NO. 39

HIGHWAY ROBBERY.

MR. CHOCKLEY MICHAEL ROBBED AT SPENCER.

Two Tramps Approached Him and Seized \$274. A Lexington Man Touch'd by Clumsy Robbers.

Mr. Chockley Michael, a well to do farmer of Davidson county, who lives near Lexington, was robbed of \$274 Saturday in the railroad car near Spencer. Mr. Michael came to Spencer for the purpose of buying a lot and left Lexington with \$275 in cash. When he reached the car referred to two men, who appeared to be tramps approached him and one of them asked him for a match. Mr. Michael reached in his pocket for the match and the second of the two put his hand in his pocket. Mr. Michael detected him but not before the tramp had the roll of bills. He had no weapon with which to defend himself and the men escaped with his money. Mr. Michael did not report the matter at once to the officers and the probabilities are that the tramps have escaped.

MISS EDWARDS DEAD.

Daughter of Mr. Jack Edwards Dies of Consumption.

THE TRUST'S WORK.

Pack of Turkish Cigarettes and Chewing Gum for 5 Cents.

The American Tobacco Company never lets up on its fight on competitors. Recently independent concerns have made a big run in Salisbury in the cigarette business and have nearly crowded out the goods of the trust. Now the trust comes along with a proposition that is bound to catch every consumer of the weed. The Minaret Turkish cigarette containing 10 to the pack is sold for 5 cents and a package of pepsin gum is presented to the purchaser of every package of these cigarettes. As a matter of course the smoker prefers the Turkish goods and the sale of the other brands will decline. When their business has been destroyed the trust will probably raise the price of these goods to 10 cents.

Lieutenant Henderson Leaves.

Lieutenant Richard Henderson, who has been here for the past week, left last night for New York to sail with his ship, the Illinois. The Illinois will leave New York about May 1st and will probably go to Gibraltar. Mr. Henderson's stay on this trip is rather indefinite and it will probably be a year or more before he returns to Salisbury.

MR. MURPHY'S POPULARITY.

The Waco People Regret to Lose Him.

The Waco, Texas, Weekly Tribune says: Clarence W. Murphy, late district passenger agent of the Sunset Central lines, has bade Waco friends goodbye and gone. Private business interests called him back to his old home at Salisbury, N. C., where he was raised, consequently he tendered his resignation, which we happen to know was accepted regretfully by the authorities of the system, for Mr. Murphy was an exceptionally popular and efficient passenger man. The people of Waco heard the news of his departure with real regret. His affability and promptness in all business matters, no less than his social qualities had won for him friends on every hand here—and if we may be permitted to mention her name in an article of this character, his gracious and accomplished better half had the high esteem of Waco social circles. The best wishes of all here go with the estimable couple. Messrs Newsom, Anderson and Murphy, late district agents here in the order named, were a trio who exemplified the good judgment of Mr. S. F. B. Morse (Passenger Traffic Manager) in sending them here. Just as we got knowing each one well he left—in each case though, and we are glad of it, to go to better things—Messrs Newsom and Anderson receiving deserved promotion in the railway service, and Mr. Murphy goes home to a profitable business.

SUMMER SCHOOL HERE

FOUR WEEKS' SUMMER SCHOOL TO BE HELD IN SALISBURY.

Gov Aycock and State Superintendent Joyner May be Here to Deliver Addresses on Educational Topics.

The county board of education yesterday arranged to hold a four weeks' summer school for Rowan county public school teachers. The school will be held under the direction of County Superintendent of Schools, R. G. Kizer, and Supt. C. L. Coon, of the Salisbury City Schools, assisted by a number of the teachers of the city schools.

It was determined to hold the school during the last week in July and the first three weeks of August. This school will take the place of the usual county institute for white teachers.

It is the purpose of the school to give daily instruction in the common school studies—reading, writing, arithmetic, geography, history, english, drawing, elementary science—as well as in methods. The dominant idea will be to give teachers an opportunity to broaden their knowledge of the subjects taught in the public schools and also to acquaint them with the best methods of modern educational practice. Incidentally such subjects as the organization of the ungraded school, the rural library, and better school houses will be considered.

There will be later announcements, giving in detail the plan of the school and the names of the teachers. Supt. Coon, of the city schools, will arrange a practice school, to be conducted by the graded school teachers, so that the county teachers may observe the actual everyday working programme of a well organized school.

This plan of helping the county teachers to do better work next year is the idea of Supt. Coon. The teachers of the city schools have enthusiastically endorsed the idea and many of them will render active assistance. These teachers will also do the practical school work, in which school all children who may desire can receive one month's instruction. This will be especially helpful to such children of the city as have been sick during the year or who have for any reason lost time from their studies. This plan will enable them to reach a higher class. It will also furnish extra instruction for backward children and small children who may intend to enter school next September. The hours will not be as long as during the regular school term.

It is hoped to have Gov. Aycock, State Supt. Joyner, and other prominent educators here during the progress of the school. State Supt. Joyner, to whom Supt. Coon submitted the plans of this school, cordially endorsed the idea and will do what he can to make the school here a great success.

The Atlanta Journal says of the pitching of Worth Murphy, of this city, who is attending The School of Technology in Atlanta: Murphy, the young pitcher that Coach Nicklin discovered, made his first appearance in the box yesterday afternoon against the professionals and his work was far from bad. It was his first game and he had little opportunity to get in shape, but the professionals did not frighten him and the students are highly pleased—with what he did. He will be in fine shape by Saturday, and if necessary will assist Lucas in the box.

The free delivery routes in this county will practically annihilate about a half dozen offices on account of the removal of business from these offices to the terminus of the route. Constantinople, April 16.—News has been received here of the massacre by Turks and Kurds of three hundred Christians at Diabokir, Kurdestan. A band of roving Armenians recently appeared near the town and the authorities sent Abraham Pasha, head of the Kurdish regulars, to disperse them. The regulars pursued the Armenians some distance, attacking Armenian villages en route. Finally Abraham and his party were forced back and just as they reached the town, seeking reinforcements, the Armenians opened fire and heavy fighting lasted for some time. Then the Kurds engaged at not being able to force the Armenians back turned into the Christian quarter of the town and killed unmercifully. Many Turks and Kurds were also killed.
