SALISBURY, N. C., JULY 18, 1901.

A RESPECTABLE FULLNESS.

The Greensboro Record gets off the following good one on the editors, who attended the editorial association held there last week in the way of advertisement:

Greensboro has had considerable advertising from the brethren of the press since going home. The fact that they are able to pen a few lines shows what manner of place Greensboro is. They all went home "full" but it was the right kind of fullness.

No one was present at the editors' meeting from this office, hence the SUN cannot speak from personal observation either of Greensboro or of the "fullness" of the editors. Greensboro, however, is a thriving, bustling city and the editors write like they were "treated" royally, if not with champagne and other queenly draughts. The citizens of Greensboro did themselves proud in entertaining the editors and the Record man kept tab with them and published the record. It was a piece of well turned pleasantry and will do doubt be enjoyed by the boys even if they were "full" part of the time.

Over 45,700 claims for pensions on account of the war with Spain were filed with the Pension Commissioner last year.

The Cleveland (Ohio) Tax Equalization Board has increased the assessable value of Senator Hanna's street car lines from \$595,000 to \$6,000,000.

In hot weather, don't drink. The statement is made that 101 one hundred and seven men who were taken to the hospital in one day in New York last week because they had been overcome by the heat, one hundred were drinkers, and most of the hundred were under the influence of liquor when they became overheated.

Willie Anderson, an Illinois youth, is breaking all records. After falling from four and five story houses too many times to mention, lightning took a whack at him along with twelve other boys the other day. He was able to play ball the next day, while his twelve companions were being borne to the cemetery.

Some French scientists have settled the question as to how people got on this hemisphere. They say that about a hundred and sixty thousand years ago there was land communication where Beringe Straits are now and that all people who were hunting for more room and better quarters had to do was to walk over.

According to figures compiled by The Pittsburg Dispatch the steel strike is daily costing the three companies involved \$210,000 and the workmen \$156,000. It is estimated that, in the daily loss of nearly 23,000 boxes of tin plate a day, the American Tin Plate Company is daily losing over \$90,000, while the loss to the canning companies, unable to secure their material, is enormous in addition.

The close of the second day of the stationary firemen's strike in Pennsylvania finds fully 33,000 miners idle in the Wyoming district of the anthracite coal region, which extends from Duryea to Nanticoke. The total number of men idle now in the whole anthracite region is estimated at 65,000. There are 40,000 mine workers in the Lackawanna region, but they are not all out. If the strike extends to the Hazleton, Schuylkill and Shamokin region 130,000 men may be idle before long.

It Giroules the G'obs. The fame of Bucklen's Arnica Salve, as the best in the world, extends round the earth. It's the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Boils, Ulcers, Felons, Aches, Pains and all Skin Eruptions. Only infallible Pile cure. 25c a box at Theo. F. Kluttz & Co's.

Can't Kill 'Em All.

The Baltimore News says: "The special Providence which watches over fools, drunken men and children continues to hold Carlisle D. Graham in its protecting care, that persevering individual having made his fifth successful descent of Niagara rapids in a barrel yesterday. Some friend should relate to him, while there is yet time, the fable about the pitcher which went once too often to the well. It seems most peculiarly applicable to his case."

Not on your life. Let him go on. The world has never suffered on account of the loss of such a noble man.—Raleigh Post.

Jalousy Among Negroes.

It is announced that the wife of Booker T. Washington was defeated for the presidency of the National Association of Colored Women, at Buffalo last week. This need occasion no surprise. It takes a whole lot of work to get a negro to be anything else but a negro. In other words, there is jealousy among them and when one begins to rise in the scale, the others want to pull him down. This is not true of all of them, of course, but as a race it cannot truthfully be denied.—Greensboro Record.

Masqueraded as a Woman.

Little Rock, Ark., July 17.—A great sensation has been created at Kings River, Madison county, Ark., by the arrest of "Miss Jennie Sears," a popular young school teacher, who has been employed there for two years. "Miss Jennie" has turned out to be a man in disguise.

Sears, it is alleged, committed a murder in Texas seven years ago and since then has been posing as a woman. He made a beautiful girl, and the people of said old Madison county were almost overwhelmed by the revelation. Several of the young men of the county had entered into strong rivalry on his account.

When arrested he had \$2,000 in cash on his person. Sears will be taken to Texas at once by the officers making the arrest.

At The Seashore

First Shirtwaist Girl—So you are going rowing with Mr. Floorwalker? His trick is to threaten to rock the boat unless you give him a kiss.

Second Shirtwaist Girl (naively)—Well, mother said she wasn't afraid to let me go with him, as all the girls say he never rocks the boat.—Brooklyn Eagle.

Our chief concern should be not to obtain higher places but fill well the places we already hold. Better to fill an humble position well than to occupy one above ability.

Fifteen negroes are reported to have been killed in a fight with Mexicans in New Mexico.

A special to The Atlanta Journal from Birmingham, Ala., says: Six hundred Galloway and Chickasaw coal miners are on strike at the Charbon Hill coal fields.

During a severe wind and electrical storm yesterday evening the Methodist church at Hillsboro, Ala., was struck by lightning and burned to the ground.

Topeka, Kans., July 17.—The rains that have fallen in Kansas last night and today have practically assured a corn yield of at least 50,000,000 bushels and the yield may even be greater.

In attempting to start a fire with coal oil at Indianapolis, Roy Jones, aged 12, and his 4 year-old brother were burned to death. Their mother was frightfully burned while trying to rescue the children.

Milwaukee, July 17.—Unable to hold out any longer on account of the scarcity of funds, fifty machinists voluntarily went back to work at the works of the Allis-Chalmers Company yesterday, thus virtually putting an end to the strike in Milwaukee. It is expected today will see a general return to work of the men in every shop in the city.

"I wish to truthfully state to you and the readers of these few lines that your Kodol Dyspepsia Cure is without question, the best and only cure for dyspepsia that I have ever come in contact with and I have used many other preparations. John Beam, West Middlesex, Pa. No preparation equals Kodol Dyspepsia Cure as it contains all the natural digestants. It will digest all kinds of food and can't help but do you good. Jas. Plummer.

Strikes a Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H., "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run-down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Theo. F. Kluttz & Co.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then, will always keep your bowels in perfect order. They never gripe but promote an easy gentle action. James Plummer.

The Gardner Nasal Respirator

A new scientific device by which Catarrh, Asthma, Hay Fever and all Throat and Bronchial Troubles may be treated in a manner sanctioned by nature. BUCKLE-TAR, a new inhalant, is not a "patent medicine" but an approved combination of nature's healing and soothing elements—the health-giving products of the forest trees.

With this instrument, and this remedy, the afflicted, instead of assuaging the stomach with death-dealing drugs, may breathe by the hour the healing and purifying exhalations of the pine, the eucalyptus, North Carolina Tar, etc., and get well.
