—Messrs. J. Frank McCubbins and Arthur Henderson are already in the field as cotton buyers and expect to make the market lively this fall. They now have large orders ahead which will require several hundred bales to fill, and they anxious to get the cotton as early as possible to meet the demand. They always pay the highest market value, and their long experience as cotton buyers, courteous manners and prompt business methods especially recommend them to the farmers. Do not fail to see them before you sell your cotton this fall.

—Elsewhere in this paper will be found the announcement of the "Salisbury Institute of Music, with Salisbury's famed and talented musician, Miss Linda Lee Rumble as Principal, assisted by Miss Bertha Knox, who is also an able and skillful performer. —There is evidently another new hand writing dashing editorials for Watchman. It would seem that the effort to make that paper appear different from what it was in the days of its glory and influence, is likely to bring about its entire eclipse. It only requires an opportunity for some folks to show how clever and versatile they are. For instance, see Capt Alexander's letter in this paper.
