

RIOTING BREAKS OUT AFRESH

Police Obligated To Use Revolvers to Keep the Crowd at Bay. Mayor Dunne Making an Effort for Settlement

Chicago, June 3.—A conference was held at the mayors office to-day to submit to arbitration the question of see if the teamsters were willing to permitting the team owners' association to make deliveries to the boycotted stores. The contract with the teamsters provides that disputed matters shall be submitted to arbitration. Before a decision was reached President Shea had to obey a call of the grand jury. The conference will be resumed as soon as possible. In case the case is dismissed the teamsters will have to call the strike off or add 9,000 to the ranks of the strikers. The teamsters of the Parmelee Transfer company are threatening to strike. The company is arranging to do business with non-union men in case of a strike.

It appears to-day that the charges of bribery brought by President Shea are eliminated by the law of limitations. It is claimed that \$30,000 was paid by the coal men during the strike growing out of the attempt to substitute coal for gas as fuel in the large office buildings.

Rioting broke out afresh to-day in the lumber district when a wagon belonging to Rittenhouse & Embree Company was attacked by a crowd of 100 persons at Thirty-Second and Central avenue. The mob threw stones and pieces of coal at the non-union teamsters. Two policemen who were guarding the wagon were hit by the missiles and slightly injured. The police were obliged to fire several shots into the air to keep the crowd at bay. Upon the arrival of additional police the crowd quickly scattered. No arrests were made.

Four hundred drivers for the Frank Parmelee Transfer Company threaten to strike. The stablemen employed by the firm, 100 in number, also ask an increase and if the strike of drivers occurs it is probable that the stablemen will quit.

RETAIL MERCHANTS MEET Annual Convention to be Held in Asheville.

Asheville, N. C., June 3.—The annual convention of the North Carolina Retail Merchants' Association will be held in Asheville on June 21 and 22. President Clarence Sawyer has received letters from Mr. John A. Green of Cleveland, O., president of the National Association of Retail Grocers, and from Mr. W. B. Thomlin of Birmingham, Ala., president of the Southern Retail Grocers' Association, as well as from officers from the Retail Merchants' Associations of our sister States, stating they will be present at this convention.

Special attention is called to the fact that Messrs. Green and Thomlin will attend, as their presence will be a very important feature of the meeting.

The merchants throughout the South are beginning to awake to the fact that they can accomplish more with their Retail Associations than through any other channel, and are rapidly joining their associations.

Officers from the various State associations are working hand in hand for the general good, and are receiving assistance and encouragement from the manufacturers, also from the National Association.

All indications point to a big meeting in Asheville, as the merchants throughout the State have begun to realize the power of their organization, since they were enabled to have the last legislature repeal the iniquitous sale tax, as well as to have some minor legislation enacted. They are even now at work, outlining plans to ask the next legislature to enact additional laws that will be of great benefit to them.

SPIED ON JAPAN

A Frenchman Gets Himself and Government into Trouble

Victoria, B. C., June 3.—Advices were received by the steamship Kanagawa, that a strong case is being made out by the Japanese government against Captain Bergouin, a prominent Frenchman of Tokio, formerly of the French legation, who with his son-in-law and a Japanese engineer in his employe, has been arrested charged with being a spy in the Russian. Copies of messages alleged to have been sent to Russia against giving information with regard to movements of the transports, warships and troops were found in his residence at Tokio. It was stated that the transport Hitachi and Sado were intercepted and the former sunk a year ago by the Vladivostok squadron because of information furnished by Captain Bergouin. Strong protests were made by the French government regarding his arrest, but no notice is being taken by the Japanese government, which has a strong case against the alleged spies.

EXPLAINS CAUSE

The Japanese Explain the Cause of Rojestvensky's Defeat

Tokio, June 3.—(Noon)—The cardinal cause of Rojestvensky's defeat have been the subject of general discussion here. One Japanese expert gives the following analysis:

- "First, an imperfect reconnaissance and incomplete, faulty and misleading intelligence.
"Second, an imperfect battle formation, which indicated that Rojestvensky did not expect to meet Togo off Tsushima.
"Third, the weather, the direction of the wind and the sunlight were unfavorable to the Russians in the submarine.
"Fourth, the Russians wasted their ammunition and eventually ran short. It is believed that the surrender of Nebogoff was necessary because the ammunition had been expended.
"Fifth, the marked inferiority of the Russian gunners.

DOUBLE TRAGEDY

Ewing, a Flagman of the Road Who Kills Two Brothers is Himself Seriously Wounded by Their Knives. Blue Ridge, Ga., June 3.—Tax Collector J. L. Galloway and his brother, George Galloway, were shot and killed yesterday morning ten miles north of this place on an incoming Louisville and Nashville train.

R. T. Ewing, flagman of the same train, and the man who did the shooting are at the Cooke house here suffering from a number of serious cuts on the head and different portions of the body.

The Louisville and Nashville ran an excursion from this place to Knoxville, Tenn., yesterday, returning this morning at 7 o'clock. Just after crossing the Tennessee line at McCay, 12 miles North of this place, a difficulty occurred between George Galloway and the flagman Ewing about a broken car window. Words were passed and George Galloway went into another car, returning in a few minutes with his brother, and a fight ensued between Ewing and the two Galloways, in which Ewing was stabbed several times.

According to accounts Ewing had been badly cut up by the Galloways, he pulled his pistol and fired two shots at J. L. Galloway, one of which took effect in the end of his nose, passing entirely through the head and lodging in the base of the brain. He then turned and fired one shot at George Galloway, which entered the head just behind the right ear. J. L. Galloway died instantly, and George lived until after the train reached this place, dying before he could be moved to the nearby house of a relative.

Ewing was taken from the train here weak from the loss of blood and suffering from a number of ugly bruises on the head and cuts on different parts of the body. But is said he will live.

NOW YOU SEE IT NOW YOU DON'T

The ball game in our league remind one of the old story about the 'possum and the coon. It is a well known fact that a dog can easily whip a 'possum, but it is seldom he can whip a coon, yet any old 'possum can lay out a coon in a jiffy. Recently Greensboro whipped Charlotte, and Charlotte whipped Danville, and now Danville walks in and licks us. We knocked Salisbury out last week in great shape. Yesterday Salisbury felled Charlotte. It's a risky thing to bet on.—Greensboro Record.

TO RISK ONE MORE BATTLE

Before Considering Question of Seeking Peace. It is the Opinion That No Steps Will Be Taken

Paris, June 3.—The report that M. Bompard, the French ambassador to Russia, who has been here on leave of absence is hastening back to St. Petersburg, as France has agreed to ask the consent of the powers to bring about peace between Russia and Japan is said by officials here to be incorrect. M. Bompard, it appears, is not returning to St. Petersburg. He attended the reception given by President Loubet last night in honor of King Alfonso, where Mr. McComack, the American ambassador had a long talk with the French ambassador. M. Bompard intends to remain here a week or ten days, which would seem to confirm the reports that the peace situation had not reached a decisive state.

There is reason to believe that he share the views of the other diplomats, having personal acquaintance with the Russian officials that the peace outlook is not bright. The trend of opinion in this well informed quarter is that Russia will put off decisive action until after the next land battle!

National Assembly is Urged St. Petersburg, June 3.—The Russian press this morning is still advocating more vigorously than ever the summoning of a national assembly, even the reactionary Soviet joining in the general chorus.

In the view of current rumors, it is most significant that the papers which are more or less in the confidence of the government unanimously take the position that the people should decide the question peace and war.

All Gone

Tokio, June 3.—Admiral Togo, telegraphing yesterday says: "The ships sent northward to search for Russian ships returned yesterday. The cruisers Iwate and Yakumo and other vessels sent southward to find Russian ships returned today. They thoroughly searched the Shanghai course from Tsushima and vicinity, but both sides found no trace of the Russians.

Admiral Shimamura, on board the cruiser Iwate reports: "During the battle on May 27, at 3:07p.m., the cruiser Iwate vigorously attacked the protected cruiser Jemchug at a distance of 3,000 metres. The Jemchug sank in one minute. The loss of the Jemchug is therefore confirmed.

"During the engagement fire broke out on the Jemchug and the fire consumed the hull of the vessel. Consequently the remainder of our fleet were unable to see the ship."
