Bismuth & Bro., clothiers. Brown, J. Allen, coal dealer. Buerbaum, Theo., books, stationery & notions.

A murder was committed in Davidson Co., Monday last. P. P. Broadway killed Lee Craver for circulating damaging reports about Broadway's wife.

See Ad of valuable House & lot to sell, on Ennis street. Also Brick machine, steam engine and brick.—A. W. Osborne.

Our thanks are due many friends for an invitation to be present at the Alliance picnic last Saturday near Mr. Fricks; and we regret that we could not attend.

We call special attention to the advertisement of D. R. Julian & Co. They are live men, and if they can't sell you goods at about your own price, no other merchants in this town can. They have a full line of Dry Goods, Groceries, &c.

We understand that Mr. J. B. Lanier has broken the ground for a large Roller Flouring Mill. It will be located on his lot near the depot, and every one who knows him will understand that it is to be first class. He does nothing by halves, but makes whatever he undertakes as perfect as it can be, success to the enterprise.

Salisbury Roller Mills. These have passed into the hands of a new company, and will be put in the best condition. The parties purchasing are experienced millers, and intend to please. They wish to buy grain, and the people are invited to bring it to them.

We are sorry that the Chronicle can't make it pay to keep a resident correspondent here. So we suppose Mr. Banks will be called home. We are sorry to lose him.

We are glad to hear that Mr. Walter Jones, of late clerk in the post office at this place, and son of Dr. I. W. Jones, has received a position as Route agent on the R. & D. Rail Road from Washington to Charlotte. He is an apt, quiet, clever youth and will make a good agent.

J. S. McCubbins, Jr., calls attention to the Owl brand Guano for cotton, corn, &c. It has proved by use to be one of the best brands.

Dr. R. L. Ramsay, a recent graduate of Pennsylvania College of Dental Surgery, has opened an office in Smithdeal's Row, and announces the fact in this paper.

Dr. Ramsay is a genius in his line, and we have seen specimens of his work as fine as any to be done anywhere. His bridge work, prosthetic work, rubber work and regulating attest his skill. He has received his diploma, has a complete outfit, and most perfect operating chair in the State, perhaps. We wish him the most abundant success.

JEWISH PASS-OVER. This holiday begins on next Friday evening, April 4th, and is celebrated for seven days in succession. It is kept in commemoration of the Exodus of the Children of Israel, from Egyptian bondage. This event took place 3202 years after the creation of the World.

WILL WONDERS NEVER CEASE. Lexington Ledger.

A gentleman from the country, who was in town Monday, informs the Ledger that Emanuel Nifong, a citizen residing about ten miles south of Lexington, owns a mare which gave birth to twin colts last week—a mule and horse! Was the like ever heard of before? We pause for an answer. Can Graham beat it?

GREENSBORO STEEL AND IRON WORKS.

The general manager of the North Carolina Steel and Iron Works, Capt. J. J. Newman, is having an office elegantly fitted up in the Washington Street front of the National Bank building.

We learn that the company is making gratifying progress in disposing of its stock. One hundred thousand dollars have been taken by citizens of Greensboro. The capital stock is to be \$1,000,000.00.

CAUSE AND CURE OF NAUSEA. Prof. Stewart, after telling us that the seat of nausea is not in the stomach but in the brain, informs us that relief from this distressing sensation may be obtained by cooling the base of the brain. He has tested this often and thoroughly in cases of sick headache, bilious colic, cholera morbus and other illnesses, which nausea is a distressing symptom, without a single

once relieved the nausea resulting from cancer of the stomach by the application of ice to the back of the neck and occipital bone. The ice is to be broken and the bits placed between the folds of a towel. Relief may be obtained by holding the head over a sink or tub, and pouring a small stream of water on the back of the neck. This is worth remembering as a relief to sick headache, to which so many women are subject.

Every one must have felt that a cheerful friend is like sunny day, which sheds its brightness on all around; and most of us can, if we choose, make of the world either a palace or a prison.

Provoking one another "unto love and to good works" is one of the kinds of provocation the Bible refers. This is a very safe kind of provocation. The more of it the better. It stirs up no wrath, and leads only to good results.

One of the greatest needs of the church is sanctified lips. A tongue of fire is not enough, for according to St. James it may be set on fire from the wrong place. It is vain to talk of a clean heart, without a clean mouth.—A Lowery.

Mr. Chambers Smith, son of the late Chief Justice of North Carolina, has been stopping in Washington. He spent last summer in Europe. Mr. Smith presented Mr. John N. Staples with a beautiful walking cane he bought in Paris. The handle to it is made of a boar's tooth.—T. C. Evans in North State.

Senator Voohees, stated it very strongly, but not too much so, when he said that the time was coming when the farmer would look on the proposition to tax him and his wife and children for the protection and benefit of other people as a law of Congress to establish the army worm and weevil on his wheat, to infect his cattle with murrain and his hogs with cholera.

Seasons of trial make us more watchful. In smooth weather the sailor may swing in his hammock; but in a piping gale brings all hands on deck, and sharpens the eye of the "look-out" at the bow. David never fell during his seasons of severe trouble; it was the warm, sunny days of prosperity that brought out the adders. Noah weathered through the deluge of water nobly; it was the deluge of wine that drowned him.—Dr. Cuyler.

The divinity of Christ, so far from being a dry, abstract and merely speculative dogma for the intellect to grapple with, is a living and individual life, a precious reality to call forth the confidence and affections of the heart, being none of its preciousness because veiled in mystery. We can apprehend and believe the fact, and reap the comfort thereof, even though we cannot explain it. The fact gives us a divine savior to love and trust.
