notice that hereafter he shall adopt the cash system. This is what every merchant in town should do, and it would be better for all concerned. If Mr. Brown does not sell as many goods, he will have more money and he will have his goods not sold.

It is painful to have to be all ways making announcements, but it would seem that some of our patrons do not understand our terms. We keep no books and therefore expect the cash to accompany all orders for paper or advertising. We can not do business without money, and are compelled therefore to enforce the rule of cash payments. We hope all will hereafter understand this.

There was a cyclone in the neighborhood of Mr. H. W. Hudson's, on Monday the 23rd instant, in this county that unroofed his barn and otherwise injured his farm and buildings.

Next Monday the County Commissioners will select a sheriff to fill out the unexpired term of C. C. Krider. Since young Wood Krider has been discharging the duties of the office for nearly a year, and has done so acceptably, it would be but a proper compliment to select him to fill the out the unexpired term. He is familiar with the duties of the office, and some consideration is due to his father and to duty well performed.

Quite an enjoyable lawn party was given by the young men of the town Tuesday night at the residence of Mrs. M. L. Holmes. The night was beautiful, the refreshments delicious and was enjoyed to the utmost capacity by all. Many thanks are due the kind hostess who so kindly opened wide the doors of her charming residence.

There are several cases of fever in town at present and we are surprised that there are not more. If any one would take a look behind the stores and in the back lots, they would in all probability see the cause of it for there all the filth and rubbish that accumulates in the store is dumped, and it is from the piles of filth, that these unsavory smells arise at night. We mean to cast no reflections upon anyone and especially upon the town officers, but we think more care ought to be taken than to let all this offal lie in the back lots, when it not only breeds fever, but is very offensive to the nostrils.

Mrs. Joseph Horah has returned from Morehead.

At the regular meeting of the town commissioners last Friday, J. W. Rumble, Esq., was elected Mayor to fill out the unexpired term of C. D. Crawford, deceased, T. C. Linn was chosen commissioner for the West Ward.

Mrs. W. M. Wiley, leaves Saturday for New York, from which place she will sail on the Anchor Line for Glasgow Scotland.

We have water works, plenty of water, but we have no means of laying the dust in hot weather, we ought to have a street sprinkler for summertime. On a dry windy day the dust is unbearable on the principal streets. Let this question be agitated, and the town commissioners will buy sprinkler and then you can walk the streets without swallowing enough dust to make a dozen bricks.

Miss Agnes Neave, is visiting friends in Wilmington.

Prof. H. J. Overman, is in Asheville this week.

We learn from J. A. H. Jordan that quite a wind storm prevailed in his neighborhood last Sunday evening. His barn was blown down.

Dr. Richard Whitehead, left last week for the State University, where he has been called to the head of the medical Department, which has not been in operation since the death of Dr. T. W. Harris, the former head of the Department. We prophesy that once Dr. Whitehead's management, assisted by Prof. Holmes, Venable and Gove, that in a few years the medical department of the University will be on a par with any South...

S. A. Earnhart was in town yesterday, and while he is not seeking the position of a legislator, he will allow his friends to use his name in that connection. He is a quiet, energetic, good man, eminently practical and methodical, an intelligent farmer, thoroughly acquainted with the wants of the agricultural interests and will suit as well to fill the position for which he is named as anybody we know of in the county. If the farmers of Rowan desire to designate the representative for the next House his nomination and election will be a credit to their judgement.

A woman, says Sheridan, may be idle, but she is never a loafer. She cannot knock a man down, but she can break his heart, and when disappointed she goes to God, while a man goes to the devil.
