NEEDS CANNERIES.

The Charlotte News says:

North Carolina needs a number of canneries. The amount of vegetables and small fruits that are allowed to go to waste every year because of a lack of markets, would keep several canneries going.

The News is eminently correct in the statement that North Carolina needs a number of canneries. It is also nearly, if not quite, correct in saying that the vegetables and small fruits that are allowed to waste for lack of markets would keep several canneries going.

The SUN would like to see a cannery established at Salisbury. The surrounding country grows vegetables and fruits in abundance and the town is a splendid location for a factory. It is a wonder that some one does not take hold of this matter and turn it to good account.

Probably thousands of dollars worth of these products go to waste in the county each year, and many times the worth of the loss in Rowan is allowed to be wasted in the State. The people of North Carolina ought to be more enterprising and give more attention to such industries. We ask our citizens to give this consideration.

A cannery ought to pay handsomely in Salisbury.

A dollar spent with your home merchant is almost as good as a dollar saved.

England has already lost for her festivity in South Africa \$755,000,000, 15,000 men killed and 17,209 disabled. The "festivities" may continue for some time yet.

The recent census of India shows that Bengal, with an area of 203,473 square miles—less than the area of either Ontario or Quebec—has a population of 74,713,000.

Some time ago a man in Texas forged papers and got a fellow who was in for a life sentence pardoned out of the penitentiary. He got \$10,000 for the job. But when the forgery was discovered the judge turned the tables on him by ordering his arrest, trying him and sentencing him to serve out the unexpired term of the pardoned convict. Appeal was taken to the Supreme Court, but it sustained the legality of the sentence.

The Hague Arbitration Court declines to consider the Transvaal question because the Boer Republics are not recognized as sovereign States. In other words, because the Boers are not strong enough to compel attention to their demands for justice they are not to be permitted even to seek protection at the hands of nations professing to be promoters of peace in the world. The net result of the famous Peace Conference is a travesty of a court, a tribunal without function or jurisdiction.

A Long Hooty-moo.

The Atchison (Kan.) Globe recites a remarkable incident of wifely devotion. Jim Donald did not eat any dinner and his wife worried for fear he was sick. So in the afternoon she walked downtown carrying him some ice-cream and fanned him while he ate it. And the Globe says they have been married 14 years!

A Deep Mystery.

It is a mystery why women endure Backache, Headache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs. Phebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 73 years old, I now am able to do all my housework." It overcomes Constipation, improves Appetite, gives perfect health. Only 50c, at Theo. F. Kluttz & Co's drug store.

The Nine-Hour Demand Made on the Plant System.

Savannah, Ga., June 17.—A committee of union machinists waited on Superintendent of Motive Power Symonds, of the Plant System, at noon today, and notified him that they had been instructed by the union to demand a nine-hour day with pay for ten hours under the present schedule. There are about 150 men employed in the Plant System shops here. The men are working nine hours and getting nine hours' pay. They give the road until noon tomorrow to make answer to the demand. If the answer is not satisfactory all union men in the shops will go out.

Deaths of Men, Women and Children in the African Isolation Camp.

London, June 17.—Replying to question in the House of Commons today, Mr. Brodrik, the War Secretary, said there were 49,229 persons in the "concentration camps" of the Transvaal and Orange River Colony. The deaths in these camps for the month of May number 98 men and women and 318 children.

The announcement of the mortality was received with groans from the Irish members and cries of "Scandalous!" Mr. Brodrik added that the authorities were arranging for the release of the women and children who had friends receive them, but the government could not undertake to feed them in isolated positions.

The Strikers Talk.

Says the Greensboro Telegram: "The strike situation in Greensboro remains the same, the strikers are still hopeful and the railway men confident. The strikers report that in the Seaboard shop at Raleigh Friday afternoon, the 'scabs' who took the places of the striking machinists, themselves struck, their grievance being that their food was not of good enough quality. They were out two hours, and the railway company agreed to serve them better food."

A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following la grippe, and find it very efficacious." For sale by James Plummer druggist.

And now comes a Nebraska woman who declares that she, too, has never been kissed. This corroborates the assertion that there are some mighty ugly women out there.—Wilmington Star.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." For sale by James Plummer druggist.

A Washington scientist has discovered that the Irish potato contains a deadly poison which he calls "saloniine." And here we have been eating I. P.'s all our life without even suspecting it.—Wilmington Star.

FROM THE TELEGRAPH.

General Calles, the Filipino leader, has agreed to surrender.

A tornado in Hall county, Tenn., caused the death of two children; others were injured.

Ten persons were injured and considerable property destroyed by a cyclone in Beadle county, South Dakota.

A special from Berlin says Andries De Wet, the Boer leader, says he is going to the United States in the middle of July to lecture.

Mrs. P. H. Kennedy was convicted of the murder of her husband at Kansas City, Mo., and punishment fixed at ten years in the penitentiary.

Governor Aycock is quoted as having said: "I will say plainly that I will not convene the Legislature in extra session. Of course I will not convene it."

Twelve hundred men from the various departments were laid off at the plant of the Newport News Shipbuilding and Dry Dock Company yesterday and as many more will be laid off today, if the striking machinists do not return to work. The management will retain only enough men to handle repair work.

Northern Mistake About N. gro.

"The people of the North," declares the New York Times, "have at the most an imperfect understanding of the anxious problems which confront those who are honestly trying to do justice to the negro without doing injustice to the white man."

"It is a mistake to suppose, as many do, that the disposition of the Southern people is to wrong or oppress the negro. His best friends are those who most earnestly desire to see him eliminated from the political arena as a factor of importance. They realize, as those in the North cannot, that the best interests of the negro will be served by taking from him the prematurely conferred rights, which he misuses, and so extinguishing all cause for race conflict."

"That the vast majority of the negroes in the cotton States are not now qualified to vote intelligently and to use the dangerous power of the ballot in the management of State or local affairs is a fact which does not admit of intelligent discussion."

You may as well expect to run a steam engine without water as to find an active, energetic man with a torpid liver and you may know that his liver is torpid when he does not relish his food or feels dull and languid after eating, often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price, 25 cents. Samples free at James Plummer's drug store.

A Sprained Ankle Quickly Cared.

"At one time I suffered from a severe sprain of the ankle," says Geo. E. Cary, editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by James Plummer druggist.
