Remanded to Jail to Await February Term of Court.

Readers of the SUN will remember the Piney church tragedy in which Mr. H. C. Grubb killed Mr. O. L. Davis. Mr. Grubb has been in jail since then awaiting an opportunity to make application for bail.

Habeas corpus proceedings were instituted last week at Greensboro, Judge Oliver H. Allen hearing the case. After deliberating for several days, Judge Allen decided Saturday that the case is not bail-able and Mr. Grubb will remain in jail until February unless a special term of court is ordered.

MR. ELBERT HARPER'S MISSION.

Goes to Kentucky to Bring Back His Bride.

Mr. W. Elbert Harper left Saturday night for Lexington, Kentucky, where Wednesday morning he marries Miss Marion Wilson, of that city. From the home of the bride, where they will be married, they will go to the World's Fair, covering a bridal tour of several States and returning here about Nov. 17. They will board for the present at the Central Hotel, their plans for the future not yet being made.

The announcement of Mr. Harper's marriage will come in the nature of a surprise to Salisbury, to a very few of whom, Mr. Harper had confided this secret. But for the treason of his good brother, he would have reached his destination and the townspeople had been none the wiser for his going.

And Salisbury is glad to add to her citizenry of womanhood, Mrs. Harper. The fact that she has anchored a predilection to so good a fellow as Elbert Harper, prejudices Salisbury in her favor before actually knowing her. Both Messrs. J. P. and M. E. Harper have won a world of friends since coming here and the partnership of Mr. and Mrs. M. E. Harper, this town will wish to be life long and true.

MR. BAILEY IS DEAD.

DIED EARLY SATURDAY NIGHT.

One of the County's Best Citizens Dies After Operation.

Mr. John A. Bailey, one of the best known of Rowan's citizens, died at 9 o'clock Saturday night. He was brought here from Woodleaf Friday night, October 28, and placed in Whitehead Stokes sanitarium for an operation for an abdominal disorder. He took this treatment and gave promise of an early recovery. Saturday his condition became alarming and his relations were summoned. One of his brothers, Mr. Hubbard Bailey, and his brother-in-law, Prof. G. B. Wetmore, were here when he died, as was Mrs. Bailey.

His daughter, Miss Rosa, who was attending the State Normal had intended to come over to spend the day yesterday with her father, and was not aware of her father's condition when she arrived. He died ten minutes before she reached his bedside. The funeral services were held yesterday afternoon from Unity Church, Rev. John H. Grey, of this city, officiating.

Mr. Bailey leaves a wife, four children and two brothers. He was 56 years old and was in business a long time in Woodleaf. His health for the last several years has been such as to keep him from assiduous attention to his business interests and he had given up his store. He continued the buying of cotton and was the largest country buyer in the county. He was most scrupulously honest and conscientious. Many times he has returned money to his customers when he made larger profits upon his purchases than he calculated upon doing.

His personal and family life was kindly. He was left an orphan at six years of age and his rise to manhood was through a succession of trying times. He had fewer enemies than the most of men with strong convictions and the bravery to assert them. Mr. Bailey was a man of strong intellect as well as character. His understanding of public questions was clear and his study always was to be a good citizen. His philosophy was to take this world as he found it but he did not leave it so. The county has lost a good man.

LOOKING TOWARDS THE SOUTH.

Projectors of Silk Mills are Asking for Information.

The Editor of the SUN has received the following letter: Dear Sir:—One of our clients, who now owns five silk mills, desires to establish one or more mills in the South. It has occurred to us that you would be interested in presenting this matter to your readers. The demand for silk is very great at the present time, and it is imperative that new mills be established at the earliest possible moment. If there is an available building in your community of say 5,000 feet space it is possible that most satisfactory arrangements could be entered into looking to the establishment of a silk mill. Proposition with a view to the building of a mill will be considered.

We would be pleased to hear from any parties interested. In about two weeks a personal representative of the parties desiring to establish these silk mills will visit such points as will offer anything of interest. \$25,000 in cash is now available for this enterprise.

Very truly yours,

PLUMER & SONS.

Mr. R. G. Bremner, proprietor of the Passaic Daily Herald, will certify that we have a bona fide proposition.

Cabarrus is All Right.

Mr. Roland Harris, who spent Saturday in Concord attending the Democratic rally, returned to Salisbury last night. He says that the extreme conservative estimate on the political situation in Cabarrus gives the Democrats a majority of 300, while many of the best posted Democrats believe it will reach 500.

PORT ARTHUR

REALLY TAKEN.

SO TOKIO IS SAYING.

THE PORT AT JAPAN'S MERCY.

Japan Claims that the Russians Have Violated the Red Cross and Other Certain Instances. No Attempt is Made to Take Certain Ports Necessary to Japanese Victory.

Tokio, Nov. 7.—Imperial headquarters today issued a statement charging the Russian defenders at Port Arthur with a misuse of the Red Cross badges and maltreatment and killing of the wounded. The following cases were cited among others: A Japanese orderly who was wounded and left on the field. The Russians took his badge and killed; they wounded a Japanese private who lay for six days simulating death while the Russians were near. The Russians bayoneted and shot his companions who were wounded and robbed him.

St. Petersburg, Nov. 7.—Both Kurapatkin's army and that of Oyama have now completed fortifying their positions along the Shabke river. At some points the fortifications are only a few hundred paces apart. The weather is dry and very cold.

Rome, Nov. 7.—The Tokio correspondent of Giornale di Roma wires that Port Arthur is regarded as taken by the Japanese capital. The Russians still hold the forts but the town itself is open to the Japanese on the northeast. The troops of the Mikado will not enter the town port, because it is under fire from the Liacoti mountain forts. All the besiegers' efforts will now be directed toward the Golden Hill fortresses.

St. Petersburg, Nov. 7.—M. C. Lado, one of three officers who landed from the Baltic fleet at Vigo and who proceeded to St. Petersburg, is not a naval officer but a major in the army. He was simply Admiral Rojstovsky's guest and intended to land at Vigo when the fleet left the Baltic. The fact that Rojstovsky left him behind as a responsible officer who would give details of the affair is nothing less than a mockery to England. It is stated that the czar loaded Lado with honors.

Lieut. Gen. Sakharoff reports today that following the sharpshooters on Friday under Lieut. Vooortnikoff, he penetrated as far as the Japanese entrenchments in front of Notsutai Heights. They remained all day exchanging a fusillade. The concentrated fire of the Russians destroyed the village of Udaylatso, where the Japanese were taking shelter. The Japanese attempt to damage the Russian masked guns was unsuccessful. Sunday night Russian sharpshooters harassed the enemy along the whole line. There was no engagement Saturday.

Leader Murphy is Confident.

New York, Nov. 6.—Charles F. Murphy, leader of Tammany Hall, when asked for a final estimate on the election tonight said: "Every indication points to a great Democratic success. I refrain from disclosing the figures which warrant this statement because I do not wish to risk the chance of illegal methods in certain up-State sections defeating the will of the people."

"In previous years I have gained accurate estimates of the city vote, only to find that the Odell managers providing by fraud election returns to overcome the city majority. Prudence dictates now that the Republican management should not know in advance the majority which New York city will give for the Democratic ticket."

A BRAVE MESSENGER.

HE FOILS TWO TRAIN ROBBERS.

They Make an Attempt to Rob the Pennsylvania Express.

Philadelphia, Pa., Nov. 7.—Two unsuccessful attempts to rob the Pennsylvania Express train, which left Washington at 6:30 o'clock last night for New York, were made by two men, one white, the other a negro. According to a report received here the first attempt was made at Havre when a man was found trying to open the doors. Messenger Carter pointed a revolver and ordered him away. A little later a negro climbed over the tender and held up the engine crew. Carter again came forward and the negro jumped and ran.

MR. THOMPSON STORMED.

A Birthday Party at His Home Near Cleveland.

Correspondence of SUN, Cleveland, N. C., Nov. 6.

Saturday was a most enjoyable day at the home of Mr. and Mrs. William S. Thompson. A surprise birthday party and dinner was given by the relatives and friends of the vicinity. After the rain of Friday and Friday night the sun bade fair for a beautiful day and people began to drive up to the residence of Mr. Thompson which is two miles west of Cleveland.

Mr. Thompson was surprised at the wholesale visit of his friends. But this only broadened his smile, a smile of welcome which also beamed from the face of his kind wife and sparkled from his eyes. In a few hours the yard was full of a young people, while from the porch the old surveyed in pleasant style.

After the morning pleasures began to take wings on the air, a large table was soon erected. The housewife betrayed her genius in the good things that were prepared. The table almost groaning under its weight of every imaginable thing that could be produced on the farm, was soon relieved of a portion of its burden.

The afternoon was spent in social chat and games suitable for both old and young.

Mr. Thompson is a thrifty farmer and a ripe old veteran. After wishing him and his wife many more happy years the crowd disbanded.

The Mounting Cost of Living.

Dun's latest index number, just completed, shows the average cost of principal necessities of life to have been \$99.43 per head on Nov. 1. That is an increase of \$1.04 in the past month, of \$1.60 in the year and of \$26.97 since July 1, 1897.

The increase in the cost of living in a little over seven years of Republican rule has been over 37 per cent, \$134.88 for an average family of five. It takes a salary of \$1,327 a year now to buy the same household necessities that a salary of \$1,000 would have bought in 1897. Anybody who had less of an increase than that was doing better in "hard times" than he is now in "prosperity."—New York World.

Japanese as Farmers.

The Japanese have surprised the world as fighters, but, according to Harold Bolce, they are also the most remarkable agricultural nation in the world. They have only 10,000 square miles of arable land. An automobile going fifty miles an hour could skirt this area in eleven hours. Yet it supports an imperial nation—the rising power of the Far East. Experts admit that the science of Japanese agriculturists is unapproached. "Patient diligence, with knowledge of the chemistry of the soil and the physiology of plants, has yielded results that have astonished the most advanced agriculturists in western nations."—London Globe.

A SPENCER FIRM INDICTED.

A Verdict of Guilty Promptly Rendered.

The new furniture house of the L. Thomas Company at Spencer has been arraigned for selling large quantities of goods, both in Salisbury and Spencer. "How could it have been done?" was the question submitted to the jury. Here is their verdict: "After thorough investigation we find that this firm, by displaying an unusually fine selection of furniture, stoves, and house furnishing goods generally, and selling the same at exceedingly low prices, has succeeded in winning a large share of the trade of this community. For instance: They are offering a good cook stove, complete, for \$10.00. A good wood heater for \$1.25; first rate carpeting for 25c per yard; handsome suits of furniture from \$20.00 to \$35.00; full 10-4 blankets \$1.00 per pair, and everything else accordingly. Such prices for such goods cannot fail to attract attention anywhere. Remember the piece.
