## MR. NEWSOM'S PIPE.

He Positives About the Use of the Indian Weed.

Mr. A. U. Newsom, Capt. W. G. Crutcher and Officer George Eagie formed an interesting trio at the depot last night. Mr. Newsom has a clay pipe that Officer Eagie claims was imported from Germany in 1882 and the conversation settled upon that pipe. Mr. Newsom grew reminiscent and finally drifted into poetry. Said he:

"Tobacco is an Indian weed, and from the devil doth proceed, It picks the pocket, stains the clothes, And makes a chimney of the nose."

Mr. Newsom was urged by Mr. T. H. Vanderford, Sr., who was standing by, to relate a story in which this same pipe figured when he went to Richmond.

"I was going to Richmond one time," said Mr. Newsom, in relating the incident, "and sat in the far end of the smoker puffing away on my pipe. Presently a well dressed man who had caught the odor, came forward and gave me a cigar. I stopped smoking until he left the car, and I opened up again. A drummer suffered it until he had a coughing spell and he, too, gave me a cigar. To make a long story short, I worked that trick on every newcomer in the car and when I got to Richmond I had fourteen cigars in my pocket."

At 7 o'clock last evening Miss Edna Coe, of this city, and Mr. Roy Erkman, of Pittsburg, Pa., were married in the parlor at Mr. C. Froneberger's home on Cecil street, Rev. M. E. Parrish officiating.

The wedding was a quiet affair, only a few friends having been apprised of the event. Both the bride and groom were attired in traveling dress and the simple but beautiful Baptist ceremony was impressively used in uniting them.

Immediately after the nuptials the couple were driven to the depot and left on the Western train for Knoxville.

The wedding is the result of a love affair that originated in Pittsburg and the ardor of which intervening miles could not diminish.

Miss Coe came to Salisbury about two months ago as assistant milliner at the Fair. Before leaving Pittsburg she gave her heart to Mr. Erkman and last week he came to Salisbury to redeem the pledges.

## MEETING LAST NIGHT.

THE CHAMBER OF COMMERCE HAS ANOTHER MEETING.

Secretary Frost is Preparing to Issue a Hand Book of Salisbury to Send out.

Notwithstanding the inadvertent of a notice announcing a meeting of the Chamber of Commerce last night, there were present quite a number of members, and the meeting was a decided success.

The proposition, which Mr. Frost is preparing for publication, was read and various amendments and suggestions received.

The entire number of communications which have been received by this body, and which are very numerous, were presented to the board. Communications or every description are being daily received and are being given every possible attention.

The financial condition of the Board was reported and found to be very favorable, as the Salisbury Gas & Electric Light Company have not only agreed to relieve the Chamber of one half of the stenographer's salary by giving him employment a portion of his time in their office, but have also agreed to take one half of the expense of the type-writing machine which was purchased by the Board, thus providing a greater margin for the advertising of Salisbury.

The meetings will continue to be held from time to time and the Chamber hopes to receive every possible aid and suggestion from the citizens.
