TRADE IS VERY GOOD

Considering the General Prevalence of the Cholers Scare.

R. G. Dun & Co.'s report says: Last week's semi-panic in stocks and grain has been followed by a more confident feel-ing about the cholera, as it is seen the pestilence is thus far confined to incoming ships by national regulations, which all officials are now respecting. Moreover, even if the disease should appear on shore in scattered cases, the vigorous measures taken by the thoroughly warned and aroused people would be likely to restrict and suppress it as it has been N. C., says. Interpretending the state of the states of the states of the states appreciated there is much less appreciation regard-there is much less appreciation regard-ing the possible effects of the disease this year before cold weather comes, and there is have advanced 75 cents a share on

The total visible supply of cotton for the world according to Saturday's dispatches is 2,582,955 bales; of which 2,129,755 are American, against 1,657,-757, and 1,136,857, respectively, last Receipts at all interior towns, year. 42,903. Receipts on plantations, 52,382. Crop in sight, 76,422.

A London cablegram of Saturday says: Several failures in the cotton trade are expected in the Pretsch district. The balance sheets of the past quarter show heavy losses. The proposal to work three days weekly at a reduction of ten per cent. in wages until the trade mends is growing in favor.

Unofficial advices received at the department of state from Venezuela, Thursday morning, were that General Crispo has finally triumphed, and the dictator-ship has been overthrown. General Crispo has, it is said, been called to Caracas to assume the reins of government, and there is now a bright prospect for the restoration of peace in the distracted country.

The state department at Washington says the delay in fixing a date for the international monetary conference has been occasioned by the difficulty of agreeing upon a meeting place in view of the European cholera quarantine. The statement cabled from London that nothing has been heard by the British government from Secretary Foster on the subject of the conference is denied at the state department.

Dispatches from Troy, N. Y., are to the effect that the colored republicans of the state, on Friday concluded the conference called to cement the colored vote in the state by passing resolutions en-endorsing the administration of President Harrison, and commending the president for his policy of recognition of young men, progressive colored voters of the pivotal state of the north, whose faithful service to the republican party has hitherto been scantily rewarded.

A Washington dispatch of Saturday says: Attorney General Miller is of the opinion that there is no foundation for the protest made by Governor Abbett, of (New Jersey, to President Harrison against the use of Sandy Hook for a temporary detention place the passengers from the obsister infected china at temporary stage journey with dogs of thirteen hun-dred miles over the interior ice which cholera infected ships at lower quarantine. The protest was referred by the president to the attorney general for his unety days and returned all right on opinion, and his reply will be made, if it | August 4th. He made important discovhas not already been done, in accordance eries, confirming his theory. Ver-with the above.

A Philadelphia dispatch says: A com- trips. occurred throughout Russia In St. Petersburg during th eighty-one new cases and thirty deaths were reported.

A \$500,000 BLAZE.

Business Houses at Albany, N. Y., Burned.

About 2 o'clock Sunday morning fire broke out in the upper portion of the Lyon building, on the north side of Hudson avenue, between Green and Pearl streets, Albany, N. Y., and spread with frightful rapidity. When the fire-men arrived the entire top story was in fimes and there was a perfect rain a of sparks upon the surrounding buildings and into the adjacent streets. The appeared to have caught in one of the upper stories occupied by shirt factories, and had made such headway when dis-covered that there was already danger

that the front wall, five stories high, would fall into the street. At 2:30 the fire which started in what was formerly the Second Reformed church had spread to the north end of that structure, the flames licking up the wooden pillars of the old belfry, and poured up a solid column of flame over a hundred feet. in the air. The entire department was on the ground, and the indications were that the entire block bounded by Hudson avenue, Green Brave and South Pearl streets, would be swept away. The loss will not fall short of \$500,000.

EXPLORER PEARY

Returns From His Artic Expedition-Important Discoveries.

The steamer Kite arrived at St. Johns, N. F., Sunday from McFermack harbor after twelve months in the artic regions, bringing with her Lieutenant Peary, his wife and party. All were safe and well with the exception of C. Verhoff, the meterologist. Lieutenant Peary made a was found available. He was out

B. Copeland, \$3,500, insurnce \$2,000; G. W. Conner, \$2,500, inance \$900. A number of others sufored losses ranging from \$100 to \$300. The cause of the fire is unknown.

A dispatch of Sunday from Anniston, Ala., says: A very shrewd scamp is working a nice scheme to victimize the anks of Alabama. He has hit upon a new plan, but so far as is known his efforts have all been in vain. His method is to forge a draft on some New York

bank, send it to a bank in some nearby town to have it cashed, and request the money to be sent him by express. A Nashville news special says: It was

earned Saturday that John Cudahay, the Chicago packer, has paid \$35,000 for a site for a big pork and beef pack ing establishment. The location is on the Northwestern railroad and on the corporation line. He declares his intention of at once erecting a building to cost not less than half a million dollars. The plant will have a capacity of 1,000 hogs a day.

AMERICAN SHEEP

Can Now be Shipped to England on the Hoof-Prohibition Removed.

Secretary Rusk has just received through the department of state a copy of a letter from Minister Lincoln conaining the information that the government of Great Britain has removed the prohibition of the admission of live sheep rom the United States into that country. The order requiring the slaughter of these animals on the docks where landed within ten days after arrival has been re-

voked. They may be shipped to any part of the kingdom if they are landed at the proper ports and pass inspection. The conditions are that no other kinds of animals shall be carried by a vessel on the same trip, and that the owner or agent of the vessel shall give bend that the animals have not come in contact with mimals from suspected countries, and that the vessel has not entered ports of such countries. The ani-mals are to be detained twelve hours and

the inspector.

CHARLESTON'S BUSINESS. The Depreciation in Cotton Causes

are not to be moved until examined by

Falling Off in Totals. The annual review of the News and Courier, says Charleston's trade during

the fiscal year ending August 31 amounts to more than \$83,000,000. This shows This shows decrease as compared with the previous ear of about \$14,000,000, but more than half of the decrease is due to the falling

all the works are full of orders, and the output is now heavy. Nails have

advanced 10 cents per keg. The expected war between the Pennsylvania and Reading railroads adds to the duliness in coal. Cotton has advanced a sixteenth during the week. With restricted exports of products at present foreign exchange is steadily strong, but the treas-ury has put out of new notes \$200,000 more than it has added to its stock of gold and silver, and money markets throughout the country are amply supplied, while collections in all quarters are very fair for the season.

Business failures throughout the country during the last seven days number 146; for the corresponding week last year, 187.

GROWTH OF THE SOUTH.

The Industrial Development for the Past Week.

The industrial situation throughout the southern states continue to be of a satisfactory nature. The crop reports are being made up in several of the states, and indicate that cotton picking will be delayed about two weeks, and that its condition is only fair and hardly up to the average. There is a large increase i corn and other crops for home use, and much money spent in former years for supplies from the north and west will this year be kept at home. Business is reasonably good and increasing slowly; collections are reported

growing easier. The usual advance in the price of coal has been ordered, but this is customary at this time, and does not necessarily indicate an increased demand. The iron market is quiet, with no change in prices. Lumber men report a good demand with short supply in some grades and kinds. The textile manu facturers The face of these plates is highly deco- him instantly are doing well, and the increase in the number of mills continues each week. The machinery market is in a very good condition with increasing demand for goods.

Fifty new industries were established and incorporated during the week, together with nine enlargements of manufactories, and twenty-one important new buildings. Among the new industries reported are brick works at Waterloo. Ga., a \$500,000 development company at Macon, Ga., a \$10,000,000 irrigating company organized at El Paso, Tex., electric lighting and power companies at Gonzales, Tex., and Trenton, Tenn., and flour and grist mills at Mt. Willing. Ala-, Charlotte, N. O., Richmond, Ky., Columbia, Tenn., and Houston, Texas. A \$10,000 hardware company has been chartered at Atlanta. Ga., a bicycle factory established at Houston l'exas, a foundry and machine shop at Blacksfirst plate stood. burg, S. C., and a nail factory at Bridgeport, Ala. Coal mines are to be opened at Buckhannon, W. Va., lead mines at Cleveland. Tenn., and nickel mines at Alleghany Springs, Va. A \$10,000 oil mill will be built at Jefferson, Tex., salt works at Saltville, Va., sugar refineries at LaFayette and Ib rville, La., cotton mills es-tablished at Talladega, Ala., Meridian, Miss., Johnson City and Memphis, Tenn., knitting mills at Bridgeport und Opelika, Ala., and Roanoke, Va., and a woolen mill at Lewisburg.

A \$100,000 woodenware plant is reported at Galveston, Texas, a \$10,000 lumber company at Arkansas City, Ark., a sash and blind factory at Houston, Texas, saw and planing mills at Anthony and Tampa, Fla., and Mobile, Ala., and a handle factory on a large scale at Bristol, Tenn.

The enlargements for the week include flouring mills at Lebanon, Ala., phosphate plants at Albion, Fla., and iron works at Asheville, N. C., Staunton, Va., and Harriman, Tenn. New buildings includes business houses at Bowling the box was raised and the toes of the off in the price of cotton.
