**Where the Battle is to be Fought.**  
We have earnestly opposed Cleveland in the past, but in politics it is the present and the future that count. If the Democratic party is to survive it must begin to win presidential elections. Would it be better to win with Cleveland or lose with some figure head whom Bryan may set up? What say the rock-ribbed Democracy of the Middle West? If the East, where the real battle ground will be, demand him for the leader, shall we fall in line?—Cincinnati Inquirer.

**Too Ambitious.**  
Some month ago Bishop Smith, of the Southern Methodist Church, located in Charlotte. The Charlotte folks were highly pleased to have a real live bishop "in their midst," and their surprise and disappointment can be imagined when Bishop Smith left Charlotte a few days ago and it was announced that he would hereafter make his home in Norfolk, Va. Behind this is an interesting story. The Charlotte papers say that two well-known Methodist ministers in this State are consumed with a desire to get a job as bishop. These preachers and their friends, therefore, were not pleased with Bishop Smith's locating in North Carolina—he is not a North Carolinian. They thought the fact that the State had a resident bishop would operate to defeat the ambition of the preachers aforesaid. Bishop Smith found out the situation and departed rather than be a disturbing element. But it is probable that he would be bishops and their friends have overreached themselves and this incident may destroy whatever chance of promotion they may have had.—Statesville Landmark.

**A Hole in the Ocean.**  
A very deep hole in the bed of the Pacific Ocean has been discovered by the United States Pacific Cable Company's survey steamer between Guam and Midway. The lead sank to a depth of over five miles, which will make it necessary for the cable to be taken around the great depression.

There is an ostrich farm in Asheville where an attempt is being made to cultivate the ostrich. The Gazette says in connection with this will be established a zoological garden of North Carolina animals. It is proposed to obtain live specimens of every wild animal in the State and also specimens of some of the lowland birds.

**TO-LO-TAN CURES CATARRH.**  
Some fathers would consider thirteen children unlucky.

**Driven to Desperation.**  
Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, wounds, ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c, at all drug stores.

**The Value of Petitions.**  
In the pardon of Murrow, Governor Aycock says there was petition of three thousand signers presented to him. A wag here once wrote a petition asking that Mr. Jesse H. Lindsay, one of the most honored citizens of the State, be hanged, and twenty-six men signed it before its contents were known. It is safe to say that it took six months to get these 3,000 signers to ask for the pardon of Murrow. The Record undertakes to say that it can get 3,000 signers to a petition in six weeks condemning Governor Aycock's action in the matter, and what is more, the list will contain the best element of the county, with not a non resident on it.—Greensboro Record.

**TO-LO-TAN CURES CATARRH.**

**BOTTLED BLISS**

# The Bleached Bones of 10,000

deluded and lost lie scattered over the hot scorching sands of king credits' desert wastes. Right there is the cemetery where lie ambitions' jeweled babes. It is the common end of the haughty rich and the lowly poor. The bloated bondholder and the heaving struggling ranks of poverty, the conqueror and the conquered go hand in hand marching to defeat in its depths of ruin.

This only goes to show that spot cash when you sell, spot cash when you buy, is the only way to get value received for the life blood that falls from your brow in big cold sweat drops. 'Tis the almighty dollar that presses values to the lowest notch. 'Tis the weight of dollars only that saves you from the sheriff's lock and key and your family from despair. The biggest stock you ever saw bought on credit is like a last year's bird nest, a poor thing indeed. Spot cash is the lever we use to press down values and how well we do it is attested by our figures. We underbuy; we undersell. You have tolled and waited; at last your opportunity is here and you have the judgment to know it. See the argument below against which no element can prevail.

We sell semi-porcelain dinner and toilet ware at less than others offer the common goods.
