning, and there was an unusually large attendance. A number of important and interesting subjects were brought before the members, and the discussions were animated and of unusual interest. Dr. Long presented the subject of spinal anesthesia, and exhibited the instruments necessary for the injection of the local anesthetic. Cocaine and Eucaine are both used, some operators preferring the one, and some the other. The solution is injected into the subarachnoid space, and the puncture is made between the fourth and fifth lumbar vertebrae, below the termination of the spinal cord. No surgical operation, Dr. Long says, requires more careful preparation in order to insure thorough asepsis and antiseptics than this new method of obtaining anesthesia of the lower half of the body. The members of the Society were afterwards invited to witness an exhibition of the X Rays, one of the most interesting and valuable of modern inventions. Dr. H. G. Heilig read an able and exhaustive paper on the subject of infant feeding, which elicited a number of very flattering expressions from his fellow members; and a copy of his contribution, for publication, was requested. The work of the society, one of the oldest in State, is of great and constantly increasing interest to its members, and of much value to the general public. Drs Stokes and Crump promise to present, at the next regular meeting, a detailed statement of a case of tetanus, attended by them, recently, terminating in recovery. Such attacks are nearly always fatal. Two new members were received yesterday, Doctors W. C. Klutz and S. M. Crowell.

He Walked Home.

Capt. J. C. McCannless, of Dunn's Mountain, after banqueting with the Masons last night went in quest of his horse and buggy about midnight. The team was gone, however, and the captain, concluding that it was stolen, walked home. He found the horse patiently standing at the barn door when he arrived at home.

Sunday's Services.

The services at all the churches here were largely attended Sunday. Special Easter services were held at the Presbyterian, Episcopal, Catholic and Lutheran churches. At these four churches the music was particularly fine and large congregations were in attendance. Appropriate sermons were preached at the Methodist and Baptist churches. It was a beautiful Easter and the weather, perhaps, induced many to avail themselves of the opportunity to attend Easter service.

NEW CENSUS REPORT.

SALISBURY HAS NOW ABOUT 7,100.

The New Directory Will Show About 11,000 People in Salisbury and Surroundings. A Big Gain.

There is a wide mark between the census report of last year and a census taken last week of the population of Salisbury. The parties who are getting up the directory of Salisbury find that the population of the city is 7,100 and the population of Salisbury and suburbs, including only those who reside almost at the corporate line, about 11,000. The gentleman who is making the directory declare that their method of ascertaining the population is the most accurate that could be devised and that the number of souls within the corporate limits will not vary from the figures given by them, 100.

This increase within the year can be partially accounted for by the location of railroad offices here and an addition in the shop force, in addition to numerous business men who have moved here. It is quite certain that Salisbury will get a free delivery after next July.

Prof. Miller to Leave.

Prof. Ed. H. Miller, of Franklin, who has been teaching school at Cleveland during the past session, will locate in the west. He leaves this week for Chicago, where his brother is located. From Chicago Prof. Miller may go to California to live. His many friends here will regret to learn that he is to leave Salisbury.

Mr. Patterson had not been in Salisbury for several years and spoke very enthusiastically of his favorable impression of the town and its great improvement since his last visit. Mr. Patterson will stop on his way back and spend a few days with Prof. Kirkman.

KILLED BY TRAIN.

CALVIN H. HINSON KILLED YESTERDAY.

His Neck Broken and Both Legs Cut Off. Made a Mistake and Stepped on the Wrong Track, When the Engineer Blew his Whistle. Leaves a Family of a Wife and Six Children.

Mr. Calvin H. Hinson, who lived near Sumner's Siding was instantly killed yesterday morning while walking on the railroad track near China Grove. Mr. Hinson was going to China Grove to join Mr. H. C. Lentz, with whom he was to go to Cleveland yesterday to purchase a farm. The walk from his home to the Grove is only about four miles and he took the railroad track. He had reached the point near China Grove where the side track parallels the main line and walked between the tracks. At this moment the fast train came along and the engineer observed that the man was too near the track for his safety and blew the whistle repeatedly. Mr. Hinson wore a cap and had the sides turned down over his ears, in consequence of which he failed to detect the track from which the alarm was sounded and in the confusion of the moment stepped from the pathway between the tracks to the track on which the approaching train was speeding at the rate of thirty miles per hour. He looked back, but too late. In an instant the engine was upon him and in another instant he was a corpse. His neck was broken and both legs were cut off. He was also badly cut on other parts of the body.

The remains of the unfortunate man were composed and taken to his home.

Mr. Hinson was a farmer, sober and industrious, and had the respect of all who knew him. He leaves a wife and six children in almost destitute circumstances.

A FINE ART EXHIBIT.

TO BE GIVEN IN SALISBURY IN A FEW DAYS.

The Graded School and the Daughters of the King will give Exhibit Under Their Auspices.

For some time it has been contemplated by both the Graded School and the Daughters of the King to have an art exhibit. Last week Supt. Coon and the Daughters of the King met and arranged to have one exhibit, which will be held on the 16th, 17th, 18th, and 19th of April. The purpose of this exhibition is largely educational. The exhibit will include copies of the masterpieces of the great artists of the world, representing the Italian, French, Spanish, Dutch, British and American schools of art. In addition to the pictures exhibited, there will be statuary, panels, relief portraits, and other artistic productions suitable for home and school room decoration. It is the intention of the managers to sell and take orders for pictures and charge a small admission fee for the privilege of seeing the exhibition, which will be held in the hall over Peterson & Ruffs' shoe store.

A large part of the exhibit will be furnished by the Helman-Taylor Art Co., of Boston, who furnished the recent successful exhibit at Winston, N. C. Wherever this company have sent one of their art exhibits they have invariably scored a success.

Of the merits of this exhibit the Springfield (Mass.) Union says: "The exhibition is the finest thing in this line which has ever visited Springfield."

It is the intention of the management to make this exhibit attraction to all, old and young. Every lover of the beautiful will be interested in the opportunity, not often offered, of seeing the great pictures of the world in the most attractive reproductions which it is now possible to execute.

The details and the programme of each day will be published later. The teachers and the children of the city and the county are cordially invited by the management to arrange to attend the exhibit at least one day. Season tickets will be provided for those who desire to see the exhibit more than once.

ROYAL ARCH MASONS GIVE A BANQUET.

A Team Put Through at two Meetings Yesterday. A Magnificent Affair at the Mt. Vernon Last Night.

The Royal Arch Masons of Salisbury gave a banquet at the Mt. Vernon hotel last night, which rivalled any heretofore given by this chapter.

The occasion was the initiation of a team composed of Messrs. H. M. Elliott and C. M. Shuford, of Hickory, and Mr. J. C. McCannless, of Salisbury. The work of initiating the team consumed a portion of yesterday afternoon and evening and was completed at 11 o'clock last night.

After the initiation those assembled went to the Mt. Vernon, where proprietor Lindsay had prepared a sumptuous feast, though only short notice had been given him. Mr. E. B. Neave was toastmaster of the evening and filled the position with such becoming dignity as makes him a character to inspire reverence in the secret councils of the chapter.

Including the three out-of-town guests forty gathered around the banquet table and partook both of the substantial feast and good cheer of the evening.

A BIG SENSATION.

A SEVEN DAY SENSATION IN SALISBURY.

MR. J. M. BRADY'S FALL.

Married at Rock Hill S. C. at Midnight and Leaves His Business in an Awful Tangle. The Firm Owes Over \$1100 Odd Fellows Find a Shortage in Their Books. Mr. Brady Now in Augusta, Georgia.

The doors of the Salisbury Grocery Company were closed Saturday evening and Mr. J. M. Peeler was appointed trustee.

From this incident developed a sensation which has been the all absorbing topic in Salisbury since that time.

The Salisbury Grocery Company was composed of Mr. John M. Brady, who came here from Rockwell several years ago, and Mr. J. P. Mault, an old resident of Salisbury. The company has been engaged in the grocery business for the past two years and seemed to prosper. Mr. Mault's integrity was unquestioned and Mr. Brady was regarded by his friends (and his friends were legion) as an exemplary young man. The beginning of the trouble dated from Friday night when a young lady of this city of heretofore unimpeachable character but at that time in a delicate condition was seen crouching behind the water tank at the depot preparing to board the first South bound train. She first tried to get on the fast mail and was told that it did not carry passengers. When the local arrived twenty minutes later she got a seat in the car and wrapped her cloak about her face. From Salisbury she went to Charlotte, from Charlotte to Rock Hill. Her conduct created no end of comment but for the sake of herself as well as on account of the family, than which there is none better, all publicity through the press was suppressed.

Mr. Brady also had left Salisbury and the names of the two were connected. When Mr. Mault learned of the simultaneous leaving of the parties he began an investigation of his books and found that the concern was hopelessly involved. He accordingly requested that the business be wound up and Mr. J. M. Peeler was put in charge as trustee.
