There is a pathos in the death of Mrs. Howard beyond that usually attending a death under ordinary circumstances. About four weeks ago her only son left Clarement to secure work at Gold Hill. A Cable Monopoly.

The business men of Salisbury are very much interested in the attempt of a certain cable company to establish a monopoly on the business between the United States and Cuba. It is quite likely that several letters will be written by our citizens on the subject to Secretary Root protesting against the creation of this monopoly.
