A Ship Arrives in New York Loaded With Cholera Infected Passengers.

The Country is Becoming Alarmed at the Proximity of the Scourge.

THURSDAY'S DISPATCHES. A New York dispatch says: The steamer Moravia was sent to the lower bay, two miles south of Swinburne island, Thursday morning. Dr. Sanborn

The steamers Gallia and Lahn are detained until the five days' quarantine, required by the health regulations, have elapsed. The Gallia has 275 Russians and 175 Poles aboard.

ABATING IN RUSSIA.

A St. Peter-burg cablegram states that official cholera returns from all Russia show a gratifying decrease in the ravayes of the pestilence. The latest returns, which are for August 29th, show a total of 4,859 new cases and 2,529 deaths. Compared with the latest returns these figures show a decrease of 1,285 in new cases reported and a decrease of 212 in the number of deaths. It will be observed, however, that the death rate continues excessively high, the figures of the last report showing a mortality of slightly over 32 per cent. Statistics from St. Petersburg also show a decrease ic both new cases and deaths.

SUSPICIOUS CASE IN NEW YORK. Cap ain Cross, of the police department of New York city, reported Thursday nigh that he was informed by Dr. Beck, of 94 Rivington street, that he attended a man named Etwinan, who lived on the fourth floor of No. 95 Orchard street, and that he found him manifesting symp oms of cholera. The man he said was a Russian, and arrived on Sunday on the steamer Russia. The board of health was notified.

BAVANNAH'S QUARANTINE.

Rigorous quarantine exists at Savannah agai at the entire world outside of North America. Vessels now on their way to Savannah's port from infected ports will be sent to the government quarantine station at Sapelo, fif y miles down the coast, so that they cannot come in contact with vessels detained for other causes at the city quarantine station.

PETITIONING THE PRESIDENT. Philadelphia's city council Thursday afternoon passed a resolution petitioning the president to issue a proclamation forbidding immigration during the continuance of the cholera epidemic. Considerable comment has been occasioned because of the favor shown John A. Clark, ex councilman, who was taken off the tined at Philadelphia, by his personal friends, Dr. Shakespeare and Keyser, of

Quarentine Doctor Lawler has ordered all ves-els arriving from Alaska rigidly inspected. He fears cholera might be brought over from Russia by way of Alaska. All incoming trains from Portland and Ogden will be inspected before passengers are allowed to enter California. Chinatown is being inspected and the city will be thoroughly

AT HAMGURG AND HAVRE.

There has been a considerable change in the panicky feeling prevailing at Hamburg in consequence of the reduction of cholera. The official report of cholera for Wednesday, showed a great falling off, both in the number of new case- and deaths. A general feeling of relief was experienced, but those acquainted with the peculiarities of the disease, knew temporary cessations of its fury were characteristic. Only 139 new cises and forty-five deaths were reported for Wed-

FRIDAY'S DISPATCHES.

A New York dispatch of Friday says: The situation at quarantine remains unchanged. President Harrison's order caused a sensation among the steamship agents in the city. The president's circular letter will practically stop all immigration while the cholera epidemic lasts. Steamship agents are disposed to protest as it is estimated that they will lose two million dollars a month while the twenty days, quarantine regulations are being carried out, one million dollars representing the loss from steerage traffic alone, while the remainder represents the loss arising out of diminished evening cabin passengers, and loss of freight and incidental expenses.

COMMENDING MR. HARRISON. The action of the president in ordering strict quarantine meets with hearty approval at Charleston, S. C., and the health offic rs and collector of port will co-operate in carrying it into effect, The quarantine regulations of Charleston are very stringent at this season of the year, having kept out yellow fever for

the past twenty years. IT WAS NOT CHOLERA.

SATURDAY'S CHOLERA NEWS. The steamships Normannia and Rugia both arrived at New York Saturday morning from Hamburg, and both reported that deaths from "cholerine" had taken place on the voyage. Both ships are now detained at quarantine. The report that there had been several deaths from cholera on board the Rugia was received about 10 o'clock. That report said there had been twenty three deaths during the

GOOD NEWS FROM ENGLAND.

The local government board of London announces that with the exception of one or two cases, that are now recovering, there is not a case of cholera in England or Wales. Reports received from various places Saturday night were of a more encouraging character than heretofore sent out since the disease began its ravages.

SUNDAY'S FIGURES FROM HAMBURG. On Su day the ambulances of the city of Hamburg took to the hospitals 335 cholera patients, of whom 198 died. Five hundred and twenty-eight cholera cases and 329 deaths not previou ly reported were registered during the day in pursuance of police orders. These bring the total figures, reckoning from the beginning of the epidemic up to date, 5,622 cases and 2,518 deaths.

SPREADING IN FRANCE.

A Par s cablegram states that cholers has appeared in St. Vaast, a town in Manche, on the Fnglish channel, ten miles northeast of Valognez. One person has already died there from the disease and two cases are now under treat.

IT WAS A MISTAKE.

The statement published at Savannah. Ga., Saturday, and telegraphed all over the country with regard to quarantine being established against northern ports was erroneous. The only action taken was to request the captains of vessels to stop at quarantine for inspection in the event of there being any cases of sickness aboard. The authorities are secking to discover the author of the canard which bore all the annea

He Carries South Carolina by Over Ten Thousand Majority.

Dispatches from Columbia state that in Tuesday's primary elections Governor Tillman carried South Carolina by a majority variously estimated at from ten thousand upward, and the entire reform ticket goes through with him. Retu ns have been very slow in reaching Columbis and Charleston, but the latest reports show that, while the conservative strength is far greater than two years ago, Governor Tillman still has a majority, which must be very gratifying to him and his supporters. The comparisons made with the vote two years ago need some explanation. At that time, General Haskell ran as an independent democrat Against Governor Tillman, the democratic nominee, and Tillman's majority was 44 .-331. The race between Tillman and Sheppard is strictly within party lines, and, of course, nothing like the majority over Haskell was expected this me.

FIRE DAMP EXPLODES

In a Coal Mine in Belgium-Many Miners Lose Their Lives.

A cablegram from Brusse s, Belgium, states that a terrific explosion of fire damp occurred Thursday in the Aggrafe coal mine in Hainault. The explosion caused a heavy coal fall, that blocked the galleries of the mine and entomber many of the miners. Rescuing parties were at once organized, and in a short general, but there is nothing definite as time they succeeded in recovering the bodies of ten men who were killed. It is known that thirty men are yet in the mine and efforts to save them, if alive, or to recover their bodies, if dead, are being made. Nearly all the men at work have been accounted for. Some escaped uninjured. Twenty five bodies have been recovered, and eight men, alive, though very seriously injured, have been taken from the mine by rescuing parties.

The circular is signed by Walter Wy. man, supervising general of the United States marine hospital service; tharles Foster, secretary of the treasury, and approved by the president.

WILL STOP IMMIGRATION.

The practical effect of this twenty days' quarantine ci cular it is believed the time being and thus will de brought about a result which the popular mind believes to be desirable at this time. The steamship companies, it is argued, will not care to bring immigrants to this country and support them for a long period before they are allowed to land, as such traffic would be very unprofitable. The declaration of the twenty days' quarantine will be a notice to the foreign governments that immigration for the present is not desirable.

Threaten a Wholesale Exedus from

Havana-High Taxes the Cause. Dispatches of Friday from Havana state that an exodus of 16,000 cigar makers from that city is threatened. The manufacturers are in despair because of the increased taxation which leaves them little or no margin for profits. The Florida Land Company has been offering such in ucements for the removal of factories from Cuba to Tampa and Ybor ccepting. The employes are all eager for the change. A majority of the employes are in sympathy w th the revolutionary movement and would be glad of a chance to unite with the clubs, whose headquarters are in Ybor City.
