## THE WHITES GO HOME.

THEY LEFT SATURDAY NIGHT.

Judge Brown's Order Filed With Clerk J. Frank McCubbins.

Messrs. Thomas and Chalmers White, of Concord, who were released from custody on bail by order of Judge George H. Brown, jr., Saturday afternoon, left for Concord Saturday evening at 8:30 o'clock and were met at their homes by a tremendous crowd. Both will resume their former business.

The signers of the two bonds which were for \$25,000 each were Messrs. W. R. Odell, J. P. Allison, P. P. Allison, P. B. Fetzer, A. Jones Yorke, L. T. Harrell and Drs. Houston and Burleson. Judge Brown's written decision, which was filed with Clerk of the Court J. Frank McCubbins, was as follows: "State vs. Chalmers and Thos. White—The two prisoners were brought before me, acting as a committing magistrate and upon a writ of habeas corpus, charged with the murder of one Russell Sherrill. The evidence was taken in full. The prisoners have not as yet been indicted by a grand jury or committed by a justice of the peace, but surrendered themselves to the sheriff of Rowan county. I have carefully considered all the evidence, and am of the opinion that the defendants must be held to await the action of the grand jury at next term of Superior Court. In view of the conflict in the evidence upon the question of premeditation and deliberation (a necessary element in murder in the first degree), and in special view of the evidence of several medical experts as to the probable serious effect of close confinement in county jail upon the health of these defendants, I am of opinion that the ends of justice will be fully met by admitting the defendants to bail.

"Imprisonment before conviction or indictment is justifiable when necessary to secure the presence of the accused at trial. I am fully convinced that a sufficient bond will accomplish that beyond doubt as to these defendants. It is ordered that each defendant give bond in twenty five thousand dollars for his appearance at the November term of Rowan Superior Court with usual conditions. Each bond must have two sureties at least, and to be approved by the clerk of the Rowan court. The defendants are committed to jail until this order is complied with."

"G. H. BROWN, JR., Judge, "Sept. 26, 1903."

## BAPTIZED BOTH RACES.

White and Colored People Baptized at the Same Time.

The Seventh Day Adventists introduced an innovation at Town Creek Saturday when they baptized three white and five colored people at the same time. Later, female members of the Adventist organization ministered to the comfort of the colored candidates by wiping their heads and faces. A large number of spectators who witnessed this disregard for racial distinction left in disgust.

## TWO SPENCER MEN KILLED.

MEN KILLED.

### 9 PERISH IN WRECK.

#### FAST MAIL THROUGH A TRESTLE

Conductor Thomas Blair and Fireman A. G. Clapp, Both of Spencer, Are Among the Dead. The Engineer Said to Have Been Running the Train at Too Fast Speed When It Struck a Trestle Near Danville. A Delay Caused.

The Southern Railway's fast mail train No. 97 from New York to New Orleans, was almost completely demolished yesterday afternoon and nine were killed, among them Conductor Thomas Blair and Fireman A. G. Clapp, of Spencer. The wreck occurred about one-half mile beyond Danville and on the trestle near the Riverside mill. The track strikes the trestle, which is over Still House Creek, around a sharp curve which is said to be at a very sharp angle. Ordinarily trains run at a slow rate of speed around this curve and over the trestle but the engineer on yesterday's fast mail was a new man on this division and it is said that he whizzed around the curve at the rate of from 60 to 90 miles an hour. Various theories are advanced as to the cause of the train leaving the track some believing that it left the track and hit the trestle, going down a distance of over 70 feet into the waters of the creek. Engine, cars and 100 feet of the trestle structure went down together and when the crash came the cars were torn into splinters. It all happened in an instant and none of the train crew had time to jump.

THE TRAIN'S LOAD.  
No. 97 carries no passenger coaches, only mail and express cars and consequently, with but four exceptions, none but employees were aboard.

NINE KILLED.  
Those known to have been killed were:

J. L. Thompson, railway mail clerk, of Washington.  
W. S. Chambers, railway mail clerk, Midland, Va.  
D. P. Flory, railway mail clerk, of Nokesville, Va.  
P. M. Argelwright, railway mail clerk, of Mt. Clinton, Va.  
J. A. Broady, engineer, of Placerville, Va.  
J. T. Blair, conductor, of Spencer, N. C.  
A. G. Clapp, of Spencer.  
Flagman S. J. Moody, of Raleigh, N. C.  
A 12-year-old son of J. L. Thompson.

A report from Danville at noon stated that two tramps were also killed in the wreck. Nine were more or less seriously injured. The trestle was repaired at 9 o'clock and the Southbound trains were running by regular way.

CAPT. TOM BLAIR.  
The keenest grief is felt among his many Salisbury and Spencer friends over the death of Capt. Tom Blair, of Spencer, the unfortunate conductor who met his death in the wreck. About five years ago he lost his position on the road on account of a mistake in reading orders and was only restored to duty twelve months four months ago. He was a native of Asheboro, Randolph county, and was a careful railroader. During the interval of his dismissal and re-employment by the Southern he was mayor of East Spencer and was engaged in business there. He was generally liked and his popularity was not confined to railroad men. He is survived by a wife and four children, the youngest only 20 days old, who are at Spencer. Capt. Blair's remains arrived at Spencer today but no arrangements have been made for the funeral.

For Sale! A team of good young mules, new wagon and harness. J. H. Mahaley, Spencer, N. C.

The above cut is a correct representation of the State Capitol building as it will appear when remodeled. The last Legislature passed a bill appointing a commission composed of Gov. Aycock, Chief Justice Clark, John C. Drewry, Judge Graham and Senator Norris to consider plans for additions and alterations to the capitol building, and to report to the next General Assembly.

ments have been made for the funeral. Fireman Clapp was a native of Whitsett, North Carolina, but had been running from Spencer to Monroe for the past two years. He was unmarried.

CAUSE OF WRECK.  
It was generally believed that the wreck was due to the fast rate of speed at which Engineer Broady was running. Mr. Broady had only been on this division a few weeks and was not regularly on the fast mail run, this being his first trip on this train. At the trestle the curve angle is 60 degrees and a board is displayed designating the speed limit of passenger freights to 15. Mr. Broady probably was probably inadvertent to the danger of the point and did not check his speed.

A SUPPLIED CREW.  
Had the crew that was due to bring in No. 97 made a regular run Engineer Gary and Conductor J. M. Small would have been in charge. No. 87 was run in two sections yesterday morning, however, they were called out on the second section. Capt. Blair left his home at Spencer on a light engine at 3 o'clock yesterday morning, the design of engine used on No. 97 being unavailable at Monroe.

[SPECIAL TO SUN]  
Washington, D. C., Sept. 28.— Vice President Finly, of the Southern Railway on being interviewed this morning regarding the accident to train No. 97 in the vicinity of Danville yesterday said: "The train consisted of two postal cars, one express car, one baggage car for the storage of mail. The trestle is very little damaged, as the rails jumped the track about forty feet north of the trestle on sound track, good line, surface and proper gauge. The trestle was in first class condition and was so well braced that the engine and train falling on the outside of this curve knocked down the outside posts and left the others standing. Eye witnesses report that the train was approaching the trestle at rate of speed of thirty to thirty-five miles per hour. The loss of life and the personal injury are very much regretted. The cause of the accident is being investigated. The trestle was promptly repaired and the first train passing was at 9 o'clock this morning.

**BONDS TO BE SOLD.**  
WILL BE SOLD OCTOBER 29.  
The Bonds For Street Purposes to be Sold Next Month.

Advertisements have been placed in several financial papers announcing the sale of the \$90,000 bond issue recently voted by this city for street purposes, on October 29th. Owing to the stringency of the money market it has been deemed advisable to defer the sale of the bonds as long as possible but in view of the approaching winter delay did not seem expedient. It is believed the issue will certainly bring as much as \$110.

**DR. HALL'S ADDRESS.**  
Rev. Dr. Hall Spoke on "John and Demijohn" Yesterday Afternoon.

The Rev. Dr. Wm. Edwin Hall, the well known lecturer of New York, delivered an address at the Tabernacle yesterday afternoon under the auspices of the Anti-Saloon League. About 1800 people heard him.  
Dr. Hall is a genius in the way of an entertainer and a teacher. He held the closest attention of his hearers for an hour and a half. Sometimes he had his hearers laughing at his humor and witticisms.  
His theme was "John and the Demijohn." He argued that one should be saved and the other smashed. Moral suasion, he said, would not do but sentiment crystallized into law was the only thing that would accomplish the desired end.  
Last night Dr. Hall preached a fine sermon at the First Methodist church. Tonight he will deliver his humorous lecture on the "Fool Killer" at the tabernacle. This is one of his finest lectures and it has made him famous as a humorist and wit all over the country.

**THE SUN IN CONCORD.**  
An Extra Edition Sent Down. People Eagerly Bought Them.

Realizing that the people of Concord were anxious for a full account of the hearing of the White brothers here Saturday Mr. F. B. Irvin, foreman of the Sun, ordered that an extra edition be run off in addition to the regular edition and the large number of extras which were disposed of in Salisbury.  
Editor Hurley, of the Concord Tribune, was called up over the telephone by the Sun with a request for an account of the hearing would be on sale on the streets of Concord by 9 o'clock. Mr. Irvin left on 29, the same train which carried the Whites and their friends, with the extra edition. The train had hardly stopped at the Concord depot, where a large crowd had gathered to welcome their friends, before there were cries for "the Salisbury paper." People crowded around the bus to purchase papers, and as soon as the newspaper man reached the main street he was besieged by crowds hungry for the news. Mr. Irvin stood in front of the Cannon & Fetzer Department Store, where Chalmers White is employed, and disposed of every copy of the Sun in less than ten minutes, and still people begged for papers. Many read their copy and resold it, and it was again resold. Copies were pasted on the store windows as bulletins and crowds, unable to purchase a paper, gathered around these. A telephone message was received yesterday to send down another batch of extras.
