CRUMPT IMPROVING

(Special to The Sun.)
Lexington, N. C., June 2, 1905.—The report saying that Henry Charles and Dave Leonard, the white men who were alleged to be in conspiracy to assassinate Clay Grubb and Clarence Thompson, had left the county, is untrue. They are not even in hiding, and have not been out of the county for several days. No warrants have been issued for them, or for any one else in connection with the attempted assassination, except Frank Hairston, colored, who is alleged to have been with Crump at the time of the shooting.

Crump continues to improve and Dr. Hill thinks he will soon get well. Weldon Crump, a school teacher, and a brother of Nat, visited the latter in jail yesterday.

TWO SAFES BLOWN ROJESTVENSKY

Safe Crackers Secure About Six Hundred Dollars

Mount Pleasant Receives a Visit From Knights of Highway who Wreck Things and Escapes

Charlotte, N. C. June 2.—Last night presumably between 11 and 1 o'clock professional safe crackers blew open two safes at Mt. Pleasant and secured about \$600.

C. G. Hellig's store was entered by the front door, the safe blown open, and more than \$300 was taken, \$150 of which was town tax money. The safe was completely wrecked. At Cook & Fells' store the entrance was made by the front door, which was wrecked. The large safe was dynamited and nearly \$200 taken. A horse was taken from Luther Lentz and it is presumed that the rider was thrown as the animal was abandoned. A mule was taken from Col. Boger, near town, and ridden within a short distance of Concord. It is presumed that the men were making for an early train. The explosion was heard by only one man, who thought it a neighbor's horse kicking. A large posse is out now in search of the robbers.

ALDERMEN LAST NIGHT

The city aldermen held their regular meeting last night in the city hall. More than usual interest was felt in the meeting of the city aldermen for the reason that some changes and additions were to be made to the police force of the city. There was nothing of special interest before the board excepting the election of the officers. After the routine business called up by Mayor Boyden had been transacted on motion, the election of the police force was taken up.

The following officers composing the old force were reelected to serve the present term: J. E. C. Eagle, B. Frank Cauble, W. A. Monroe, M. L. Parker, G. F. Wise, Clayton W. Poole. The new men put on the force were J. Frank Barber and Robert Coble. There appearing no further business the board adjourned, subject to the call of the Mayor.

IN THE BATTLE

With Flag on Souvaroff, He Himself Was on Borodino When Battle Began—Five Times He Changed Ships Before He Was Captured. Losses of the Japanese Were Trifling

Tokio, June 1.—Rough estimates made the Russian losses in the battle fought in the sea of Japan, exclusive of nearly 4,000 prisoners, vary from 7,000 to 9,000. Calculating the complements of the sunken and captured ships at upwards of 10,000, 7,000 men remain unaccounted for. It is possible that the ships which escaped rescued some of the members of the crews of the last fortunate ships. Many bodies have been washed ashore on the islands and on the shores of the neighboring coasts, near the scene of the battle.

Sinking of the Ships.

The navy department made the following announcement to-day:
"Later reports from the different divisions of the fleet engaged in the naval battle of May 27 shows as follows:

"The Russian battle ship Oslabia was heavily damaged in the early part of the fight, going down at 3 o'clock in the afternoon. The first Russian vessel sunk was the battle ship Sissoi Veliky. The protected cruisers, Admiral Nakhimoff and Vladimir Monomach, after being in the engagement during the day time were still further damaged by the torpedoes during attack by night, and were eventually completely disabled. They drifted into the vicinity of Tsushima, where they were discovered on Sunday morning, May 28, and by the auxiliary cruisers Shilano Yawata Tainan and Sado, which captured them, but they all sank. The crews of our auxiliary cruisers rescued 195 of the crews of the sunken Russian ships.

"The battle ship Navarin was torpedoed four times after sundown on Saturday, May 27, and sank. The survivors of the Navarin's crew confirm the story of her destruction.

"The cruisers Nitaka and Otowa discovered the Russian cruiser Svetlana at 9 o'clock on Sunday morning. In the vicinity of Chappyan bay, and immediately attacked and sunk her. The commander of the Nitaka reports the fact that it is suspected that the Russian cruisers Almaz and Aurora were sunk by torpedoes in the night of May 27.

"The former reports include the statement that the Russian cruisers Jemtung was sunk, but as yet this remains unconfirmed and the cruiser's name has been excluded from the revised list of Russian vessels destroyed.

"Judging from this and former reports the enemy's main strength, consisting of eight battle ships destroyed or captured three armored cruisers and three coast defense ships destroyed or captured, with the second class cruisers and other vessels destroyed the enemy's fighting power is thus annihilated.

MACHINE BOWS BEFORE MAYOR

Measure for Leasing Philadelphia Gas W'ks. Withdrawn from Council

Philadelphia, June 2.—Without a dissenting vote both branches of the city councils to-day withdrew the ordinance authorizing the lease of the city gas works to the United Gas Improvement Company for a period of seventy-five years, for which privilege the company was to pay the city \$25,000,000. Select council also unanimously conformed the appointment of Col. Sheldon Potter as director of public safety, and A. Lincoln Acker as director of public works. The galleries of the council chambers were packed to suffocation with spectators, but there were no disturbances, and the action of the municipal legislators were received in silence.

An unusual feature of the meeting of councils was the presence of Mayor Weaver, accompanied by his attorney, in a room adjoining the upper branch during the vote on his appointments. He was prepared to appear before the body if necessary, but was not called on to do so.

Another important move was made in common council when Alexander De Haven, chairman of the finance committee, introduced a resolution fixing the tax rate for next year at \$1.50 on \$100, the present rate.

The Republican leader who advocated the gas lease extension claimed that money was needed immediately to meet expenses, and asserted that if the ordinance was defeated it would be necessary to increase the tax rate. Mayor Weaver, on the other hand, contended that the existing rate was sufficient.

REFLECTIONS OF A BACHELOR

When a girl marries a man with a past she hasn't any future.

A jolly fat baby makes most anybody forget how slim his bank account is.

Awoman dresses very queer to have her figure always look different from what it is.

If a man can't get enough trouble to suit him any other way, he can always try to raise a vegetable garden.
