THE LAST MEETING.

SALISBURY'S RETIRING ALDERMEN MET LAST NIGHT.

Important Business Comes Before the Retiring Board. The New Board Goes in Next Monday.

Salisbury's retiring mayor and board of aldermen held their last meeting last night and a great volume of business came before them. On next Monday the new mayor and aldermen will be sworn in and begin their official term of office. It will probably require two or more meetings during the week to dispose of the urgent business that will come before the new board.

The following business was transacted at the meeting last night:

A resolution was passed extending to Messrs. Burroughs and Meech a cordial invitation to come to Salisbury. These are the gentlemen who contemplate building a smelter in Salisbury.

Mr. M. F. Randle was given the contract to supply and put up street signs providing he would take the contract for 17c per sign.

The street committee reported that they had taken charge of La Fayette and had opened and partly graded said street.

Mr. Lowe, chairman of the cemetery committee, was authorized to make a contract for placing water in both the Lutheran and Oak Grove cemeteries.

An ordinance with reference to water closets in lots on the squares connecting with the mains was passed, providing closets not connected with the sewer should be thoroughly cleaned every two weeks.

Alderman Vanderford reported that he had a deed from Jno. S. Henderson and wife for all the streets on their property in the North ward beyond the W. N. C. R. R.

A resolution was passed authorizing the board of aldermen to employ the county surveyor to make an accurate survey of the city and a map of each ward, defining accurately the streets, lanes and alleys thereof, and also empowered the committee on streets to determine where streets and alleys should be opened, following as nearly as possible the original plan of the town of Salisbury. The resolution authorized the mayor to open Marsh street 50 feet wide from Main to Church street.

Ludwick & Black were granted wholesale license to sell malt liquor.

W. T. Rainey was not granted permission to erect a house on Main street as a street will be opened at the point where he wished to build.

MAY LOCATE SMELTER

HERE WITH THE PURPOSE OF LOCATING SMELTER TO TREAT ALL SOUTHERN ORES PLEASSED WITH SALISBURY.

Salisbury stands in a fair way to secure the location of a smelter within or near the incorporate limits.

Messrs. D. L. Barroughs and R. L. Meech, of New York, have within the past two weeks visited nearly all the important centers in the South with the view of locating an immense smelting plant. Yesterday they spent the afternoon looking over the Whitney Reduction Works and the Union and Gold Hill Mines. This morning they came to Salisbury and were shown over the city by Mayor-elect Boyden and Alderman T. H. Vanderford. After a ride over the city these gentlemen expressed themselves as delighted with Salisbury and stated that they considered this the most advantageous point at which they could locate their smelter. They left on the morning train for New York but will return to Salisbury very shortly.

These gentlemen propose to put in a big smelter here for the purpose of treating the ores of Virginia, North and South Carolina, Georgia and Alabama.

This is a big enterprise and the partiality which Messrs. Burroughs and Meech feel for our city is a matter of congratulation.

PACKING HOUSE IN SIGHT.

Mr. P. Patrick Wishes to Locate in Salisbury.

The following letter, which will be of profound interest to our citizens, has been received by the Sun, and all who can give information on the subject would improve Salisbury's prospects of securing a packing house by writing to the enquirer. The inquiry is as follows:

Cincinnati, O., May 13th, 1901.

The Sun Salisbury, N. C.—With a view to settlement in your state, the writer would be pleased to purchase good quality, I refer to improved stock, not scrubs.

I am unable to locate any packing houses in the south, and judge, therefore, that the prices paid must be regulated altogether by local consumption. If that is the case, the query rises, what can a man do with a carload of hogs, sheep or beef that he might raise? Local consumers would not buy in carload lots. If shipments are made to market centers, will you please state where they are, and put me in a way to get a report of the prices paid. Your consideration in this matter will be appreciated. Yours truly,

P. PATRICK, Station N.
