Appointments in the Various Departments-Proceedings of the Senate.

THE SENATE. The senate was in open session only ten minutes Thursday morning, when, on motion of Mr. Daniel, it proceeded to executive business. Mr. Call offered a resolution in regard to the commission to inquire into the several executive departments of the government. The resolution declares that the provision of the appropriation act providing for appointment of three senators and three representatives of the 53d congress, by the presiding officers of the two houses in the 52d congress as such commission, is in derogation of the constitutional rights, privileges, and prerogatives of each house, is otherwise violative of the constitution and absolutely null and void. The resolution was ordered printed and laid on the table. After spending three-quarters of an hour in executive session, the sen-

ate adjourned till Monday. The presentation of petitions at the present extraordinary session was stopped at Monday's session at the suggestion of Mr. Gorman, and those petitions that may be received hereafter are to be filed with the secretary of the senate to be presented at the next regular session. The question as to the admisssion of the three men appointed as senators from the states of Montana, Wyoming and Washingrou, was submitted in the shape of majority reports from the common privileges fred and issued in execution of the immigration act of March 3, 1893, and the other instructing the committee on immigration to inquire into the condition and character of alien emigrants and into the working of the new immigration law with power to sit during recess and send for persons and papers. The resolution heretofore offered by Mr. Call in relation to the commission authorized by the last legislative appropriation bill to examine into the civil service of the executive branches of the government was called up, and after some discussion, was without action. The senate then proceeded to executive session business and soon an journed.

ABOUT THE DEPARTMENTS.

The following named fourth-class postoffices will be raised to the presidential class April 1st: Cloveport, Ky .: Plainview, Minn.; Blue Hill and Randolph, Neb.; Chandler, Edmond and Hennessy, Okl., and Ripley, Tenn.

Secretary Herbert will soon take up the question of changing the color of warships. The present shade of white for vessels of the American navy are found to be doubly as expensive as the former black. It is diffiult to keep the hulls clean in appearance, and the shade is not considered sufficiently deceptive, day or night, to clude an eye. It is understood that the paint experts will reccommend a return to black, and that after the review should any of the vessels be repainted the hulls may come from the dock bearing the old-time color.

Dr. F. O. St. Clair, for more than twenty-seven years head of the consular bureau in the state department, has been removed. Lase Saturday alteration Sec-retary Gresham sent a note to Dr. St. Clair notifying him that he desired him to tender his resignation at once, and further that his assistant, Mr. W. G. Faison, of North Carolina, had already been appointed his successor, and would assume the duties of the office. This was naturally a surprise to Dr. St. Clair, who had never before dreamed that his official conduct had been called into question. He sought an explanation from the secretary. The latter is said to have told him that he had been guilty of holding back official papers on the score that they were personal letters.

The senate Thursday confirmed the following nominations: Theodore Runyan, of New Jersey, as minister to Germany; Walter D. Dabney, of Virginia, as solicitor for the department of state; Edward B. Whitney, of New York, as assistant attorney general; James C. Jenkins, of Wisconsin, as United States circuit judge for the seventh judicial cirenit; Chas. C. first auditor of the treasury; Thomas Holcomb, of Delaware, as fifth auditor of the treasury.

Monday's Nominations.

The president, on Monday, sent to the senate the following nominations: Felix A. Reeves, of Tennessee, to be solicitor of the treasury; Joseph A. James, United States attorney for the Northern district of Georgia; William T. Gary, United States attorney for the Southern district of Georgia: Frank Leverett, of Georgia, United States marshal for the Southern district of Georgia; James Blackburn, of Kentucky, United States marshal for the district of Kentucky; Thomas J. The shoe trade at Cincinnati exceeds last year's 20 per cent and a better dry goods trade is seen at Cleveland; general trade is good, with large demand for structural iron, but collections are slow. Trade at Detroit about equals last year's, and at Indianapolis dry goods are active and manufacturer's busy. General trade at Chicago is good and e diections fair except at some western points, but money is in strong demand and partly because of bad roads. FOR LOWER RATES.

A South Florida Orange Grower is Making a Big Kick.

A correspondent in the Times Union, writing from Pinellas, says: "Something was said about all men being equal before the law, when this great country was first settled, and this abominable failure of a people, or a free government, was established. Something has been said about a game that two can play at, r a rule that works both ways.

Now think of these things. Our congress in its wisdom has seen fit and proper to enact a statute known as the interstate commerce law, and several great big, bloated and gouty fellows are paid salaand justice to all subjects of the United States under this law. I don't like to repeat the old, old story of the unequal and unjust discrimination made against Florida in regard to transportation rates, but the state of the orange market for a large part of this and preceding years show that we cannot bear this unjust load

Takeup the catalogues of orange sales in the Fruit exchanges' "distributing centers,, for the past two months, and I venture to say that of two-thirds of those sales the transportation men get the largest haif. Think of it! The lowest-priced, reliable route rate to New York, the purpose being a division of the for that I know of charges 78 cents, and to other points proportionally higher. For instance, to Chattanooga, the express rate from here is 88 cents, 75 cents to Washington! I can hardly say that there is such a thing as freight service. I cannot think of that one trial of that last season cured me for all time.

For two months oranges have been quoted in Atlanta and Chattanooga at from \$1.50 to \$2.25. Let us "split this A New York dispatch of Thursday difference" and we have \$1.87. Now give the transportation companies 80 \$2,000,000 gold will be exported by Sat- cents to Chattanooga, and put down 40 urday's steamers. KING HUMBERT ASSAULTED.

A Miscreant Hurls a Rock at Him but

Missed the Mark. Rome, Italy, was greatly excited Saturday afternoon over an assault that was made on King Humbert. The king was returning from the villa Broughese, where he had been spending a portion of the day, when a person, having the general appearance of an Italian workingman, threw a stone at the king, the missile almost striking. Several persons rushed npon the assailant and seized him before he had another chance to make an at-

tempt at violence. The assailant was promptly taken in hand by the police and conveyed to ries greater than the earnings of a dozen | prison. Otherwise in all probability he honest men to see to and enforce equality | would have been killed by the angry multitude. An immense crowd assembled and cheered the king with frantic enthusiasm and all the way to the palace the scene was like a triumphal progress. King Humbert gracefully acknowledged the ovation and was evidently deeply moved by the evidence of loyalty on the part of his subjec's.
