SALISBURY, N. C., June 21, 1904.

Industrial North Carolina.

The industrial notes which we print each week show that North Carolina is in the forefront of the Southern States. In fact, there is no Southern State which reports the starting of so many new enterprises of various sorts. We hope to see this continue, and by all means let us utilize our own people to operate these new factories and other enterprises, and not turn them over to foreign help and foreign capital. The condition of North Carolina banks shows that we possess an abundance of capital of our own to carry on all the business which may be started in the State. Then, too, our colleges and schools are running over with patronage, young men and young ladies who are fitting themselves for usefulness in life. These ought to be encouraged and helped in every way possible. Our State ought to offer an open door to every young man who desires to work and become useful. Nobody ought to be idle, or seek the army for employment. We have an abundance of railroads, farms, mills and mines, where every able-bodied North Carolina man can work and obtain good wages.—Raleigh Times.

Honesty and Vacations.

Russell Sage has pronounced against vacations. But the Tradesmen's National Bank of New Haven, Conn., has declared vacations necessary to honest service on the part of employees. Douglas Smith, a former partner of the bank, was long regarded as a model official. He took no vacations; he never went out to dinner till after the bank closed for the day. He was always at the bank just before it opened. But in spite of seeming diligence and assiduity he became a defaulter. Getting to the bank early he was enabled to keep a close eye on the large deposit books when presented. From the accounts in these books he stole regularly for two years and more. Absence at any time from his place at the bank might have put fellow-officials on his crookedness.

Smith's irregularities set the bank directors thinking. Their thinking has taken the form of rules laid down for all their employees. First, all clerks shall have a two weeks' vacation every summer; second, every clerk shall be obliged to go to dinner every day; third any bookkeeper who allows any other bank official to write up a depositor's book will be discharged for not doing the work himself, and the bank official who does the work will go to—Lonsville Herald.

Inspiration of "Dixie"

"Dixie" is a great tune, and has wonderful inspiration. More than forty years ago men marched to their death under its thrilling strains. In these days of peace it has lost none of its power. At Americus, Ga., Thursday night, it quelled a panic in a packed theatre and saved the lives of people who doubt would have been crushed to death. The familiar air certainly has wonderful power to stir and to quiet.—Durham Sun.

New RESPONSIBILITIES!

It is necessary that the best possible provision be made for the steady accumulation of ones gains. Our savings department offer a splendid safeguard for the growth of your resources.

7,000 RUSSIAN CASUALTIES.
Awful Slaughter at Vafangow. 70,000 Japanese Moving Northward.
New Chwang, June 20, 6 a. m.—A Russian officer who was wounded in the battle at Vafangow, (Telissu) told an Associated Press correspondent that the losses on both sides were severe. He placed the Russian casualties at least 7,000. He says no soldiers in the world could withstand the Japanese as they have been fighting lately. Their artillery fire, he claims, is marvelously effective. The Russians fought stubbornly but were unable to withstand the enemy's dashing persistency. Several hundred wounded Russians have been sent north owing to a lack of hospitals and surgeons. All the available transportation has to be used for supplies at the expense of the sick and wounded. The Japanese buried most of the Russian dead after the battle.

It is estimated on information obtainable that the Japanese force moving northward is 70,000 strong, with 90,000 men in the aggregate engaged in the operations at Port Arthur. Several Japanese spies have recently been captured a few miles south of New Chwang. The Russians are becoming more vigilant and are watching newspaper messages closely.

JAPANESE BATTALION ANNIHILATED.
Si Mu Chen, Manchuria, June 20.—The Japanese artillery at the battle of Vafangow included heavy siege guns using lyddite and sweeping the whole battlefield. The Japanese suffered tremendous losses in turning the Russian right. One battalion of the Twenty-sixth Regiment was annihilated. The hospital at Vafangow was repeatedly struck by the enemy's shells, which mutilated the Russian wounded.

The Price of Meat.
Again the price of meat has gone beyond the reach of the poor, and even of the moderately well-to-do, so far as the prime qualities are concerned.

Of course there are plausible explanations. Cattle are scarce, etc., etc. And the Beef Trust is wholly innocent. It's the law of supply and demand that is doing the devilment!

Now, the law of supply and demand, where it has no large area for operation in this country, works gradually. It doesn't do things all in a minute. And the price of good beef jumped five cents a pound at one clip!

The contention that this was a natural rise is stuff and nonsense. It was an advance evidently agreed upon by the half-dozen concerns that make up the Beef Trust and control the American market.

And every additional cent put upon a pound of meat is blood money. It means lank stomachs for the poor and bitter economies for millions of people.

In the meantime ample anti-trust laws slumber peacefully in the Federal statute books. The Strenuous needs boodle for his campaign.—Norfolk Virginia Pilot.

Two Burned to Death.

Cleveland, O., June 20.—Two persons were burned to death and six others injured in a fire that partially destroyed a saloon and boarding house at No. 428 Columbus street today.

"USE HYOMEI AT OUR RISK."

Theo. F. Klutz & Co. Will Pay For HYOMEI Treatment if It Fails to Cure Catarrh.
So pronounced has been the relief and cures following the use of Hyomei in catarrhal troubles, that in nearly every city and village all over this country the leading druggists have advertised that they would pay for Hyomei themselves if it did not effect a cure. In this city, Theo. F. Klutz & Co. has publicly announced in the Sun and other papers, "Use Hyomei at our risk." The result has been an enormous demand for the Hyomei outfits, and many unusual cures have been made.

The fact that Hyomei is so convenient and complete and that it cures by merely breathing and not by drugging the stomach, no doubt has had considerable influence in creating confidence in the treatment. When Hyomei is used, every particle of air that enters the head and throat and goes to the lungs, is charged with healing balsams that kill the germs of catarrh and soothe and heal the irritated mucous membrane.
Theo. F. Klutz & Co. urge all who are subject to catarrh or catarrhal colds to get a Hyomei outfit from them and use it at their risk. No matter how skeptical you may be, you cannot dispute the fairness of this offer. Use Hyomei for a month. If, at the end of thirty days, you can say to Theo. F. Klutz & Co., "It did not help," they will refund your money without question or argument. This is their way of removing all doubts as to the power of Hyomei to cure catarrhal troubles. They believe it the strongest evidence that can be offered to the curative powers of Hyomei.

93 Additional Bodies Recovered

New York, June 20.—The list of those who perished on the General Slocum is growing at alarming rate. Bodies came to the surface this afternoon off the shores of North Brother Island singly and in groups of twos and threes until at dusk 93 additional had been recovered. Every passing steamer seemed to churn up the water to such a degree that with its wash one or more bodies would be swept onto the beach. Between the hours of 3 and 6 in the afternoon, 45 bodies, some of them badly mutilated, were taken ashore by the searching parties.

The fact that the Southern Railway finds it necessary to put back on its line trains Nos 29 and 30 between Washington and Charlotte shows the great increase in traffic between the North and South. The double tracking of the Southern was not undertaken a bit ahead of its needs.—Charlotte Observer.

When a woman hasn't anything else to do she rips up something useful and makes something ornamental.

Raw onions are said to cure rheumatism, but no doubt your friends would prefer that you continue to have rheumatism.

That Throbbing Headache Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by all druggists.

Bert Brown, aged 30, of Joplin, Mo., and Lil Allen, aged 13, were killed, and seven others injured, by a collapse of a building at Kansas City yesterday.

Worst of All Experiences. Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by all druggists.

CAUSE OF STRIKES.

Majority of Labor Wars Due to Mismanagement of Employers.
E. F. Du Brul of Cincinnati, commissioner of the National Metal Trades Association, who said at the recent meeting of the National Manufacturers' association that 80 per cent of labor troubles were either directly or indirectly caused by the employer, thus explains his statement:
"I said in my experience with strikes and labor troubles 80 per cent of those that had come under my observation were directly or indirectly the fault of the employer. Citing Mr. Davenport's illustration that he gave me just a few minutes ago of the bakers' strike in Boston, I should say it has been largely the fault of the master bakers of that city. They had an organization there that had been pathetic and indifferent. That was one of their troubles."
"In other instances that have come under my notice there has been a foreman that has not done right. He has mistreated his men, and so on. The employer is responsible for that foreman. I know of cases of strikes which in their last analysis are demands for better management of the institutions. It is a well known fact that the better managed an institution is the less liability there is to strikes in that institution."

"I hope you will take my statement in the spirit in which it was given as a warning to the manufacturers that they must educate themselves, that they must educate their employees and that they must educate their foremen, their superintendents and everybody else connected with the handling of labor. And, above all, they have got to educate the laboring men, and they do not do it is their own fault very largely."
While the speaker was driving home his points he was interrupted by applause.

USE OF UNION LABELS.

Imitations Prove Their Value to the Cause of Unionism.
The union label has at all times been more or less a power, but never so much as in the last few years has it made itself felt. Its enemies must needs copy it. Imitation is the sincerest flattery, they say, and its truth is clearly demonstrated when the employer who will not have the label because he must pay more wages to get it uses a substitute or, in plainer language, a forgery.
Every now and then we pick up a paper with an account in it of some sweatshop cigarmaker being arrested and fined for counterfeiting the cigarmakers' label. The garment workers warn us against trademarks of certain firms got up to resemble their label and cannot be detected except by a close scrutiny. There is an association of boss barbers in Chicago that issues a card which resembles the label of the Barbers' union so thoroughly that hundreds are being deceived by it every day.
If the union men and women would learn to appreciate the strength of the label as its enemies do there would be no further use for strikes. This argument has been offered time and time again, and though the demand for better goods is increasing, it is nothing to what it should be. There are enough union men and women in this country to make the nonunionist an impossibility by demanding the label on all goods that they purchase.—Tramsters Magazine.

Attention!

We push our business by giving correct weight, fresh groceries and your money's worth every time. We handle fresh from the vine all kinds of country produce at "live and let live" prices. Come and make us your friends and we will show you that our friendship for you means more than a song.
